philip seymour hoffman 1967 2014 was an american film television and stage actor film producer and film and stage director best known for his memorable supporting roles in independent films considered one of the best actors of his generation he died of a drug overdose at age 46 after years of

sobriety he won the academy award for best actor for his titular role in capote 2005 and best supporting nominations for doubt 2008 and the master 2012 this biography covers his life and career and provides an appendix listing his film television and stage appearances

Philip Seymour Hoffman *2017-01-09*

an argument for retaining the notion of personal property in the products we buy in the digital marketplace if you buy a book at the bookstore you own it you can take it home scribble in the margins put in on the shelf lend it to a friend sell it at a garage sale but is the same thing true for the ebooks or other digital goods you buy retailers and copyright holders argue that you don t own those purchases you merely license them that means your ebook vendor can delete the book from your device without warning or explanation as amazon deleted orwell s 1984 from the kindles of surprised readers several years ago these readers thought they owned their copies of 1984 until it turned out they didn t in the end of ownership aaron perzanowski and jason schultz explore how notions of ownership have shifted in the digital marketplace and make an argument for the benefits of personal property of course ebooks cloud storage streaming and other digital goods offer users convenience and flexibility but perzanowski and schultz warn consumers should be aware of the tradeoffs involving user constraints permanence and privacy the rights of private property are clear but few people manage to read their end user agreements perzanowski and schultz argue that introducing aspects of private property and ownership into the digital marketplace would offer both legal and economic benefits but most important it would affirm our sense of self direction and autonomy if we own our purchases we are free to make whatever lawful use of them we please technology need not constrain our freedom it can also empower us

the contributions to this edited volume discuss constitutional politics in 20 central and eastern european countries the country chapters describe all constitutional amendments and new constitutions after the first post communist constitution making all failed amendment attempts and the political discourses about constitutional politics framed by a broad comparative chapter the country studies are

embedded in the established literature on constitutional politics the book thus provides a better understanding of constitutional politics in the region and beyond

Constitutional Politics in Central and Eastern Europe 2016-10-12

city governments are rapidly becoming society's problem solvers as Sara Hughes shows nowhere is this more evident than in New York City Los Angeles and Toronto where the cities governments are taking on the challenge of addressing climate change *Repowering Cities* focuses on the specific issue of reducing urban greenhouse gas (GHG) emissions and develops a new framework for distinguishing analytically and empirically the policy agendas city governments develop for reducing GHG emissions the governing strategies they use to implement these agendas and the direct and catalytic means by which they contribute to climate change mitigation Hughes uses her framework to assess the successes and failures experienced in New York City Los Angeles and Toronto as those agenda setting cities have addressed climate change she then identifies strategies for moving from incremental to transformative change by pinpointing governing strategies able to mobilize the needed resources and actors build participatory institutions create capacity for climate smart governance and broaden coalitions for urban climate change policy

Repowering Cities 2019-11-15

A Land Full of God gives American Christians an opportunity to promote peace and justice in the Israeli-Palestinian conflict it shows them how to understand the enmity with brief digestible and comprehensive essays about the historical political religious and geographical tensions that have led to many of the dynamics we see today all the while *A Land Full of God* walks readers through a biblical perspective of God's heart for Israel and the historic suffering of the Jewish people while also remaining sensitive to the experience and suffering of Palestinians the prevailing wave of Christian voices are seeking a pro-Israeli pro-Palestinian pro-peace pro-justice pro-poor and ultimately pro-Jesus approach to bring resolution to the conflict with contributions from Andrea Smith Bill Hybels Bob Roberts Carolyn Custis James Clayborne Carson Dale Hanson Bourke Darrell Boock David Anderson David Gushee David Neff Desmond Tutu Donald M. Lewis Eugene Cho Jerry White Jim Wallis Joel Hunter John E. Phelan Jr. John Kerry John M. Perkins Judith Rood Lynne Hybels Michael Brown Paul Alexander Pope Francis Rich Nathan Shane Claiborne Susan Michael Tony Campolo Tony Maalouf

A Land Full of God 2017-05-12

the world is in turmoil the dynamics of political economy seem to have entered a phase where a return to normal cannot be expected since the financial crisis conventional economic theory has

proven itself to be rather helpless and political decision makers have become suspicious about this type of economic consultancy this book offers a different approach it promises to describe political and economic dynamics as interwoven as they are in real life and it adds to that an evolutionary perspective the latter allows for a long run view which makes it possible to discuss the emergence and exit of social institutions evolutionary political economy in action consists of two parts part i provides a broad range of issues that show how flexible evolutionary political economy can handle acute policy problems in europe should europe support the revived build up of nato forces on its eastern border or should it rather aim at economic cooperation with russia how can democracy for a whole continent be reasonably further developed what is the role of economies of scope do the new protest movements against inequality provide alternatives what could a vision for a unified socioecological europe look like part ii takes a closer look at cyprus and greece where the problems of the financial crisis have been exacerbated by the solutions imposed on them by the troika in all of these essays the authors demonstrate the unique insights which can be garnered from adopting an evolutionary political economy approach and consider the real solutions that such an approach points towards this volume is extremely useful for social scientists in the fields of economics politics and sociology who are interested to learn what evolutionary political economy is how it proceeds and what it can provide

Evolutionary Political Economy in Action 2017-01-06

this book is about social phenomena that directly acknowledge the structures and ideologies emerging after september 11 2001 it considers how these structures and ideologies manage control and contain specific bodies with respect to race ethnicity gender sexuality and citizenship status inflections presented via 9 11 come into play against a backdrop shaped by established patterns of behavior and attitudes toward women and particular groups of people within an american landscape as a result existing notions of threat combine with 9 11 inflections to shape a specific conception of threat in a context after 9 11 and within this context a feminism after 9 11 emerges this contextualized feminism would have to develop its analysis within the frame of a society fundamentally altered by the events of 9 11 including its ideological aftermath by foregrounding pertinent social categories as they interplay with women s bodies

Feminism after 9/11 2017-09-30

in this revision of their lauded public opinion democratic ideals democratic practice rosalee a clawson and zoe m oxley continue to link the enduring normative questions of democratic theory to the best empirical research on public opinion exploring the tension between ideals and their practice each chapter focuses on exemplary studies so that students gain a richer understanding of key findings and

remote sensing of soil and land surface processes monitoring mapping and modeling couples artificial intelligence and remote sensing for mapping and modeling natural resources thus expanding the applicability of ai and machine learning for soils and landscape studies and providing a hybridized approach that also increases the accuracy of image analysis the book covers topics including digital soil mapping satellite land surface imagery assessment of land degradation and deep learning networks and their applicability to land surface processes and natural hazards including case studies and real life examples where appropriate this book offers postgraduates researchers and academics the latest techniques in remote sensing and geoinformation technologies to monitor soil and surface processes introduces object based concepts and applications enhancing monitoring capabilities and increasing the accuracy of mapping couples artificial intelligence and remote sensing for mapping and modeling natural resources expanding the applicability of ai and machine learning for soils and sediment studies includes the use of new sensors and their applications to soils and sediment characterization includes case studies from a variety of geographical areas

Solar Planetary Systems 2013-05-06

this book examines the who what when where and how of elite white male dominance in u s and global society in spite of their domination in the united states and globally that we document herein elite white men have seldom been called out and analyzed as such they have received little to no explicit attention with regard to systemic racism issues as well as associated classism and sexism issues almost all public and scholarly discussions of u s racism fail to explicitly foreground elite white men or to focus specifically on how their interlocking racial class and gender statuses affect their globally powerful decisionmaking some of the power positions of these elite white men might seem obvious but they are rarely analyzed for their extraordinary significance while the principal focus of this book is on neglected research and policy questions about the elite white male role and dominance in the system of racial oppression in the united states and globally because of their positioning at the top of several societal hierarchies the authors periodically address their role and dominance in other oppressive e g class gender hierarchies

Causes, Laws, and Free Will 2023-10-31

why fears about a looming student loan crisis are unfounded and how they obscure what s really wrong with student lending college tuition and student debt levels have been rising at an alarming

pace for at least two decades these trends coupled with an economy weakened by a major recession have raised serious questions about whether we are headed for a major crisis with borrowers defaulting on their loans in unprecedented numbers and taxpayers being forced to foot the bill game of loans draws on new evidence to explain why such fears are misplaced and how the popular myth of a looming crisis has obscured the real problems facing student lending in america bringing needed clarity to an issue that concerns all of us beth akers and matthew chingos cut through the sensationalism and misleading rhetoric to make the compelling case that college remains a good investment for most students they show how in fact typical borrowers face affordable debt burdens and argue that the truly serious cases of financial hardship portrayed in the media are less common than the popular narrative would have us believe but there are more troubling problems with student loans that don t receive the same attention they include high rates of avoidable defaults by students who take on loans but don t finish college the riskiest segment of borrowers and a dysfunctional market where competition among colleges drives tuition costs up instead of down persuasive and compelling game of loans moves beyond the emotionally charged and politicized talk surrounding student debt and offers a set of sensible policy proposals that can solve the real problems in student lending

Remote Sensing of Soil and Land Surface Processes *2017-04-07*

Elite White Men Ruling *2018-05-29*

this book of conference proceedings contains papers presented at the art and design international conference andic 2016 it examines the impact of cyberology also known as internet science on the world of art and design it looks at how the rapid growth of cyberology and the creation of various applications and devices have influenced human relationships the book discusses the impact of cyberology on the behaviour attitudes and perceptions of users including the way they work and communicate with a strong focus on how the cyberology world influences and changes the methods and works of artists this book features topics that are relevant to four key players artists intermediaries policy makers and the audience in a cultural system especially in the world of art and design it examines the development problems and issues of traditional cultural values identity and new trends in contemporary art most importantly the book attempts to discuss the past present and future of art and design whilst looking at some underlying issues that need to be addressed collectively

this book is a collection of essays in indonesian history and archaeology dealing with different and
multiple trajectories along four broad themes the first part of the book covers competing or evolving
representations of events customs or traditions and historical personae in indonesian official and
popular expression as they are shaped by economic political and cultural forces the second part deals
with memories of war and peace examining transnational conflict and collaboration the role of political
elites and state projects dealing with the aftermath of military aggression while also focusing on the
impact and responses of civilians the third part focuses on how state and civil societies frame historical
figures in ways that transcend the dichotomy of heroes and victims the fourth part of the book looks
at the way indonesian museums and museology serve as sites where new kinds of memory work
occur in a post 1998 era the book is designed with the aim of clearing a space for a plurality of
memory works discussions in this volume extend from loloda island in eastern indonesia to sabang
island at the north westernmost end of the archipelago and to the cosmopolitan centers temporally it
covers the colonial the post independence and contemporary eras by juxtaposing diverse works the
book offers a new vista of multiple trajectories of memory being traced out in and about indonesia this
is an open access book

genetically modified crops have become a key element of development strategies across the global south despite remaining deeply controversial proponents hail them as an example of pro poor innovation while critics regard them as a threat to food sovereignty and the environment the promotion of biotechnology is an integral part of new green revolution for africa interventions and is also intimately linked to the rise of philanthrocapitalism which advances business solutions to address the problem of poverty through interviews with farmers policymakers and agricultural scientists jacqueline ignatova shows how efforts to transform the seed sector in northern ghana one of the key laboratories of this new green revolution may serve to exacerbate the inequality it was notionally intended to address but she also argues that its effects in ghana have been far more complex than either side of the debate has acknowledged with local farmers proving adept at blending traditional and modern agricultural methods that subvert the interests of global agribusiness

a robust historical case study that demonstrates how village development became central to the rhetoric and practice of statecraft in rural ghana combining oral histories with decades of archival material village work formulates a sweeping history of twentieth century statecraft that centers on the daily work of rural people local officials and family networks rather than on the national governments and large scale plans that often dominate development stories wiemers shows that developmentalism was not simply created by governments and imposed on the governed instead it was jointly constructed through interactions between them the book contributes to the historiographies of development and statecraft in africa and the global south by emphasizing the piecemeal contingent and largely improvised ways both development and the state are comprised and experienced providing new entry points into longstanding discussions about developmental power and discourse unsettling common ideas about how and by whom states are made exposing the importance of unpaid labor in mediating relationships between governments and the governed showing how state engagement could both exacerbate and disrupt inequities despite massive changes

in twentieth century political structures the imposition and destruction of colonial rule nationalist plans for pan african solidarity and modernization multiple military coups and the rise of neoliberal austerity policies unremunerated labor and demonstrations of local leadership have remained central tools by which rural ghanaians have interacted with the state grounding its analysis of statecraft in decades of daily negotiations over budgets and bureaucracy the book tells the stories of developers who decided how and where projects would be sited of constituents who performed labor and of a chief and his large cadre of educated children who met and shaped demands for local leaders for a variety of actors invoking the village became a convenient way to allocate or attract limited resources to highlight or downplay struggles over power and to forge national and international networks

Gendering Knowledge in Africa and the African Diaspora

2021-05-28

during soviet rule the state all but imposed atheism on the primarily islamic people of kyrgyzstan and limited the tradition of polygyny a form of polygamy in which one man has multiple wives polygyny did continue under communism though chiefly under concealment in the decades since the fall of the soviet union the practice has reemerged based on extensive fieldwork polygynous marriages among the kyrgyz argues that this marriage practice has become socially acceptable and widely dispersed not only because it is rooted in customary law and islamic practice but because it can also enable men and women to meet societal expectations and solve practical economic problems that resulted from the fall of the soviet union michele e commercio s analysis suggests the normalization of polygyny among the kyrgyz in contemporary kyrgyzstan is due both to institutional change in the form of altered governmental rules and expectations and to institutional endurance in the form of persistent hegemonic constructions of gender

Annual Report on Exchange Arrangements and Exchange

Restrictions 2016 *2022-12-20*

this book is written in lyrical form where two teenagers meet via social media and get attracted to each other but the problem arises when they think their infatuation is true love this misunderstanding leads to terrible days confusing infatuation and true love makes you pay a big price by leaving deep wounds on soul and mind for a lifetime but is this connection just an infatuation or true love

Focus On: 100 Most Popular Television Shows Set in New York City 2018-01-04

this book offers college professors and college students as well as the general reader a variety of ideas for developing techniques for creative and critical thinking and strategic writing and reading skills additionally some of the contributions here present strategies to help students cultivate effective interpersonal skills and foster a greater understanding of cultural diversity and skills for collaboration in a culturally inclusive workplace along with this the book also utilizes technology in innovative ways across the curriculum in teaching language courses literature courses psychology courses or education courses each contributor cultivates through teaching and mentoring the transformation of a student into a 21st century leader

Trajectories of Memory 2020-03-24

this book sheds light on experiences relatively underrepresented in academic and non academic sport history it examines how asian and pacific islander peoples used american football to maintain a sense of community while encountering racial exclusion labor exploitation and colonialism through their participation and spectatorship in american football asian and pacific islander people crossed treacherous cultural frontiers to construct what sociologist elijah anderson has called a cosmopolitan canopy under which asian americans pacific islanders and people of diverse racial and ethnic identities interacted with at least a semblance of respect and equity and perhaps a surprising number of asian americans and pacific islanders have excelled in college and even professional football before the 1960s finally acknowledging the impressive influx of elite pacific islander gridgers who surfaced in the late twentieth and early twenty first century it is vital to note as well the racialized nativism shadowing the lives of these athletes
