Sharks: Conservation, Governance and Management 2014-06-05

the key aim of this book is to explore the global conservation and management of sharks there has been a rapid decline in populations of many shark species while new science has emerged of the critical role they play in marine ecosystems however the authors show that conservation law and policy have been slow to develop with only a small number of iconic species being protected worldwide the increase in fishing impact primarily through shark finning and by catch has led to shark conservation receiving greater international attention in recent years the book explores our current knowledge and status of the law and science in relation to sharks with a particular focus on improving frameworks for their conservation and management recent trends are analysed including shark finning bans that have been put in place in several countries the widening number of nations establishing shark sanctuaries and the growth of shark based tourism the efficacy of current listing processes for endangered species and fisheries regulations is also examined tourism is explored as an alternative to fishing and the risks and impacts associated with this industry are analysed contributors include leading authorities from universities and conservation organizations in north america europe and australia a common theme is to emphasise the importance of collaborative governance between various interest groups and the need for inter disciplinary research and management approaches that are necessary to address the decline in sharks

______**2010-03**

Spectacular Nature 2023-09-01

this is the story of sea world a theme park where the wonders of nature are performed marketed and sold with its trademark star shamu the killer whale as well as performing dolphins pettable sting rays and reproductions of pristine natural worlds the park represents a careful coordination of shows dioramas rides and concessions built around the theme of ocean life susan davis analyzes the sea world experience and the forces that produce it the theme park industry southern california tourism the privatization of urban space and the increasing integration of advertising entertainment and education the result is an engaging exploration of the role played by images of nature and animals in contemporary

commercial culture and a precise account of how sea world and its parent corporation anheuser busch succeed davis argues that sea world builds its vision of nature around customers worries and concerns about the environment family relations and education while davis shows the many ways that sea world monitors its audience and manipulates animals and landscapes to manufacture pleasure she also explains the contradictions facing the enterprise in its campaign for a positive public identity shifting popular attitudes animal rights activists and environmental laws all pose practical and public relations challenges to the theme park davis confronts the park s vast operations with impressive insight and originality revealing sea world as both an industrial product and a phenomenon typical of contemporary american culture spectacular nature opens an intriguing field of inquiry the role of commercial entertainment in shaping public understandings of the environment and environmental problems
