excerpt from new viewpoints in american history most adult americans of today gained their knowledge of american history before the present generation of historians had made perceptible progress in their epoch making work of

reconstructing the story of our past in the light of their new studies and investigations signs of a renaissance of american historical writing began to be evident as early as the decade of the eighties of the last century the new interest in historical and social phenomena was shown for instance in the founding of the american historical association the american economic association the american statistical association and the american academy of political and social science during that decade followed shortly after by the formation of the american political science association the american sociological society and the american society of international law american history which had formerly been envisaged as a record of arid political and constitutional development began to be enriched by the new conceptions and fresh points of view afforded by the scientific study of economics sociology and politics influences from abroad also played their part particularly the notable work of john richard green a short history of the english people 1874 with its revisions and enlargements quickened by these new impulses historians began to view the past of america with broadened vision and to attain the power of seeing familiar facts in new relationships the change did not take place overnight about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

there is an old jewish adage that pretty much sums up israel s experience among the nations for the last 2 000 years scratch a gentile the saying goes and you re sure to find an anti semite that notion is given credence by the fact that the first two millennia of the jewish christian encounter culminated in the systematic slaughter of six million jews in the heart of christendom but dr paul r carlson author of christianity after auschwitz is cautiously optimistic that the dawn of this new millennium may lead to jewish christian amity as the church faces up to its past sins and seeks to work with the synagogue against those demonic forces which threaten civilization itself however as carlson illustrates the genocidal germ that gave birth to hitler s criminal regime still flourishes among countless christians many of whom would passionately deny they harbor any anti semitic notions or sentiments while the book is addressed primarily to carlson s fellow evangelicals both jews and christians will discover that it provides the general reader with an overview of those critical issues which scholars alone have in the past wrestled with in the post holocaust jewish christian encounter at the outset carlson is quick to concede that the late rabbi joseph b soloveitchik a scion of the great chechnowa rebbe was certainly correct when he insisted that christians have never tried to penetrate the soul of the jews they have read the bible but neglected the oral tradition by which we interpret it he noted this makes a different bible altogether for example says rav soloveitchik to equate judaism with legalism the way christian theologians are prone to do is like equating mathematics with a compilation of mathematical equations by the same token old stereotypes die hard the jew has been pictured as the arch capitalist and the arch bolshevik and chastised for being both whipsawed by contending forces says nathan c belth the soviet authorities saw jews as a threat to the state and alexander solzhenitsyn who castigate d soviet terror sees jews as libertarians who brought on socialism after of course rejecting christ since time immemorial anti semites have also portrayed the jew as the greedy shady businessman or banker but they conveniently forget stories such as that of haym salomon 1740 1785 the jewish broker whose financial aid staved off starvation and desertion among american troops during our war for independence at one critical point robert morris the american financier and statesman sent a messenger to alert haym salomon of the plight of the cash strapped colonial forces the man brought the news to salomon while he was attending yom kippur services at mikveh israel synagogue in philadelphia the congregation was shocked at the intrusion on the holiest day of the jewish year but haym salomon quietly informed the messenger tell

mr morris our country s appeal will not be in vain but that old canard about jews and their money remains grist for the anti semite s mill by the same token jews have not been entirely blameless when it comes to their own stereotypes of christians particularly evangelicals nathan perlmutter confessed as much during his tenure as national director of the anti defamation league adl of b nai b rith our image of the fundamentalist and the evangelical is a kind of collage assembled out of bits and pieces from theodore dreiser sinclair lewis and erskine caldwell he admitted even after all this time memories of the great swarm of sex ridden bible thumping caricatures continue to exert a pervasive power but evangelicals would be among the first to admit that jews have come a long way since the days of the infamous toledot yeshu or life of jesus which depicted the galilean in scandalous terms indeed the israeli author shalom ben chorin is representative of those jewish intellectuals who now believe that it is time for jesus to come home again meanwhile few christians realize just how vulnerable many jews feel in what they perceive to be christian america that perception is heightened by the 1992 american jewish year book finding that roughly 12 percent of americans of jewish heritage are now christians there is another way of looking at what i have called a disaster in the making says former us assistant secretary of state elliott abrams author of faith or fear how jews can survive in a christian america of the 6 8 million people who are jews or of jewish descent 1 1 million say they have no religion and 1 3 million have joined another religion adding up to 2 4 million abrams observes this means that one third of the people in america of jewish ethnic origin no longer report judaism as their current religion abrams italics such statistics illustrate why jewish leaders unanimously condemn those christian missionary agencies which specifically target jews for conversion they have been particularly incensed by one recent evangelical effort known as peace 2000 which aimed to convert every jew in israel to christianity by the dawn of the new millennium centuries of martyrdom are the price which the jewish people has paid for survival says brandeis scholar marshall sklare and the apostate at one stroke makes a mockery of jewish history but if the convert is contemptible in jewish eyes sklare adds the missionary all the more the missionary of jewish descent is seen as pernicious for he forces the jew to relive the history of his martyrdom all the while pressing the claim that in approaching the jew he does so out of love what kind of love is it jews wonder that would deprive a man of his heritage sklare asks furthermore given the history of christian treatment of the jews would it not seem time at last to recognize that the jew has paid his dues and earned the right to be protected from obliteration by christian love as well as destruction by christian hate the distinguished rabbi abraham joshua heschel was even more pointed about the matter i had rather enter auschwitz he once remarked than be an object of conversion all of this leads to the opening chapter of christianity after auschwitz which introduces christians to emil fackenheim s eleventh commandment or 614th mitzvoth which decrees that jews are not permitted to grant hitler any posthumous victories through intermarriage assimilation or conversion to a faith not their own in a word they are commanded to remain jews by the same token jewish scholars are quick to recognize that any open and honest dialogue will at some point involve a frank discussion of the similarities and differences between the jewish and christian perception s of the messianic hope with that understanding the second chapter deals with the remarkable career of the late rabbi menachem mendel schneerson the seventh and last grand rebbe of the chabad lubavitch hasidim many of his talmidim or disciples believe he will ultimately be revealed as king messiah his life and work are considered within the context of that of jesus of nazareth as well as those of several pseudo messiahs who have troubled israel down through the centuries the author then makes it clear that jesus himsel

in 1973 henry kissinger shared the nobel peace prize for the secret negotiations that led to the agreement on ending the war and restoring peace in vietnam nixon famously declared the 1973 agreement to be peace with honor america was disengaging yet south vietnam still stood to fight its own war kissinger promptly moved to seal up his personal records of the negotiations arguing that they are private not government records and that he will only allow them to be unsealed after his death no peace no honor deploys extraordinary documentary bombshells including a complete north vietnamese account of the secret talks to blow the lid off the true story of the peace process neither nixon and kissinger s critics nor their defenders have guessed at the full truth the entire peace negotiation was a sham nixon did not plan to exit vietnam but he knew that in order to continue bombing without a congressional cutoff he would need a fig leaf kissinger negotiated a deal that he and nixon expected the north to violate ironically their long maintained spin on what happened next is partially true only watergate stopped america from sending the bombers back in this revelatory book has many other surprises berman produces new evidence that finally proves a long suspected connection between candidate nixon in 1968 and the south vietnamese government he tells the full story of operation duck hook a large scale offensive planned by nixon as early as 1969 that would have widened the war even to the point of bombing civilian food supplies he reveals transcripts of candidate george mcgovern s attempts to negotiate his own october surprise for 1972 and a seriocomic plan by the cia to overthrow south vietnam s president thieu even as late as 1975 throughout with page turning dialogue provided by official transcriptions and notes berman reveals the step by step betrayal of south vietnam that started with a short circuited negotiations loop and ended with double talk false promises and outright abandonment berman draws on hundreds of declassified documents including the notes of kissinger s aides phone taps of the nixon campaign in 1968 and mcgovern s own transcripts of his negotiations with north vietnam he has been able to double and triple check north vietnamese accounts against american notes of meetings as well as previously released bits of the record he has interviewed many key players including high level south vietnamese officials this definitive account forever and completely rewrites the final chapter of the vietnam war henry kissinger s nobel prize was won at the cost of america s honor
