Being Creative: Be inspired. Unlock your originality 2019-03-14 the ultimate guidebook for unleashing your true creative self creativity unlike any spoken language is one we are born fluent in we have the innate ability to create but as we grow develop and discover the world some learn to nourish that spirit while others have their natural creativity suppressed you may have been told that you're either creative or you're not and that if you are among those who see themselves as

uncreative you are doomed to a dreary life of inside the box thinking this is simply not true the language of creativity is never gone there s no such thing as a person who is not creative merely someone who has lost touch with that artistic expressive imaginative creator inside before you were fluent in any language you had to learn it one word at a time and with repetition you reclaim your creativity the same way through practice and play and exploration with this book as your guide you will learn how to see the objects in your daily life as inspirations for originality how to unlock your inner adventurer by investigating the topics that interest you the nouns and verbs that free your mind to create without boundaries what courage has to do with conquering self doubts and limitations how to be flexible to improvise and to open your mind and heart to what you are naturally able to create this book is the first step in your journey back to being the creative person you were born to be the work is fun inspiring sometimes challenging and as long as you keep with it you cannot fail and you will be fluent in creativity once again in no time

The Business of Creativity 2017-07-08 everyone is creative and i can prove it if you want to learn to be more creative you can do lateral puzzles or read inspiring stories but aren t you tired of feeling like there should be something more there is something more creativity requires you not just your interests or ideas but your unique ways to see and do things your expertise you need to participate in new ways and new fields this practical workbook is meant to have you teach yourself how to be creative beyond the usual arts and crafts and problem solving activities why not learn how to invent your own theory tools and beliefs about creativity not only will this allow you to share more about your creative thinking but it will enhance what you learn and use from others you re the creative one see how and why
