Visible Learning for Science, Grades K-12 2018-02-15 in the
best science classrooms teachers see learning through the
eyes of their students and students view themselves as
explorers but with so many instructional approaches to choose
from inquiry laboratory project based learning discovery
learning which is most effective for student success in
visible learning for science the authors reveal that it s not
which strategy but when and plot a vital k 12 framework for
choosing the right approach at the right time depending on
where students are within the three phases of learning
surface deep and transfer synthesizing state of the art
science instruction and assessment with over fifteen years of
john hattie s cornerstone educational research this framework
for maximum learning spans the range of topics in the life
and physical sciences employing classroom examples from all
grade levels the authors empower teachers to plan develop and
implement high impact instruction for each phase of the
learning cycle surface learning when through and economics of
approaches students explore science concepts and scientific
