Salience in Second Language Acquisition 2023-08-30

it is common for grammars to include an introductory chapter that offers a general introduction to the language under investigation as well as its users we encourage the grammar writer to include this type of information for the sign language to be described if a certain variant of the sign language is described this should be made clear at the outset the structure of this part is fairly flexible as can be seen from the table of contents we suggest including information about i the history of the sign language ii characteristics of the deaf community iii the status of the sign language and iv previous linguistic work on the sign language the last section in particular will have an impact on the content of subsequent parts as we encourage the grammar writer to include findings from previous studies in the grammatical description of the sign language clearly alternative structures are possible the overview of previous linguistic work for instance could be provided under the history header and deaf culture and or deaf education could be discussed under dedicated first level headers to give just two examples also depending on the available information sub headers could be added note that we adopt the convention of writing deaf with a capital d when it refers to issues related to a community that is characterized by the use of a sign language in contrast deaf with a small d refers to the medical condition of not being able to hear it is up to the grammar writer to decide whether to stick to this convention in the grammar

this is the sixth national survey of infant feeding practices the aim is to provide national figures on the incidence prevalence and duration of breastfeeding and other practices adopted by mothers in the early weeks and up to nine months after birth the chapters looked at incidence and duration of breastfeeding the use of milk other than breast milk antenatal care smoking and drinking choice of feeding method birth and post natal care feeding after the early weeks additional drinks and supplementary vitamins solid foods the headline figure is that the initial breastfeeding rates were 71 in england and wales 63 in scotland and 54 in northern ireland which represent a significant increase from the survey in 1995

A Dictionary of English Phrases with Illustrative Sentences 2009-04-13

in recent years the situation of production enterprises has been aggravated by the change from a vendors market to a buyers market the globalisation of competition a severe market segmentation and rapid progress in product and process technologies beside cost and quality time has taken on an increasingly important role forcing enterprises to become ever more dynamic and versatile therefore in all areas of production management novel effective concepts procedures and tools have been developed in order to meet these new requirements but beyond these more technical organisational and information technology related aspects there is certainly another one which has to be considered more closely than ever before namely that of

human resources is not group technology also related to group work do partners in a global network only operate according to predefined process schemes with no personal contact are the mental process models of the programmers of erp systems the same as those of the users what is the impact of human behaviour and what consequences are to be expected if organisational and individual objectives are separated and finally how do necessary technological changes affect the workforce and the individual needs and wishes of the employees

Owner Controlled Insurance Programs 2013-08-21

as accountability in education has become an increasingly prominent topic teacher preparation programs are being asked to provide credible evidence that their teacher candidates can impact student learning teacher work samples first developed 30 years ago have emerged as an effective method of quantifying the complex set of tasks that comprise effective teaching and documenting the effectiveness of preservice teachers impact on student learning hilda rosselli mark girod and meredith brodsky editors of connecting teaching and learning have assembled case studies from ten universities and insights from key policy leaders now implemented in more than 200 colleges and universities across the country as well as in scotland and chile a preponderance of new evidence is evolving from the use of teacher work samples in various venues that is expanding the field's knowledge in areas of practice research and policy this volume also includes a chapter by the forerunner of teacher work sample theory del schalock with his thoughts about remaining theory development needed to effectively link teacher preparation and student learning furthermore connecting teaching and learning provides practical advice on implementing teacher work samples and is a must have resource for all educators alike

The Social Basis of Medicine 1888
