though public concern about the vulnerability in which poor people find themselves has resulted in new nation wide schemes framed in the language of rights we find in bihar and madhya pradesh that the practical workings of these schemes are dependent on the regional political systems in which they are enmeshed we end in the belly of the maoist inspired naxalite insurgency denounced by the indian government as the country s greatest security challenge where the poor are being mobilised to rise against the injustices of the indian state this book was originally published as a special issue of economy and society the autism spectrum presents a range of communication social and sensory differences that are challenging for clinicians to address family therapy and the autism spectrum provides a guide to conceptualizing those differences and ways to discuss them with clients and their families readers are provided with narrative examples illustrating the application of key concepts introduced in the text these case examples address issues that range across the life cycle from families with young children to ones with teens who are emerging as adults using the techniques learned in this book clinicians will be able to guide families towards their positive autism narrative this book also features a visual framework to organize the compelling narrative of each person s autism spectrum pattern of developmental differences or brain style using this visual framework and the corresponding descriptive language clinicians and families can work together to create their autism conversations the conversations lead to the transformative experiences of developing competencies resiliency and advocacy for individuals and their families the conversations also lead individuals with spectrum differences to use empowering language supporting their ability to develop self advocacy and self determination skills the book covers the research on economic inequality including the social construction of racial categories the uneven and stalled gender revolution and the role of new educational forms and institutions in generating both equality and inequality
