in post holocaust philosophy anti semitism has come to be seen as a paradigmatic political and ideological evil jews out of the question examines the role that opposition to anti semitism has played in shaping contemporary political philosophy elad lapidot argues that post holocaust philosophy identifies the fundamental epistemological evil of anti semitic thought not in thinking against jews but in thinking of jews in other words what philosophy denounces as anti semitic is the figure of the jew in thought lapidot reveals how paradoxically opposition to anti semitism has generated a rejection of jewish thought in post holocaust philosophy through critical readings of political philosophers such as adorno horkheimer sartre arendt badiou and nancy the book contends that by rejecting jewish thought the opposition to anti semitism comes dangerously close to anti semitism itself and at work in this rejection is a problematic understanding of the relations between politics and thought a troubling political epistemology lapidot s critique of this political epistemology is the book s ultimate aim drew a hyland one of continental philosophy s keenest interpreters of plato takes up the question of beauty in three platonic dialogues the hippias major symposium and phaedrus what plato meant by beauty is not easily characterized and hyland s close readings show that plato ultimately gives up on the possibility of a definition plato s failure however tells us something important about beauty that it cannot be reduced to logos exploring questions surrounding love memory and ideal form hyland draws out the connections between beauty the possibility of philosophy and philosophical living this new reading of plato provides a serious investigation into the meaning of beauty and places it at the very heart of philosophy the problems of modern ireland have attracted the attention of many british political leaders from gladstone to major attempts to formulate a solution have been governed by the british perception of what the problem is and by the structures as well as the ideas of british party politics and british political life ireland was never a laboratory in which dispassionate political experiments could be conducted modern ireland has been shaped by british policy and this has itself been influenced by british political habits and traditions social and economic reforms and new governmental institutions have been applied by politicians both of the left and the right the framework documents represent the latest attempt to achieve what gladstone david lloyd george and neville chamberlain sought and failed to achieve a lasting settlement of the political divisions within ireland and between ireland the great britain this book places the irish question in the wider context of the history of the british isles and thus seeks to explain its special place in british history as the oldest question and as a question for contemporary britain fully revised and with a new chapter to bring the analysis up to 1996 this new edition of professor boyce s work will be widely acclaimed in quebec and scotland questions of constitutional change national identity and national grievance play an important role in the electoral calculations of political parties and voters taking a strong stance on the national question can have strategic benefits both for parties pushing for greater autonomy and for those endorsing the status quo in this in depth look at issue voting authors Éric bélanger richard nadeau ailsa henderson and eve hepburn examine how the national question affects political parties and voter behaviour in both substate nations through party manifestos interviews with legislators and opinion survey data this book demonstrates that calls for constitutional change influence political debate competition voter choice and the outcome of elections not only within quebec and scotland but also across canada and the united kingdom minority nationalist parties the authors show can gain support by claiming ownership of issues with widespread public agreement such as self determination and protecting the identity and interests of the nation a comprehensive analysis of recent electoral politics the national question and electoral politics in quebec and scotland greatly enhances our understanding of the electoral impact of substate nationalism in order to ensure its racial ideological and strategic interests the hitler regime actively supported the status quo in palestine and the middle east during the interwar period this included the perpetuation of british imperial power in palestine the jewish national home not an independent jewish state promised by the balfour declaration and the rejection of arab self determination and independence the third reich and the palestine questionis the first comprehensive study of german palestine policy during the 1930s francis r nicosia places that policy within the context of historical german interests and aims in

palestine the middle east and europe from the wilhelminian era through the weimar period and the third reich he also provides insight into the broader foreign policy aims and calculations of the nazi regime throughout the arab middle east before world war ii in a new introduction nicosia places his ground breaking research in its proper historical perspective he reviews some of the recent literature on the history of nazi germany and the holocaust he also discusses some of the archival materials that have recently become available in the former german democratic republic and soviet union as virulent nationalism increases in europe and th debate surrounding political correctness continues to rage in the us this volume provides a theoretical analysis of these events and the questions they raise for critical theory ace the gmat with the only official study guides from the creators of the exam with 25 brand new content the official guide for the gmat verbal review 2016 is protecting their turf for decades they had congressmen in their pocket they had corrupt scientists who made excuses about nicotine cancer and addiction they had hordes of lawyers to threaten anyone inside the industry or out who posed a problem they had a whole lot of money to spend and they were good at getting people to do what they wanted them to do after all they had already convinced millions of americans to take up an addictive unhealthy and potentially deadly habit david kessler didn t care about all that in this book he tells for the first time the thrilling detective story of how the underdog fda while safeguarding the nation s food drugs and blood supply finally decided to take on one of the world s most powerful opponents and how it won like a civil action or and the band played on a question of intent weaves together science law and fascinating characters to tell an important and often unexpectedly moving story we follow kessler s team of investigators as they race to find the clues that will allow the fda to assert jurisdiction over cigarettes while the tobacco companies and their lawyers fight back hard full of insider information and drama told with wit and animated by its author s moral passion a question of intent reads like a grisham thriller with one exception everything in it is true this book explores the idea psychology and political geography of northeast india as forged by two interrelated but autonomous meta narratives first the politics of conflict inherent in and therefore predetermined by physical geography and second the larger geopolitics that was unfolding during the colonial period unravelling the history behind the turmoil engulfing northeast india the study contends that certain geographies most pertinently fertile river valleys and surrounding mountains which feed the rivers are integral to nature and any effort to disrupt this cohesion will result in conflict it comprehensively traces the geopolitics of the region since colonial era in particular the great game the politics that went into the making of the mcMahon line the Radcliffe line and the Pemberton line the region s relations with its international neighbours china bhutan myanmar bangladesh and nepal as well as the issue of many formerly non state bearing populations awakening to the reality of the modern state lucid and analytical this book will be of great interest to scholars and researchers of northeast india modern indian history international relations defence and strategic studies and political science in the third quarterly essay for 2006 Inga Clendinnen looks past the skirmishes and pitched battles of the history wars and asks what s at stake what kind of history do we want and need should our historians be producing the objective record of achievement that the prime minister has called for for clendinnen historians cannot be the midwives of national identity and also be true to their profession history cannot do the work of myth clendinnen illuminates the ways in which history myth and fiction differ from one another and why the differences are important in discussing what good history looks like she pays tribute to the human need for story telling but notes the distinctive critical role of the historian she offers a spirited critique of Kate Grenville s novel The Secret River and discusses the stolen generations and the role of morality in history writing this is an eloquent and stimulating essay about a subject that has generated much heat in recent times how we should record and regard the nation s past who owns the past in a free society everyone it is a magic pudding belonging to anyone who wants to cut themselves a slice from legend manufacturers through novelists looking for ready made plots to interest groups out to extend their influence Inga Clendinnen the history question life has answers make sure you re asking the right questions are you searching for meaning or
