booklist on it came from the sky think you know everything about the death of hitler think again after world war ii 50 percent of americans polled said they didn t believe adolf hitler and eva braun had committed suicide in their bunker in 1945 as captured nazi officials claimed instead they believed the dictator faked his death and escaped perhaps to argentina this wasn t a crazy opinion joseph stalin told allied leaders that soviet forces never discovered hitler s body and that he personally believed the nazi leader had escaped justice at least two german submarines crossed the atlantic and landed on the coast of argentina in july 1945 plus there were numerous reports of top nazi officials successfully fleeing to south america where there was a large german colony incredible as it sounds the mystery surrounding adolf hitler s final days only deepened in 2009 when a u s forensic team announced that a piece of hitler s skull held in soviet archives was not actually hitler s international interest increased further in 2014 when the fbi released previously classified files detailing investigations surrounding hitler s possible escape and the following year the history channel launched a three year reality tv series investigating if it was possible hitler did somehow survive so what really happened popular history writer robert j hutchinson author of what really happened the lincoln assassination takes a fresh look at the evidence and discovers once and for all the truth about hitler s last week in berlin among the questions the book explores are what did surviving nazi eyewitnesses really say about the führer s final days in the bunker and could they have been lying to aid hitler s escape if hitler didn t escape why did the allies not find his body what about the imagination of movement

body doubles could hitler have used a body double in the bunker while he and eva braun flew to safety in a long range aircraft that took off from a runway in berlin s tiergarten why did the fbi continue to investigate reports of hitler s survival for more than a decade after world war ii reports that were only declassified in 2014 what about sensational claims in books such as the grey wolf that hitler and eva braun lived in an isolated chalet in the andes and that hitler died in 1962 why were forensic tests on crucial physical evidence only conducted in 2016 more than 70 years after world war ii ended and lots more if it s true that we get what we measure can you conceive of a reality where we would put aside the archaic practice of measuring attendance and offerings and replace it with measuring the progress of faith life at home now for the first time readers can discover what is truly happening in the homes of churchgoing people based on groundbreaking new research of over 6000 churchgoers across 12 denominations what good is our discipleship if it is not being lived and expressed at home what good is our evangelism if 60 of our kids are walking away from the faith because of the hypocrisy they saw at home what good is our missionality if we are doing one thing in the world and another thing at home what good is our worship if that s all people do spiritually once a week get ready this book is going to be revealing challenging yet incredibly helpful in showcasing faith life at home realities church leaders have overlooked for far too long in what really happened kevin groenhagen presents the facts concerning bill clinton s actual record on iraq and terrorism it s a record that is far different from what clinton inc and their allies in the media have been telling the imagination of people

during the past eight years the facts clinton inc has attempted to rewrite include but are not limited to the following the clinton administration in 1998 claimed that al qaeda reached an understanding with the government of iraq that al qaeda would not work against that government and that on particular projects specifically including weapons development al qaeda would work cooperatively with the government of iraq secretary of defense william cohen in july 2000 said protecting the american people from the threat posed by axis of evil iran iraq and north korea was the most important issue to address bill clinton s policies vis a vis iraq ultimately led to 9 11 and other messages with no words for years fallon spring endured physical and sexual abuse at the hands of family members starting at the age of 4 as an adult the legacy of abuse left her with little self esteem and resulted in marriages that were even more abusive and damaging now for the first time she tells in her own words the story of her life and how she was able to free herself from the control of her abusers she also provides some resources for those suffering from abuse to get help the gospel miracles examines the thirty five miracles performed by jesus as reported in the four gospels the objectives are firstly to try and determine what really happened at the time they were enacted and secondly to see if it is possible to explain them this exercise is neither an attempt to deny miracles nor to blindly accept the accounts as inerrant but it is an unbiased attempt to arrive at the truth the findings conclude that sometimes there are possible naturalistic or simple alternative explanations to a supernatural one however this does not discount the possibility that jesus employed natural means at the right time for the right

reasons the gospel miracles concludes with a summary of some more modern reports of miraculous events a tragic love story between two people who logically should have never crossed paths to fall in love think you know everything about the lincoln assassination think again after 150 years many unsolved mysteries and enduring urban legends still surround the assassination of abraham lincoln by the popular stage actor john wilkes booth in a new look at the case award winning history author robert j hutchinson the politically incorrect guide to the bible explores what we know and don t know about what really happened at ford s theatre on the night of april 14 1865 in addition he argues that the deep seated political hatreds that roiled washington d c in the final weeks of the civil war are particularly relevant to our own polarized age among the tantalizing questions hutchinson explores are did the confederacy have a hand in the assassination plot who were booth s secret accomplices and why did he change the plan from kidnapping to assassination why was it so easy for booth to walk into the president s box to shoot him where were the guards how did booth evade the largest manhunt in u s history for nearly two weeks despite being unable to walk who gave the order to shoot booth in the garrett barn and what happened to his body drawing upon both primary sources and the best recent historical research what really happened the lincoln assassination separates established facts from mere conjectures and is the one book to own if you want to know what really happened hillary rodham clinton won more popular votes than any electoral college loser in us history and lost three million more votes than donald trump now she s currently engaged in the vendetta of no battle

inventor innovator entrepreneur these are today s heroes public policies are designed to help them investors want to fund them successful ones make hundreds of millions even billions of dollars whole nations pin their hopes on these people to stimulate their economies solve their problems give them prestige on the world stage but who are they what special gifts do they have and what exactly is it that they do that is what this book is about the story of the sewing machine an invention that dramatically transformed the lives of women shows that it was brought into existence by individuals with very different aims and talents who deserves the credit was it the man who built a test device that made a stitch but then gave it away or lost it or another who built a machine that barely worked but got a patent on it then

there was a man who developed it into something useful and made millions from it or was the true inventor someone who built an innocuous device to move cloth between stitches which turned out to be the one feature no sewing machine could do without or was he the man who made a simple machine that anyone could afford each of these fascinating characters contributed something essential if we look closely at what they did and what they were like we ll understand how inventions really happen

the primary purpose of this project has been to leave a description of middle class american life as experienced during the second quarter of the 20th century to those in my kinship system who were born decades later this collection of autobiographical vignettes for which i plead guilty of enhancing with fictitious dialogue in order to craft a story provides a literary context for reconstructing the actual events only segments of which are sequestered in memory in other words i am determined that in so doing i am involved as much in

explanation as i am in entertaining i am acutely aware of the fact that in this memoir a greater emphasis has been given to my pre teen years this imbalance was provoked by sage counsel to restrict the size of this book hence a number of stories emerging from experiences occurring and or endured throughout my high school and college years indeed a number sufficient for more than another book were pulled from the manuscript but not deleted from my computer the dialogue in each story admittedly involves some fabrication but the persons the places and the various features of each historical context are actual and true given my subsequent understanding of the personalities of those principally involved in each story in crafting the scenarios i have not hesitated to propose what i believe might have been an approximation of what may well have been the actual dialogue ergo although each story is not absolutely authentic from beginning to end with respect to the centering experience in each case yes it all actually happened b c b

the gospel miracles examines the thirty five miracles performed by jesus as reported in the four gospels the objectives are firstly to try and determine what really happened at the time they were enacted and secondly to see if it is possible to explain them this exercise is neither an attempt to deny miracles nor to blindly accept the accounts as inerrant but it is

an unbiased attempt to arrive at the truth the findings conclude that sometimes there are possible naturalistic or simple alternative explanations to a supernatural one however this does not discount the possibility that jesus employed natural means at the right time for the right reasons the gospel miracles concludes with a summary of some more modern reports of miraculous events
