The Rise of Neoliberal Feminism 2018-08-01 from hillary clinton to ivanka trump and from emma watson all the way to beyoncé more and more high powered women are unabashedly identifying as feminists in the mainstream media in the past few years feminism has indeed gained increasing visibility and even urgency yet in her analysis of recent bestselling feminist manifestos well trafficked mommy blogs and television series such as the good wife catherine rothenberg reveals that a particular variant of feminism which she calls neoliberal feminism has come to dominate the cultural landscape one that is not interested in a mass women s movement or struggles for social justice rather this feminism has introduced the notion of a happy work family balance into the popular imagination while transforming balance into a feminist ideal so called aspirational women are now exhorted to focus on cultivating a felicitous equilibrium between their child rearing responsibilities and their professional goals and thus to abandon key goals that have historically informed feminism including equal rights and liberation rothenberg maintains that because neoliberalism reduces everything to market calculations it actually needs feminism in order to solve thorny issues related to reproduction and care she goes on to show how women of color and poor and immigrant women most often serve as the unacknowledged care workers who enable professional women to strive toward balance arguing that neoliberal feminism legitimates the exploitation of the vast majority of women while disarticulating any kind of structural critique it is not surprising then that this new feminist discourse has increasingly dovetailed with conservative forces in europe gender parity has been used by marine le pen and geert wilders to further racist anti immigrant agendas while in the united states women s rights has been invoked to justify interventions in countries with majority muslim populations and though campaigns such as the metoo and timesup appear to be shifting the discussion given our frightening neoliberal reality these movements are currently insufficient rothenberg therefore concludes by raising urgent questions about how we can successfully reorient and reclaim feminism as a social justice movement

The Rise and Fall of the Neoliberal Order 2022 gary gerstle provides a sweeping re interpretation of the entire era from the revival of market liberalism in the 1970s to the ruin generated by the 2008 global financial crisis that places america at the center

The Politics of Free Markets 2006-07-17 the attempt to reduce the role of the state in the market through tax cuts decreases in social spending deregulation and privatization neoliberalism took root in the united states under ronald reagan and in britain under margaret thatcher but why did neoliberal policies gain such prominence in these two countries and not in similarly industrialized western countries such as france and germany in the politics of free markets a comparative historical analysis of the development of neoliberal policies in these four countries monica prasad argues that neoliberalism was made possible in the united states and britain not because the left in these countries was too weak but because it was in some respects too strong at the time of the oil crisis in the 1970s american and british tax policies were more punitive to business and the wealthy than the tax policies of france and west germany american and british industrial policies were more adversarial to business in key domains and while the british welfare state was the most redistributive of the four the french welfare state was the least redistributive prasad shows that these adversarial structures in the united states and britain created opportunities for politicians to find and mobilize dissatisfaction with the status quo while the more progrowth policies of france and west germany prevented politicians of the right from anchoring neoliberalism in electoral dissatisfaction

The Rise of Neoliberal Philosophy 2021-08-20 in the rise of neoliberal philosophy human capital profitable knowledge and the love of wisdom brandon absher argues that the neoliberal transformation of higher education has resulted in a paradigm shift in philosophy in the united states leading to the rise of neoliberal philosophy neoliberal philosophy seeks to attract investment by demonstrating that it can produce optimal return further philosophers in the neoliberal paradigm internalize and reproduce the values of the prevailing social order in their work reorienting philosophical desire toward the production of attractive commodities the aim of philosophy in the neoliberal university absher shows has become the production of human capital and profitable knowledge

The Rise of Neoliberalism and Institutional Analysis 2018-06-05 the last quarter century has been marked by the ascension of neoliberalism market deregulation state decentralization and reduced political intervention in national economies not coincidentally this period of dramatic institutional change has also seen the emergence of several schools of institutional analysis though these schools cut across disciplines they have remained isolated from and critical of each other this volume brings together four rational choice organizational historical and discursive institutionalism to examine the rise of neoliberalism in doing so it makes tremendous methodological strides while substantively enlarging our knowledge about neoliberalism the book comprises original empirical studies by top scholars from each school of analysis they examine neoliberalism s rise on three continents and explore changes in macroeconomic policy labor markets taxation banking and health care neoliberalism appears as much more complex diverse and contested than is often appreciated the authors find that there is no convergence toward a common set of neoliberal institutions that neoliberalism does not incapacitate states and that neoliberal reform does not necessarily yield greater efficiency than other institutional arrangements beyond these important empirical contributions this book is a methodological milestone in that it compares different schools of institutionalist analysis by seeing how they tackle a common problem it reveals a second movement within institutionalism one toward rapprochement and cross fertilization among paradigms and explains how this might be furthered with benefits throughout the social sciences in addition to the editors the contributors are sarah l babb ellen m bradburn bruce g carruthers terence c halliday colin hay edgar kiser peter kjaer jack knight aaron matthew laing david strang and bruce western

[The Rise and Fall of Neoliberalism](#) 2013-07-18 the recent devastating and ongoing economic crisis has exposed the faultlines in the dominant neoliberal economic order opening debate for the first time in years on alternative visions that do not subscribe to a free market ethic bringing together the work of distinguished scholars and dedicated activists the rise and fall of neoliberalism presents critical perspectives of neoliberal policies questions the ideas underpinning neoliberalism and explores diverse responses to it from around the world

The Rise and Fall of Neoliberal Capitalism 2015-02-09 shows photographers with budget and space restrictions how to create studio lighting effects that range from clean and classic to highly complex original 20 000 ad promo

The Rise of Neo-liberalism and the Decline of Freedom 2020-12-01 this book examines the relationship that prevails between the state and freedom in the works of milton friedman and friedrich hayek as well as those of some of their peers including gary becker james buchanan and george stigler the author explains that their concept of freedom was largely derived from the principles and

values of neo liberalism however she maintains that neo liberals never cared about providing the masses with genuine freedom rather they value freedom for its instrumental value in terms of facilitating the global spread of free market capitalism the author explains that the neo liberal concept of freedom has been a very useful tool in promoting the superiority of free market capitalism over centrally planned economies aimed at achieving the common good she argues that even though neo liberals are strongly opposed to central planning they are tolerant of state planning intended to help establish and sustain the conditions of a free market system she also contends that the extensive implementation of neo liberal reforms and policies has led to states losing their sovereignty and moving away from their traditional role of achieving the common good the author claims that the world has essentially become the sum of many neo liberal societies particularly during the last four decades she also maintains that throughout human history no other ideology school of thought political religious or military institution kingdom or empire has been as successful as neo liberalism when it comes to shaping people s beliefs ideals goals and lifestyle on a global scale unfortunately neo liberalism has proven to be very detrimental for civilization and the future of the planet the author concludes that the widespread adoption of the neo liberal concept of freedom in combination with the pretense that economics is a natural ahistorical and value free science has triggered the emergence of methodological monism which has resulted in unfreedom and the poverty of economics while also delaying the progress of the entire discipline

Internalizing Globalization 2005-11-16 this book explores how a wide range of countries attempt to cope with the challenges of globalization while the internalization of globalization proceeds in significantly different ways there is a broad process of convergence taking place around the politics of neoliberalism and a more market oriented version of capitalism the book examines how distinct social structures political cultures patterns of party and interest group politics classes public policies liberal democratic and authoritarian institutions and the discourses that frame them are being reshaped by political actors chapters cover national experiences from europe and north america to asia and latin america chile mexico and peru

The Global Rise of Authoritarianism in the 21st Century 2020-09-22 neoliberal globalization is in deep crisis this crisis is manifested on a global scale and embodies a number of fundamental contradictions a central one of which is the global rise of authoritarianism and fascism this emergent form of authoritarianism is a right wing reaction to the problems generated by globalization supported and funded by some of the largest and most powerful corporations in their assault against social movements on the left to prevent the emergence of socialism against global capitalism as the crisis of neoliberal global capitalism unfolds and as we move to the brink of another economic crisis and the threat of war global capitalism is once again resorting to authoritarianism and fascism to maintain its power this book addresses this vital question in comparative historical perspective and provides a series of case studies around the world that serve as a warning against the impending rise of fascism in the 21st century

In the Ruins of Neoliberalism 2019-07-16 across the west hard right leaders are surging to power on platforms of ethno economic nationalism christianity and traditional family values is this phenomenon the end of neoliberalism or its monstrous offspring in the ruins of neoliberalism casts the hard right turn as animated by socioeconomically aggrieved white working and middle class populations but contoured by neoliberalism s multipronged assault on democratic values from its inception neoliberalism flirted with authoritarian liberalism as it warred against robust democracy it repelled social justice claims through appeals to market freedom and morality it sought to de democratize the state economy and society and re secure the patriarchal family in key works of the founding neoliberal intellectuals wendy brown traces the ambition to replace democratic orders with ones disciplined by markets and traditional morality and democratic states with technocratic ones yet plutocracy white supremacy politicized mass affect indifference to truth and extreme social disinhibition were no part of the neoliberal vision brown theorizes their unintentional spurring by neoliberal reason from its attack on the value of society and its fetish of individual freedom to its legitimation of inequality above all she argues neoliberalism s intensification of nihilism coupled with its accidental wounding of white male supremacy generates an apocalyptic populism willing to destroy the world rather than endure a future in which this supremacy disappears

Neoliberalism Reloaded 2023-01-30 neoliberalism reloaded authoritarian governmentality and the rise of the radical right analyzes the violent enforcement of neoliberal governmentality and its relationship to the emergence of a new political and cultural right that combines political authoritarianism ethnocentric nationalism racism misogyny and antifeminism with neoliberal economic principles many critical thinkers have defined this post 2008 crisis phase as a fascist moment of neoliberalism since far right movements and parties are not only enhancing their political representation but also setting the agenda of today s politics however such a crucial political moment needs more precise analytical tools in this framework neoliberalism reloaded authoritarian governmentality and the rise of the radical right seeks to understand the emergence of the new right and punitive neoliberalism not only as a reaction to a crisis of accumulation but also as an outcome of neoliberal reason and the historical neoliberal alliance with conservative and reactionary political forces therefore far from thinking this moment as exceptional this book seeks the roots of today s punitive neoliberalism in its theoretical framework and in the violence inherent to neoliberal capitalism towards those racialized colonized genderized and precarized populations that cannot adjust to the norm of competitiveness thus neoliberalism reloaded seeks to contribute to understanding the challenges of our present as a necessary step to imagine alternative futures

Failing Forward 2023-03-14 failing forward documents the global rise of neoliberal conservation as a response to biodiversity loss and unpacks how this approach has managed to fail forward over time despite its ineffectiveness at its core neoliberal conservation promotes market based instruments intended to reconcile environmental preservation and economic development by harnessing preservation itself as the source of both conservation finance and capital accumulation more generally robert fletcher describes how this project has developed over the past several decades along with the expanding network of organizations and actors that have come together around its promotion drawing on lacanian psychoanalysis he explores why this strategy continues to captivate states nongovernmental organizations international financial institutions and the private sector alike despite its significant deficiencies ultimately fletcher contends neoliberal conservation should be understood as a failed attempt to render global capitalism sustainable in the face of its intensifying social and ecological contradictions consequently the only viable alternative capable of simultaneously achieving both environmental sustainability and social equity is a concerted program of degrowth grounded in post capitalist principles

The Rise and Fall of Neoliberalism 2010-06-24 the recent devastating and ongoing economic crisis has exposed the faultlines in the dominant neoliberal economic order opening debate for the first

time in years on alternative visions that do not subscribe to a free market ethic bringing together the work of distinguished scholars and dedicated activists the rise and fall of neoliberalism presents critical perspectives of neoliberal policies questions the ideas underpinning neoliberalism and explores diverse responses to it from around the world

The Morals of the Market 2019-11-05 the fatal embrace of human rights and neoliberalism why did the rise of human rights in the 1970s coincide with the institutionalisation of neoliberalism and why has the neoliberal age also been the age of human rights drawing on detailed archival research on the parallel histories of human rights and neoliberalism jessica whyte uncovers the place of human rights in neoliberal attempts to develop a moral framework for a market society in the wake of world war two neoliberals saw demands for new rights to social welfare and self determination as threats to civilisation yet rather than rejecting rights they developed a distinctive account of human rights as tools to depoliticise civil society protect private investments and shape liberal subjects honing in on neoliberal political thought whyte shows that the neoliberals developed a stark dichotomy between politics conceived as conflictual coercive and violent and civil society which they depicted as a realm of mutually beneficial voluntary market relations between individual subjects of rights in mobilising human rights to provide a moral language for a market society neoliberals contributed far more than is often realised to today s politics of human rights

Neoliberal Nationalism 2021-01-07 shows how liberal neoliberal and nationalist ideas have combined to impact western states immigration and citizenship policies

The Rise and Fall of Neoliberal Capitalism 2018 a history of the erosion of democracy across the globe democracy is being destroyed this is a crisis that expresses itself in the rising authoritarianism visible in divisive and exclusionary politics populist political parties and movements increased distrust in fact based information and news and the withering accountability of state institutions over the last four decades democracy has radically shifted to a market democracy in which all aspects of human non human and planetary life are commodified with corporations becoming more powerful than states and their citizens this is how neoliberal capitalism functions at a systemic level and if left unchecked is the greatest threat to democracy and a sustainable planet volume six of the democratic marxism series focuses on how decades of neoliberal capitalism have eroded the global democratic project and how in the process authoritarian politics are gaining ground scholars and activists from the political left focus on four country cases india brazil south africa and the united states of america in which the covid 19 pandemic has fuelled and highlighted the pre existing crisis they interrogate issues of politics ecology state security media access to information and political parties and affirm the need to reclaim and re build an expansive and inclusive democracy destroying democracy is an invaluable resource for the general public activists scholars and students who are interested in understanding the threats to democracy and the rising tide of authoritarianism in the global south and the global north

Destroying Democracy 2021-08-01 a powerful case that the economic shocks of the 1970s hastened both the end of the cold war and the rise of neoliberalism by forcing governments to impose austerity on their own people why did the cold war come to a peaceful end and why did neoliberal economics sweep across the world in the late twentieth century in this pathbreaking study fritz bartel argues that the answer to these questions is one and the same the cold war began as a competition between capitalist and communist governments to expand their social contracts as they raced to deliver their people a better life but the economic shocks of the 1970s made promises of better living untenable on both sides of the iron curtain energy and financial markets placed immense pressure on governments to discipline their social contracts rather than make promises political leaders were forced to break them in a sweeping narrative the triumph of broken promises tells the story of how the pressure to break promises spurred the end of the cold war in the west neoliberalism provided western leaders like ronald reagan and margaret thatcher with the political and ideological tools to shut down industries impose austerity and favor the interests of capital over labor but in eastern europe revolutionaries like lech walesa in poland resisted any attempt at imposing market discipline mikhael gorbachev tried in vain to reform the soviet system but the necessary changes ultimately presented too great a challenge faced with imposing economic discipline antithetical to communist ideals soviet style governments found their legitimacy irreparably damaged but in the west politicians could promote austerity as an antidote to the excesses of ideological opponents setting the stage for the rise of the neoliberal global economy

The Triumph of Broken Promises 2022-08-09 thanks to the rise of neoliberalism over the past several decades we live in an era of rampant anxiety insecurity and inequality while neoliberalism has become somewhat of an academic buzzword in recent years this book offers a rich and multilayered introduction to what is arguably the most pressing issue of our times engaging with prominent scholarship in media and cultural studies as well as geography sociology economic history and political theory author julie wilson pushes against easy understandings of neoliberalism as market fundamentalism rampant consumerism and or hyper individualism instead wilson invites readers to interrogate neoliberalism in true cultural studies fashion at once as history theory practice policy culture identity politics and lived experience indeed the book s primary aim is to introduce neoliberalism in all of its social complexity so that readers can see how neoliberalism shapes their own lives as well as our political horizons and thereby start to imagine and build alternative worlds

Neoliberalism 2017-07-28 this book explores how imperialism has been evolving in the neoliberal era with the aim of providing a systematic and integrative understanding of the inner dynamics and vulnerabilities of the contemporary imperialist system asking how it has been possible to sustain an imperialist system that fails to address the problems of unemployment declining standards of living and globalizing conflicts the author draws upon theoretical and empirical contributions from the current literature to further recent efforts at re conceptualizing imperialism under the conditions of neoliberal globalization and advances a critique of the school of transnationalism in global political economy the author puts forward that contemporary imperialism rests on a triangular structure composed of a economic imperialism which is driven by a neoliberal logic of maximizing monopoly profits at massive societal costs b military imperialism which is shaped by the neoliberal transformation of the us military industrial complex with the rise of private armies the globalization of narcocapitalism and the weaponization of islamist terrorism and ethno religious divides and c cultural imperialism which is led by the media and nonprofit corporate complexes having weaponized the media and civil society in manufacturing popular consent the book s arguments are also extended to the current challenges of imperialism embodied in the rise of the brics post hegemonic forms of regional cooperation and global popular resistance as such it will appeal to scholars of

politics and sociology with interests in globalization imperialism capitalism and global power

Imperialism after the Neoliberal Turn 2022-01-03 in this unique and dramatic account of the rise of neoliberalism howard and king consider the major features of historical materialism the factors which resulted in 19th and 20th century thinkers incorrectly predicting the long term decline of the market and the prospects for a reversal of neoliberalism in the 21st century

The Rise of Neoliberalism in Advanced Capitalist Economies 2008-06-24 global rupture makes a key intervention in debates on informal and precarious labour increasing recognition that informal and precarious labour is an enduring reality under neo liberal capitalism and the norm globally rather than the exception has ignited debates around analytical frames activist strategies and development interventions this pathbreaking volume provides a corrective through drawing upon theoretically informed rich case studies from the world outside of north america europe and australasia each contribution converges on the enduring and expanding significance of informal and precarious work within the global south the most significant factor in preventing a worldwide decent work agenda global rupture neoliberal capitalism and the rise of informal labour in the global south is now available in paperback for individual customers

Global Rupture 2022-12-28 how did neoliberalism arise faced with the crises of the 1970s a coalition of neoliberal intellectuals conservative politicians and business interests carried out a vast project of walling off the economy from democracy ensuring the dominance of finance or so the conventional story goes democracy in default offers a new perspective on the birth of neoliberalism showing that this common narrative confuses cause and effect financialization was not the offspring of deregulation but the mechanism that allowed neoliberalism to take root brian judge argues that financialization was a nearly spontaneous response to a crisis within liberalism he examines how liberalism disavows the problem of distributive conflict leaving it vulnerable when those conflicts erupt when the postwar growth engine began to slow finance promised a way out of the resulting political impasse allowing liberal democracies to depoliticize questions of distribution and sustain the existing social and economic order elected officials were not simply captured or co opted but willingly embraced financial solutions to their political problems unleashing the financial imperative to generate monetary returns however ushered in an all encompassing transformation vivid case studies the bankruptcy of stockton california the investment strategy of the california public employees retirement system and the 2008 financial crisis illustrate how the priorities of financial markets radically altered liberal democratic governance recasting the political and economic transformations of the past half century democracy in default offers a bracing new account of the relationship between neoliberalism and financialization

Democracy in Default 2024-03-26 islamist capital accumulation has split the turkish bourgeoisie and polarized turkish society into secular and religious social groupings giving rise to conflicts between the state and political islam by providing a long term historical perspective on turkey s economy and its relationship to islamism this volume explores how islamism as a political ideology has been utilized by the conservative bourgeoisie in turkey and elsewhere to establish hegemony over labor the contributors analyze the relationship between neoliberalism and the political fortunes of the islamist justice and development party akp and examine the similarities and differences amongst new factions in the secular and islamic middle class that have benefited economically socially and culturally during the akp s reign the articles also investigate the impact of the gülen movement and the role of the media in shaping the contours of intra class struggle within contemporary turkish political and social life

The Neoliberal Landscape and the Rise of Islamist Capital in Turkey 2015-02-01 middle classes are by definition ambiguous raising all sorts of paradoxical questions perceived and real about their power and place relative to those above and below them in a class structured society focusing on families of the new middle class in istanbul the authors of this study address questions about the social construction of middle class reality in the context of the rapid changes that have come about through recent economic growth in global markets and the global diffusion of information technology after 1980 turkey saw a structural transformation from state owned and managed industry banking and media and communications to privatization and open markets the idea of being middle class and the reality of middle class practices became open for negotiation and interpretation this study therefore offers a particularly interesting case study of an emergent global phenomenon known as the transnational middle class characterized by their location of work in globalizing cities development of transnational social networks sumptuary consumption habits and residences in gated communities as the authors show this new middle class associates quality education followed by property and lifestyle issues with the concept of a comfortable life

Reproducing Class 2009-02-01 populism and neoliberalism argues that the roots of populism lay in the contradiction between the democratic ideal which implies that the people should decide and neoliberal governance which seeks to make markets and competition the arbiters of major social developments neoliberalism is not the product of a clearly conceived ideology but rather a set of doctrines based on a few major principles which have been embraced by decision makers of all kinds with little reassessment along the way in practice a certain art of governing that exploited an economic thinking insensitive to social complexity gradually imposed itself by being wrongly identified as the successor to liberalism the rise of populist movements poses a significant challenge to liberal democracies yet the causes of these movements remain beyond the understanding of experts the explanation of populism is often limited to a mere political analysis contrary to that this book investigates the economic and social dynamics of the free market system and explains how populism emerges from its imbalances it also aims to explain the emergence of the neoliberal doctrines during the 1930s and to characterise their common features in light of this it explores how the rise of inequality and social discontent create a pressing duty to develop another model and argues that we must now rethink our policies in depth in order to respond to the challenge of authoritarian populism this book marks a significant intervention in the debate about the rise and fall of neoliberalism its analysis of the links between the failings of neoclassical economics and the failings of neoliberal politics provides essential reading for anyone interested in the damaging impact of neoliberalism the failings of neoclassical economics and explanations for the rise of populism

Populism and Neoliberalism 2021-03-22 the global rise of neoliberalism since the 1970s is widely seen as a dynamic originating in the united states and the united kingdom and only belatedly and partially repeated by germany from this anglocentric perspective germany s emergence at the forefront of neoliberal reforms in the eurozone is perplexing and tends to be attributed to the same forces conventionally associated with the anglo american pioneers this book challenges this ruling narrative conceptually and empirically it recasts the genesis of neoliberalism as a process driven by a

plenitude of actors ideas and interests and it lays bare the pragmatic reasoning and counterintuitive choices of german crisis managers that are obscured by this master story drawing on extensive original archival research this book argues that german officials did not intentionally set out to promote neoliberal change instead they were more intent on preserving germany s export markets and competitiveness in order to stabilize the domestic compact between capital and labor nevertheless the series of measures german policy elites took to manage the end of golden age capitalism promoted neoliberal transformation in crucial respects it destabilized the bretton woods system it undermined socialist and social democratic responses to the crisis in europe it frustrated an internationally coordinated keynesian reflation of the world economy and ultimately it helped push the us into the volcker interest rate shock that inaugurated the attack on welfare and labor under reagan and thatcher from this vantage point the book illuminates the very different rationale behind the painful reforms german state managers have demanded of their indebted eurozone partners Unwitting Architect 2021-01-05 this book pinpoints continuities and changes in u s foreign economic policy from the fixed exchange rate system of the 1960s through to the period between the two oil crises of the 1970s chapters pay close attention to the interconnectedness between the long lasting decline of the u s dollar on foreign exchange markets and the u s balance of payments transformations in international capital markets and international oil developments the book charts the prolonged failure of washington s foreign economic policies to restore u s financial and monetary leadership through to the carter administration

Before the Neoliberal Turn 2017-10-31 hungary in state of exception seeks to analyze the transboundary exchange of political and economic ideas through the global neoliberal hegemonic struggle neoliberalism as a economic and political ideology defined the history of hungary not just in the 21st century but in the troubled 20th century eastern europe played a crucial role in neoliberalism s rise to control globalized capitalism and central and eastern europe cee have constantly an incubator of and experimental laboratory for new types of neoliberal capitalism antal arguesthat neoliberalism like populism is historically embedded in hungarian political history its the political form is economic and governmental exceptionalism this book reveals the common history of western and eastern style neoliberalism from the austro hungarian empire to the contemporary covid 19 crisis without emphasis on the century of neoliberalization of cee the contemporary rise of regional authoritarianism cannot be understood antal also details the relationship between orbán s rise and contemporary neoliberal politics in cee

Hungary in State of Exception 2022-03-25 the fall of communist regimes and the end of the cold war marked the start of a new regressive phase of the modernization process this book explains the genesis and the spread of this veritable new form of government termed oikocracy it is characterised by transnational clan networks being the dominant social structures and the primacy of private economic interests over public political interests as such it supersedes traditional forms of government having originated in the most highly industrialised countries this neoliberal absolutism no longer requires sophisticated ideologies or institutional propaganda rather relying on the dynamics of a globalised world that facilitate an easy mobilization of the masses and thereby expanding to the rest of the world this book suggests that in response we have to develop new principles of government antagonistic to the existing ones and avoid solutions proposed by an increasing number of western leaders

The Age of Neoliberal Absolutism 2024-06-17 this outstanding book explores the rise of prison populations in the us in britain and in other european countries as well as in latin america beginning with a rich ethnographic account of being inside the men s central jail in los angeles the author moves on to develop an argument about the connections between neoliberalism as a political doctrine and incarceration as a social policy loïc wacquant reveals that the growing symbiosis between politics the media immigration and penal institutions are transforming the definition treatment and representation of crime justice and citizenship not only in the united states but also in europe and latin america in the age of unfettered markets and enfeebled social welfare states the penal system is a major engine of social stratification urban change and cultural demarcation in its own right it remakes those segments of the city onto which it latches in its own image turning them into devices for the expurgation of dispossessed groups and the symbolic destruction of important urban ills deadly symbiosis is a timely book which offers a rigorous and engaging account of why the penal system must be put at the centre of social inquiry political reflection and civic action today

Deadly Symbiosis 2004 the rise of neoliberal policy and practice simultaneous to the growing recognition of economic and social rights presents a puzzle can the rights to food water health education decent work social security and the benefits of science prevail against market fundamentalism economic and social rights in a neoliberal world is about the potential of these rights to contest the adverse impacts of neoliberal policy and practice on human wellbeing cutting across several lines of human rights literature the chapters address norm development court decision making policymaking advocacy measurement and social mobilization the analyzes reveal that neoliberalism infiltrates management practices changes international policy goals flattens public school curriculum and distorts the outputs of un human rights treaty bodies are economic and social rights successful in challenging neoliberalism are they simply marginalized or are they co opted and incorporated into neoliberal frameworks this multidisciplinary work by a geographically diverse group of scholars and practitioners begins to address these questions

Economic and Social Rights in a Neoliberal World 2018-06-30 this book explores the politics institutional dynamics and outcomes of neoliberal restructuring in israel it puts forward a bold proposition that the very creation of a neoliberal political economy may be largely a state project correspondingly it argues that key political conflicts surrounding the realization of this project may occur within the state neoliberal restructuring and the institutionalization of permanent austerity are dependent on reconfigured power relations between state actors and are manifested in a new institutional architecture of the state this architecture in turn is the context in which efforts to change social and employment policies play themselves out the volume frames the coming of neoliberalism in israel as a set of concrete and far reaching changes in the power and modes of operation of the key players in the political economy these changes undermined and neutralized veto players and enabled the ascendance of two state agencies the ministry of finance and the central bank which gained greatly augmented authority and autonomy these reconfigurations were set in motion by state initiatives that combined punctuated and incremental change the volume comprises case studies of changes in specific social and labor market policies revealing a close elective affinity between programmatic neoliberal changes on the one hand and on the other the proactive drive of the ministry of finance to enhance its control over public spending and policy design the book

explores successful neoliberal reforms but also reforms that were blocked undermined or overturned by opposition emphasizing the importance of reformers capacity to translate temporary achievements into entrenched strategic advantages

Neoliberalism as a State Project 2017-07-07 amongst intellectuals and activists neoliberalism has become a potent signifier for the kind of free market thinking that has dominated politics for the past three decades forever associated with the conviction politics of ronald reagan and margaret thatcher the free market project has since become synonymous with the washington consensus on international development policy and the phenomenon of corporate globalization where it has come to mean privatization deregulation and the opening up of new markets but beyond its utility as a protest slogan or buzzword as shorthand for the political economic zeitgeist what do we know about where neoliberalism came from and how it spread who are the neoliberals and why do they studiously avoid the label constructions of neoliberal reason presents a radical critique of the free market project from its origins in the first half of the 20th century through to the recent global economic crisis from the utopian dreams of friedrich von hayek through the dogmatic theories of the chicago school to the hope and hubris of obamanomics the book traces how neoliberalism went from crank science to common sense in the period between the great depression and the age of obama constructions of neoliberal reason dramatizes the rise of neoliberalism and its uneven spread as an intellectual political and cultural project combining genealogical analysis with situated case studies of formative moments throughout the world like new york city s bankruptcy hurricane katrina and the wall street crisis of 2008 the book names and tracks some of neoliberalism s key protagonists as well as some of the less visible bit part players it explores how this adaptive regime of market rule was produced and reproduced its logics and limits its faults and its fate

Constructions of Neoliberal Reason 2010-10-28 research paper postgraduate from the year 2018 in the subject sociology individual groups society grade 75 distinction bournemouth university language english abstract by the end of 2017 almost everybody has heard of bitcoin therefore the topic of this essay is highly relevant and aims to give an insight on bitcoin and blockchain technology as well as analyze the rise of bitcoin from a socio economic viewpoint by applying the personal enterprise concept based on the neo liberal definition from dardot and laval 2013 this essay will look at the correlation between the increase of neoliberalism and the rise of bitcoin by highlighting the sociological and financial circumstance that bitcoin has emerged from the rise of bitcoin can be explained this essay will show how decentralization the financial crisis of 2008 globalization digitization and the neo liberal mindset are the main factors that paved the way for bitcoin and contributed to its development the essay will also look at the societal changes that occurred due to digitization to demonstrate why bitcoin and altcoins are increasingly popular in today s network societies

Destroying Democracy 2021 this interdisciplinary collection featuring some of today s most prominent political theorists sociologists philosophers and historians challenges narratives of neoliberalism s demise the book queries whether contemporary political ruptures including the rise of far right forces will challenge support or extend the reach of market rule around the globe

Neoliberalism and the Rise of Bitcoin 2018-09-20 this book is designed as a timely analysis of the rise of post modern conservatism in many western countries across the globe it provides a theoretical overview of post modernism why post modern conservatism emerged what distinguishes it from other variants of conservatism and differing political doctrines and how post modern conservatism governs in practice first developing a unique genealogy of conservative thought arguing that the historicist and irrationalist strains of conservatism were ripe for mutation into post modern form under the right social and cultural conditions then providing a new unique theoretical framework to describe the conditions for the emergence of post modern conservatism the rise of post modern conservatism applies its theoretical framework to a concrete analysis of the politics of the day ultimately it aims to help us understand the emergence and rise of identity oriented alt right movements and their populist spokesmen particularly in the united states the united kingdom hungary poland and now italy
