in this second edition the authors have completely updated expanded the original volume to produce a timely important treatment of the relationship between education national development a new chapter on women education development directs attention to a dimension of development which until recently has been largely neglected this title was first published in 2000 super optimizing analysis deals with public policy problems by finding an alternative that enables conservatives liberals and other viewpoints to come out ahead of their expectations simultaneously this text explores the ideas and seeks to make super optimum solutions a matter of routine for those wishing to acquire knowledge on national development issues this comprehensive compendium traverses a spectrum of subjects that the audience ought to be well acquainted with the editors provide instructive findings regarding national development economic growth and their determinants but they also offer historical perspectives on the subject and the implications for developing countries the book addresses a suite of critical themes regarded by development experts to be germane in considering the pertinence of policies and their effective execution these seven general thematic areas are explored leadership governance policy and strategy public sector and public financial management culture institutions and people natural resources science technology and infrastructure private sector and financial markets marketing branding and service delivery this thematic approach enables the contributors to explore the impact of the constituents of each subject area on national development within the context of a developing economy the significance of the findings for the relevant stakeholders is consequently reviewed the combination of theory and practice makes the book and its contents unique comparative national development society and economy in the new global order carvounis reviews the debt servicing problems of developing countries focusing on the experience of nine cases mostly in latin america he stresses the adverse impact on the development prospects of these countries resulting from the adjustment policies that they have been required to pursue carvounis criticizes the current austerity oriented approach to restoring orderly debt servicing maintaining that his emphasis is leading to severe economic political and social problems within these countries he argues that the economic capacity and political will of borrowing countries to continue this route is dissipating choice this in depth case study of several national development banks explores the role of these institutions in innovation and structural change infrastructure financing and financial inclusion it reflects on the significant contribution that these banks can make to a countries development and their broader role within economic policy in the early part of this century argentina was one of the most affluent nations in the world since then the argentine economy has experienced long periods of stagnation and recession larry sawers links the country s economic failure to the backwardness of the interior which comprises 70 percent of the area of the country and in which nearly one third of the population resides the interior s poverty according to sawers is caused by the scarcity of agricultural resources and by serious inequalities in the distribution of those resources the region is poorly endowed land has been degraded through abuse and overuse and most farmers work tiny unproductive plots moreover most of the products of the interior are produced for highly protected domestic markets and face stiff competition and falling prices in world markets recent reforms in argentina have dramatically aggravated the economic crisis of the interior sawers shows how the poverty of the interior has contributed to the dismal performance of the argentine economy as a whole he emphasizes the deleterious effects of extensive emigration from the interior to the major urban areas that are unable to absorb the human tide additionally the national government has taxed the more prosperous regions in order to subsidize the interior placing a severe drain on the federal government budget and worsening inflation the effects of the interior s poverty on the nation are also political sawers argues that the backward political system in the interior exacerbates the worst features of the national political culture and governance which in turn pose profound obstacles to economic progress in more than one hundred developing countries international organizations continuously offer practical assistance for economic advancement and social change assistance that in some cases forms a substantial part of national programs this book examines international aid in three countries malawi tanzania and zambia in order to ascertain how assisting organizations exert influence on member governments professor gordenker draws on interviews information usually inaccessible to observers and his own direct field observation of programs established by the united nations system of organizations in the three countries during the late 1960s immediately after their independence from british administration this period witnessed sharp changes in national development policies and the political turmoil produced by the rhodesian revolt the author analyzes in detail the creation bureaucratic consideration and execution of important projects his conclusions cast doubt on the existence of a reliable process by which international organizations may influence national governments and he explains why such doubt is well founded originally published in 1976 the princeton legacy library for case materials and the book contains numerous valuable references to the recent literature on development gregory d schmidt northern illinois university this book offers interesting features at both the pedagogical and analytical levels the author s interdisciplinary approach as well as her macro and micro perspectives give valuable insight into the highly complex world of the management of development international review of administrative sciences this is a superb text one that will be required reading by all scholars in the field of development it is particularly important for its contribution to recent scholarship and its use of new innovative approaches to development this book is a breath of fresh air in a field full of platitudes and old ideas it will improve both thinking and teaching about development management jane l parpart dalhousie university nova scotia canada long overdue this text is not only gender sensitive but interdisciplinary theoretically grounded policy relevant and best of all interesting to read sue ellen charlton colorado state university while theoretically aware and non aligned to any official agency staudt s approach to development management is essentially practical and pragmatic her concern for grassroots participation is combined with a full appreciation of the significance of national and international levels of decision making and implementation and of the roles of both governmental and non governmental organizations in a style that is both direct and clear she informs but does not prescribe about the contexts the techniques the institutions and the sectors in which and with which management operates providing in the process a variety of challenging and realistic case studies she also succeeds admirably in integrating gender as a matter of common sense into the mainstream of international development management concerns david hirschmann the american university washington d c this text provides a brilliant juxtaposition of interrelated but hitherto isolated fields in the complex and controversial political economy of development the author brings unique timely insights and formats to bear especially from indigenous third world activists authors and scholars as well as practitioners she bridges the local and global the political and the technical her book is particularly welcome at the start of the 1990s as a truly radical departure from the diversions and disappointments of orthodox development administration and structural adjustment hopefully public policy will not be the same once this text is distributed digested and debated timothy w shaw dalhousie university nova scotia canada staudt presents a multifaceted comprehensive analysis with illustrative examples drawn from a wide range of countries a worthwhile contribution to recent literature reporting on and assessing the record of governmentally sponsored developmental efforts with a focus on issues of management and administration woven throughout the text are commendable references to persistent deficiencies such as the dearth of participation by women in development activities and the frequency of a

feeling of alienation and distance between institutional staff members and the people they should be serving another praiseworthy feature is inclusion of many teaching aids such as cases role playing sessions and staggered assignments related to the preparation of individual projects outstanding source for bibliographical information about recent literature on development public administration review a useful book for those involved in development work it moves beyond politics and policy making into organization for action and studies political relationships between people their organizations and the state in development projects case studies examples and role play exercises are used to build analytic skills intermediate technology bookshop the complexities facing development managers are vast the enormous challenges to understanding the breadth and depth of development transformation are apparent in each level of this process and demand attention answering the need for a comprehensive introductory resource is managing development this fresh perspective on development management analyzes both international and national development agencies and shows the widely differing cultural contexts in which to plan manage and evaluate development programs stressing political context and process throughout the focus nevertheless in managing development is on bureaucratic politics and political relationships between people their organizations and the state in development programs and projects the chapters examine development programs in agriculture and health particularly reproductive health and provide hypothetical situations examples and roleplay exercises a well integrated treatment of development teaching learning and applications this volume shows that much can be learned from the analysis of both successful and unsuccessful development programs managing development is the essential resource for courses in development studies political science comparative politics urban studies and policy studies as well as for planners and researchers in development management
