Welcome to our comprehensive guide on the simple present, past, and future tenses. Whether you're a student, a language learner, or just talking about the future, this level is intermediate. When we know about the future, we normally use the present tense. 1. We use the present simple for something scheduled: "We have a lesson next Monday. The train arrives at 6:30 in the morning. The holidays start next week. It's my birthday tomorrow." 2. There are only 2 to be linguistically precise: the only tenses in the English language are the present and the past, with the future tense being formed using a helping verb. However, most people, for the purpose of teaching English, consider there to be 3 tenses: past, present, and future. There are 12 in the past. The past is defined as the concept of expressing the idea that in the past you had a thought something would happen in the future, beyond that thought, but now that event is also in the past. Here's an example: "I knew the dog was going to bark as soon as the mailman walked up." Learn how to use verbs to indicate time in English grammar. Find out the rules and examples of past, present, and future tenses and their aspects and sequences. The past tense is for showing conditions and things that happened prior to the time of speaking, e.g., "yesterday, last month, 5 years ago," and so on. The present tense is for describing habits or things that are currently taking place, e.g., "at the moment, at present, now," and so on.
