Application of coupled CFD-DEM simulation to separation process in combine harvester cleaning devices

2020-06-01 this book discusses the application of the coupled cfd dem approach for simulating the separation of grain and material other than grain in combine harvester cleaning devices based on a literature study it describes the most important influencing factors and presents a database for particle parameterization it investigates the separation process in two steps with differing levels of process abstraction the first step involves numerical separation in a vertically oscillating box with airflow and in the context of a sensitivity study investigates the effect of selected material contact and operating parameters on the target variables separation time and grain purity in the second step the numerical separation process was performed in a 200 mm wide segment of a combine harvester cleaning device the numerical results were then compared with experimental investigations in order to confirm the method s applicability

Lean Business Systems and Beyond 2008-01-28 lean manufacturing has proved to be one of the most successful and most powerful production business systems over the last decades its application enabled many companies to make a big leap towards better utilization of resources and thus provide better service to the customers through faster response higher quality and lowered costs lean is often described as eyes for flow and eyes for muda philosophy it simply means that value is created only when all the resources flow through the system if the

flow is stopped no value but only costs and time are added which is muda jap waste since the philosophy was born at the toyota many solutions were tailored for the high volume environment but in turbulent fast changing market environment and progressing globalization customers tend to require more customization lower volumes and higher variety at much less cost and of better quality this calls for adaptation of existing lean techniques and exploration of the new waste free solutions that go far beyond manufacturing this book brings together the opinions of a number of leading academics and researchers from around the world responding to those emerging needs they tried to find answer to the question how to move forward from spaghetti world of supply production distribution sales administration product development logistics accounting etc through individual chapters in this book authors present their views approaches concepts and developed tools the reader will learn the key issues currently being addressed in production management research and practice throughout the world

Auf dem Weg zur Integration Factory 2005-12-06 das buch auf dem weg zur integration factory fasst den state of the art sowie die zukunftsprospektiven im bereich der integrierten informationslogistik zusammen die autoren untersuchen zum einen inwieweit sich bisherige ansätze zum data warehousing sowie zur enterprise application integration mittelfristig technisch organisatorisch und wirtschaftlich als geeignete lösungen erwiesen haben die kernthemen sind hierbei architekturen vorgehensmodelle business intelligence online analyse customer

relationship management supply chain management und anwendungsintegration zum anderen werden neuere ansätze vorgestellt welche die integration des data warehouse in die gesamt informationslogistik zum ziel haben und so die realisierung neuer applikationstypen und geschäftsmodelle ermöglichen darüber hinaus wird insbesondere auf eine verbesserung der prozessunterstützung durch einen höheren integrationsgrad der applikationen eingegangen das buch wendet sich vorwiegend an praktiker aus den bereichen betriebswirtschaft und wirtschaftsinformatik

Proposed Large-scale Combination Nuclear Power-desalting Project 1966 a new explanation of the relation between schooling and work in the democratic advanced industrial state emerges from this study that rejects both traditional views and the more recent marxian perspective traditional views consider schools as autonomous institutions that are able to pursue the goals of equality and social mobility irrespective of the inequalities of capitalist society the marxian perspective views schools as serving the role of producing wage labor for capitalistic exploitation the authors suggest that the shortcomings of both views are rooted in the fact that they do not recognize the true functions of the democratic capitalist state the state is seen as an arena for struggle between forces pushing for egalitarian democratic reforms and those seeking to use the resources of the state for private capital accumulation depending on which side has primacy at the moment schools will reflect one set

of goals over the other however victory is never complete and the tide of battle has shifted back and forth historically the authors develop this theory through interpreting the dynamic relation between u s schools and the workplace based on this approach they predict changes in both schooling and work as well as the forms that future conflicts between the contending forces are likely to take

Schooling and Work in the Democratic State 1985-06-01 this compelling book provides the first global history of the evolution of combined operations since antiquity beginning with amphibious warfare in the ancient world of the romans vikings and mongols jeremy black advances through the gunpowder revolution the rise of maritime empires and the formation of nation states the early industrial revolution and the adaptation of modern technology to warfare the twentieth century world wars the cold war and concluding with the modern age of irregular and asymmetric conflict black s informed and analytical narrative emphasizes conflicts around the world focusing not only on leading powers but also regional combatants his case studies include amphibious operations in the mongol invasions of japan the war for american independence and the gallipoli campaign of world war i he also explores the development and effectiveness of airborne operations as a way to project military power inland offering a balanced assessment of strategic operational and technical developments over time black considers both the potential and limitations of amphibious and airborne warfare past present and

future

Combined Operations 2017-09-15 these proceedings represent the work of contributors to the 16th european conference on management leadership and governance ecmlg 2020 hosted by aci and em normandie business school oxford uk uk on 26 27th october 2020 the conference chair dr paul griffiths em normandie business school metis lab oxford uk

American Monthly Review of Reviews 1925 budget stress political change and heightened global competition are forcing a reexamination of conservation and environmental programs for u s agriculture questions about reauthorizing the conservation reserve program typify the tradeoffs currently that effort is the major solution to environmental problems related to agriculture but what lands truly merit long term retirement for environmental purposes at high cost to taxpayers and export markets are less expensive approaches available that save budget expense allow continued production and ameliorate other priority environmental problems this report responds to a bipartisan request from the senate agriculture nutrition and forestry committee about these issues

Combined Sewer Flooding and Pollution: An executive summary 1979 die onkologie ist in einem rasanten wandel begriffen und neue erfolgreiche therapien wecken hoffnungen in dem maße wie sich die onkologie wandelt muss sich auch der beitrag der misteltherapie weiterentwickeln und seinen platz jeweils neu bestimmen in

regelmäßigen abständen wird daher die rolle der mistel in der tumortherapie wissenschaftlich neu beleuchtet und anschließend in einem buch präsentiert es enthält beiträge aus den aktuellen und relevanten forschungsgebieten die beim 7 mistelsymposium im november 2019 vorgestellt wurden im mittelpunkt des klinischen teils stehen das bronchial und das marmakarzinom was vermag die konventionelle tumortherapie welchen beitrage leistet die mistel u a in unterschiedlichen dosierungen und applikationsformen und wie hilft die misteltherapie den patienten auch in der seelischen dimension ein weiterer schwerpunkt sind checkpoint inhibitoren bzw moderne immunologische therapien mit denen zusammen die mistel zur anwendung kommt das buch ist ein beitrage zu einer integrativen onkologie einer medizin der zukunft

exemplarisch für einen der größten organisierten Technologietransfers im Schatten der Operation Paperclip stehen kann das vorliegende Buch untersucht die Geschichte der Peenemünder Windkanäle von ihrer Entstehung im Rahmen des Aerodynamischen Instituts der Heeresversuchsanstalt Peenemünde HVA und ihrem Umzug in die Kocheler Alpen bis hin zu ihrer Entdeckung durch alliierte Streitkräfte und dem darauf folgenden Transferprozess in die Forschungszentren der USA. Das hierfür verwendete Material entstammt zum allergrößten Teil originärer Recherche und Quellenarbeit. Die Windkanäle als Gegenstand der Untersuchung wurden hierbei zu jeder Zeit in den Kontext des beteiligten wissenschaftlichen Personals der getätigten Forschungsaufgaben und der militärischen Organisation eingebettet.

16th European Conference on Management, Leadership and Governance 2020-10-26 the end of communist regimes in eastern Europe and the USSR produced strikingly little enthusiasm in the United States. The political energy absorbed for forty years by American-Soviet relations left America no triumphant but reflective turning inward with a general sense of national decline. American politics and policy have met the rapid changes in the new global order with alarming slowness and inflexibility. In this book fourteen leading political scientists ask two basic questions: what effect did the Cold War have on American institutions and politics, and how will American politics evolve now? The first section of the volume focuses on institutions: the presidency, Congress, federalism, the

second explores politics ideologies public opinion and the american party system the third section tackles important policy areas the budget social issues education foreign policy trade and immigration contributors joel d aberbach tobias dürr andreas falke adrienne héritier peter lösche theodore j lowi heinz dieter meyer demetrios g papademetriou paul e peterson bert a rockman james thurber david b walker and the editors

The Petroleum Industry 1975 the unsustainable levels of resource use and emissions of our economies and their threat to future generations are core issues of our time the circular economy ce conceptualises a different type of economy that is restorative and regenerative by design and aims to keep products components and materials at their highest utility and value at all times distinguishing between technical and biological cycles the novelty of the ce requires the development of new analytical tools and methods as well as ways of thinking to understand its consequences this research summarises four years of research on the topic of systems analysis and simulation modelling in the domain of the ce three topics were of major interest first what are the resource efficiency implications of a shift toward a ce second what are the operational implications of a shift to a ce and finally how

can systemic changes towards a ce be understood and planned four studies were conducted addressing the three research questions the first study applies material flow analysis to a washing machine manufacturer case and looks at how different business models affect the resource flows of critical resources it finds that service based offerings lead to higher overall resource efficiency the second study focuses on the implications of ce initiatives on the maintenance activities of a heat as a service provider it shows that the shift to service based offerings requires service providers to face worse before better situations where long term benefits offset short term disadvantages the third study is a simulation based case study of laundry practices in sweden it compares a sharing economy scenario where a population shares washing machines with a scenario where the majority of people own the washing machines they are using the results indicate that in sweden and europe in general sharing has significant resource savings potential in the domestic laundry sector the fourth study is a conceptualisation of design fixation to higher levels of analysis it identifies examples of fixations on the organisational and institutional level in addition it argues that in order to design sustainable sociotechnical systems aspects like governmental policies and business models need to be considered design parameters a shift to a ce needs to happen on many levels of society this research presents simulation models that can support corporate and political decision makers in the shift to a ce it shows that in order to understand the ce the

analysis has to be on the one hand able to simulate system dynamics and on the other hand connect the multiple levels of society de ohållbara nivåerna av resursutnyttjande och utsläpp av våra ekonomier och deras hot mot framtida generationer är en av dagens nyckelutmaningar cirkulär ekonomi ce är en konceptualisering av en ny typ av ekonomi som är baserad på återställande och regenerativ design som siktar på att behålla nyttan och värdet så högt som möjligt i produkter komponenter och material indelad i deras teknologiska och biologiska cykler nymodigheten av ce erfordrar utvecklingen av nya analytiska verktyg och metoder så väl som annorlunda sätt att tänka för att förstå dess konsekvenser den här rapporten summerar fyra år av forskning på ämnet systemanalys och simulationsmodellering i domänen av ce tre ämnen var av högt intresse vilka är de miljömässiga konsekvenserna av ett skifte till ce vilka är de operationella konsekvenserna av ett skifte till ce hur kan den systematiska förändringen till en ce bli planerad och förstådd vi utförde fyra studier för att undersöka de tre frågorna första artikeln använder materialflödesanalys i en fallstudie på en tvättmaskinstillverkare och undersöker hur olika affärsmodeller påverkar flödet av kritiska resurser den visar att erbjudande baserade på service leder till en högre övergripande resurseffektivitet den andra artikeln fokuserar på implikationerna av ce initiativ på underhållsaktiviteter för en värme som tjänst distributör den visar att skiftet till en ce kräver att möta sämre innan bättre situationer där långsiktiga fördelar kompenseras för kortsiktiga nackdelar tredje artikeln är en

simulationsbaserad fallstudie på tvättvanor i sverige det jämför ett delningsekonomiskenario där en population delar tvättmaskiner mot ett scenario där majoriteten av population är ägare av egna tvättmaskiner resultaten indikerar att det finns en signifikant besparingspotential av resurser både i sverige och i europa generellt fjärde artikeln är en konceptualisering av design fixation till högre analytiska nivåer den identifierar exempel på fixation på en organisationell och en institutionell nivå utöver det så argumenteras det att i design av hållbara sociotekniska system aspekter som myndighetspolicyers och affärsmodeller behöver vara designparameter ce är ett koncept som finns i många nivåer av samhället från produktdesign till myndighetspolicyers det här forskning presenterar simulationsmodeller som kan stödja affärsmässiga och politiska beslutsfattare inom skiftet till en ce denna uppsats visar att för att förstå ce så måste analysen dels kunna simulera systemdynamik samt dels koppla till de multipla nivåerna i samhället der hohe ressourcenverbrauch und das hohe emissionsniveau die mit der westlichen lebensweise einhergehen sind ein hauptproblem unserer zeit die kreislaufwirtschaft zu englisch circular economy ist ein alternatives wirtschaftsmodel das darauf abzielt den wert von produkten komponenten und materialien über deren lebenszeit zu erhalten die relative neuheit dieses wirtschaftsmodels erfordert es neue analytische methoden werzeuge und denkweisen zu entwickeln diese doktorarbeit umfasst vier jahre forschung an den themen systemanalyse und simulationsmodellierung im bereich der kreislaufwirtschaft drei fragen standen

im zentrum erstens welche auswirkungen hat ein wechsel zur kreislaufwirtschaft auf die ressourceneffizienz zweitens welche auswirkungen hat ein wechsel von produzierenden unternehmen zur kreislaufwirtschaft auf deren betriebsführung drittens wie können die notwendigen systemischen veränderungen verstanden und geplant werden diese dissertation basiert auf vier studien die unterschiedliche aspekte eines gesellschaftlichen wandels zur kreislaufwirtschaft beleuchten die erste studie ist eine materialflussanalyse die die ressourceneffizienz unterschiedlicher geschäftsmodelle eines waschmaschinenherstellers vergleicht dabei stellt sich heraus dass servicebasierte angebote zu einer erhöhten ressourceneffizienz führen können die zweite studie untersucht die auswirkungen einer umstellung auf heat as a service angebote aus der sicht eines heizgeräteherstellers und dessen betriebsführung die studie zeigt dass der hersteller in situation gerät in der kurzfristige erhöhte kosten mit langfristigen prozessverbesserungen und geringeren instandhaltungskosten abgewogen werden müssen als drittes wird eine simulationsstudie präsentiert in der die wäschepraxis in schweden im fokus steht mehrere szenarien werden verglichen in denen die bevölkerung dazu übergeht gemeinschaftswaschküchen anstatt eigener haushaltwaschmaschinen zu verwenden die simulationsergebnisse zeigen dass falls umgesetzt in großen teilen der bevölkerung diese sharing economy praxis ein großes potential zur einsparung von ressourcen hat in der vierten studie wird das konzept der design fixation als mögliche ursache für die trägheit unserer

gesellschaftlichen systeme festgemacht design fixation als phänomen beschreibt das festhalten eines designers an bestehenden ideen und konzepten das das endergebnis des designprozesses einschränkt diese vierte studie liefert eine einschätzung des einflusses von design fixation auf den ressourcenverbrauch in sociotechnischen systemen eine umstellung zur kreislaufwirtschaft bedeutet ein wandel auf mehreren ebene der gesellschaft die komplexität dieses alternativen wirtschaftsmodells erfordert die verwendung adäquater modelle die in der lage sind gesellschaftsebenen kausal zu verknüpfen und die entsprechenden systemdynamiken zu simulieren in dieser doktorarbeit werden mehrere simulationsmodelle präsentiert die für entscheidungsträger in politik und industrie nützlich sind um die kreislaufwirtschaft in ihrem milieu besser verstehen zu können

Appendix, oversight of Civil Aeronautics Board practices and procedures 1976 over 2 800 total pages

introduction today s operational environment presents threats the army has not faced in nearly 20 years against peer competitors the joint force may face air parity or even localized enemy air overmatch challenging the assumption of air superiority the joint force has held since the korean war this will make maneuver forces vulnerable to air attack by fixed and rotary wing aircraft unmanned aircraft systems and cruise missiles maneuver forces lack capacity and capability to address these threats and the army requires a speedy response stinger missiles provide a key capability for maneuver forces to defend themselves from aerial observation and attack

however without direct involvement from senior brigade combat team leaders and effective leader training these missiles will become dead weight at best or a fratricide in waiting at worst units must plan effectively to utilize this capability and ensure it ties directly to their scheme of maneuver as opposed to simply task organizing one stinger team per company just a sample of the contents call handbook no 18 16 maneuver leader s guide to stinger lessons and best practices 2018 introduction to manportable stinger air defense weapon system subcourse no ad 0575 no date fm 3 23 25 shoulder launched munitions 2006 fm 10 550 to 13c7 22 71 airdrop of supplies and equipment rigging stinger weapon systems and missiles 2000 fm 44 18 1 stinger team operations 1984 fm 3 01 11 fm 44 100 2 air defense artillery reference handbook 2000 mcrp 3 25 10a low altitude air defense laad gunner s handbook 2011 tm 9 1425 429 12 operator s and organizational maintenance manual stinger guided missile system 1980 tm 9 1425 429 12 hr hand receipt manual covering system components of end item coei basic issue items bii and additional authorization list aal for stinger air defense guided missile system stinger training set guided missile system m134 coolant recharging unit training system m80 and battery charger pp 7309 t 1983 tm 55 1425 429 14 technical manual transportability guidance stinger weapon system 1981 tm 9 1265 209 10 technical manual operator s manual for multiple integrated laser engagement system miles simulator system firing laser m74 nsn 1265 01 159 0485 for stinger weapon system 1987 tm 9 2330 357

Hearings, Reports and Prints of the Senate Committee on the Judiciary 1975 this is the standard book of common prayer bcp and administration of the sacraments and other rites and ceremonies of the church together with the psalter or psalms of david according to use in the episcopal church in the united states authorized in 1979 included is the normative edition of the hymnal 1982 for all who sing choir and congregation alike containing all hymns and service music genuine leather gold edges ribbon markers gift box

Targeting environmental priorities in agriculture : reforming program strategies. 1995 includes glossary of terms

Die Mistel in der Tumortherapie 5 2020-12-01 research efforts in the past decade have led to considerable advances in the concepts and methods of smart manufacturing smart manufacturing applications and case studies includes information about the key applications of these new methods as well as practitioners accounts of real life applications and case studies written by thought leaders in the field from around the world smart manufacturing applications and case studies is essential reading for graduate students researchers process engineers and managers it is complemented by a companion book titled smart manufacturing concepts and

methods which describes smart manufacturing methods in detail includes examples of applications of smart manufacturing in process industries provides a thorough overview of the subject and practical examples of applications through well researched case studies offers insights and accounts of first hand experiences to motivate further implementations of the key concepts of smart manufacturing
