the spanish civil war 1936 1939 pitted conservative forces including the army the church the falange fascist party landowners and industrial capitalists against the republic installed in 1931 and supported by intellectuals the petite bourgeoisie many campesinos farm laborers and the urban proletariat provoking heated passions on both sides the civil war soon became an international phenomenon that inspired a number of literary works reflecting the impact of the war on foreign and national writers while the literature of the period has been the subject of scholarship women s literary production has not been studied as a body of work in the same way that literature by men has been and its unique features have not been examined addressing this lacuna in literary studies this volume provides fresh perspectives on well known women writers as well as less studied ones whose works take the spanish civil war as a theme the authors represented in this collection reflect a wide range of political positions writers such as maria zambrano mercè rodores and Josefina Aldecoa were clearly aligned with the republic whereas others including Mercedes Salisachs and Liberata Masoliver sympathized with the nationalists most however are situated in a more ambiguous political space although the

ethics and character portraits that emerge in their works might suggest republican sympathies taken together the essays are an important contribution to scholarship on literature inspired by this pivotal point in spanish history

spanish american civilization developed over several generations as iberian born settlers and their new world descendants adapted old world institutions beliefs and literary forms to diverse american social contexts like their european forebears criollos descendants of spanish immigrants who called the new world home preserved the memory of persons of extraordinary roman catholic piety in a centuries old literary form known as the saint s life these criollo religious biographies reflect not only traditional roman catholic values but also such new world concerns as immigration racial mixing and english piracy ronald morgan examines the collective function of the saint s life from 1600 to the end of the colonial period arguing that this literary form served not only to prove the protagonist s sanctity and move the faithful to veneration but also to reinforce sentiments of group pride and solidarity when criollos praised americano saints he explains they also called attention to their own virtues and achievements morgan analyzes the printed hagiographies of five new world holy persons blessed sebastián de aparicio mexico st rosa de lima peru st mariana de jesús ecuador catarina de san juan mexico and st felipe de jesús mexico through close readings of these texts he explores the significance of

holy persons as cultural and political symbols by highlighting this convergence of religious and sociopolitical discourse morgan sheds important light on the growth of spanish american self consciousness and criollo identity formation by focusing on the biographical process itself morgan demonstrates the importance of reading each hagiographic text for its idiosyncrasies rather than its conventional features his work offers new insight into the latin american cult of saints inviting scholars to look beyond the isolated lives of individuals to the cultural and social milieus in which their sanctity originated and their public reputations took shape

in recent years much spanish literary criticism has been characterized by debates about collective and historical memory stemming from a national obsession with the past that has seen an explosion of novels and films about the spanish civil war and franco dictatorship this growth of so called memory studies in literary scholarship has focused on the representation of memory and trauma in contemporary narratives dealing with the civil war and ensuing dictatorship in contrast the novel of the postwar period has received relatively little critical attention of late despite the fact that memory and trauma also feature in different ways and to varying degrees in many works written during the franco years the essays in this study argue that such novels merit a fresh critical approach and that contemporary scholarship relating to the representation of memory and trauma in literature can enhance our understanding of the postwar spanish novel the volume opens with essays that engage with aspects of contemporary theoretical approaches to memory in order to reveal the ways in which these are pertinent to spanish novels written in the first postwar decades with studies on novels by camilo josé cela carmen laforet arturo barea and ana maría matute its second section focuses on the representation of trauma in specific postwar novels drawing on elements from

trauma studies scholarship to discuss neglected works by Mercedes Salisachs Dolores Medio and Ignacio Aldecoa the final essays continue the focus on the theme of trauma and revisit works by women writers namely Carmen Laforet Rosa Chacel Ana María Matute and María Zambrano that foreground the experiences of female protagonists who are seeking to deal with a traumatic past the essays in this volume thus propose a new direction for the study of Spanish literature of 1940s 1950s and early 1960s enhancing existing approaches to the postwar Spanish novel through an engagement with contemporary scholarship on memory and trauma in literature

what if the goddess athena who sprang fully grown from zeus's head and denied she had a mother became aware of the compelling existence of her other parent what if she discovered that her mother metis first wife of zeus and wiser than all gods and mortal men according to hesiod was swallowed by her father and continued to impart her wisdom to him from inside his belly recent spanish novels by women parallel this hypothetical situation based on greek myth by featuring female protagonists who obsessively re-examine the lives of their mothers seeking to know and understand them in mother myth in spanish novels schumm examines six narratives by spanish authors published since 2000 that focus on a daughter's search to know more about her matriarchal heritage carne riera's *la mitad del alma* luc a etxebarria's *un milagro en equilibrio* rosa monteros's *el corazn del tortaro* cristina cerezales's *de oca a oca* mar a de la pau janer's *las mujeres que hay en m* and soledad puertolas's *historia de un abrigo* in each of these novels the protagonist realizes that failure to integrate the loss of her mother into her life results in the inability to define herself without valorization of the maternal subject the legacy of the daughter is at risk she is also objectified and swallowed and the whole society suffers the daughters attention to their mothers in these novels is as if athena had finally recognized that her mother metis had been ingested by zeus the myth of metis and athena becomes a metaphor of the daughter's quest toward wholeness and individuation in these works she begins to understand that her maternal legacy is a source of wisdom that has been obscured these novels by spanish women strengthen the mother's voice rescue her from anonymity and rewrite the matriarchal archetype
