Service Operations Management 2021 the fifth edition of introduction to human services through the eyes of practice settings includes many important updates and additions reflecting the many changes that have occurred in the world since the first edition was written and particularly since 2016 i was motivated to write this book after teaching my very first human services class back in 2002 i didn t know way back then that most professors adopted one or two textbooks and then developed a class based on their content i developed a course curriculum based on what i knew from having worked in the field for more than a decade imagine my surprise when i couldn t find a single book that matched the way i thought the course should be taught rather than teaching through the lens of populations e g working with children working with families etc i believed an introductory course should be taught from the perspective of the practice settings we worked in which often reflects a range of major social problems within society
