## □□□□□□□□ 2011-12

Robert A. Slade after collecting old fishing tackle since 1958 and contributing articles on old fishing lures for a collector magazine for several years started researching and writing books in the 1990s. He published the history collectible fishing tackle of Wisconsin in 1999 which sold 4,500 copies. Bob realized that even though there have been many books published on the subject of old fishing lures that few books covered any detailed history on the old lure makers. His latest book writing project was nine years in the making and covers over 100 years of lure making history starting in 1875 and covers over 2,500 lure makers throughout all of North America. The encyclopedia of old fishing lures made in North America is the first publication with extensive history and patent information on old lure makers and the first to include extensive coverage on Canadian lure makers. The author traveled to 11 states and 3 Canadian provinces visiting collectors' homes, newspaper archives, museums, and other sources and has taken over 10,000 pictures. In preparing the historical stories for these books, the set of books arranges for the individual and company lure makers to appear in alphabetical order. People purchasing these books can buy any one single book, a whole set, or even a book a month if they desire as the books will be printed and shipped on demand. Each book has over 400 pages of text, pictures, and collector values with each book containing a table of contents and index as well as a master index for the complete set of books.

## *The Encyclopedia of Old Fishing Lures 1986-06*

Field & Stream, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations.

## Field & Stream 1997-06

Bart Crabb's "The Quest for the World Record Bass" includes profiles on the individual states that stock the Florida largemouth bass along with their stocking programs and state record catches. There is also a summary of lakes for the individual states that have the potential to land a world state or line classification record. Additional topics include rules and regulations, biological information, interviews with bass anglers who have caught as many as 50 bass over 12 pounds, and an explanation of why the big lure concept works. This book contains numerous photos of bass, a fully documented list of the top 25 bass of all time, and tips to give every fisherman a fighting chance to catch the world record.
