Library of Congress Subject Headings 2009 six disturbing stories of some of the uk s most brutal killers a prequel to the true crime case histories series over 7 000 five star ratings worldwide a quick word of warning the true crime short stories within this book are unimaginably shocking most news articles and television true crime shows skim over the offensive details of truly unsettling crimes in my books i try not to gloss over the facts regardless of how disgusting they may be my goal is to give my readers a clear and accurate description of just how demented the killers really were i do my best not to leave anything out the stories included in this book are not for the squeamish many of my readers know i have split my last several years between london and arizona as these past few months of 2019 and 2020 have been my final months in london i thought it would be fitting to write a book about some of the most notorious killers in uk history this book is not officially part of the true crime case histories series but it s written in a very similar style a sampling of the stories includes the camden ripper a homeless man reached into a dumpster and felt what he thought were salmon fillets
