the author says the stories in this collection are an outgrowth of my lamentable childhood as well as a reflection of those things in life which i found fascinating in that they could mentally take me away from the horror of my daily life and at least on the level of imagination offer me something worth waking up each morning for thus the universes in this collection center around outsiders artists and freaks be they natural born or self made some of the stories are interconnected but also designed to stand alone i ve included afterwords for each to shine additional light on both the works and their cultural personal inspirations but more than a collection to me this volume is a glimpse into my creative soul and as such it may not be perfect it might not even be logical but it is what i am love it
