yourself and others the weekly source of african american political and entertainment news today it is almost impossible to do business without a cell phone and a blackberry or pda these devices are the lifeline for companies large and small and nobody knows this better than a hacker traditionally security for mobile devices has held a low priority now a certified ethical hacker explains in this book why this must change and how to change it packed with sobering examples of actual attacks this unique resource shows you how to mount your counterattack pcmag com is a leading authority on technology delivering labs based independent reviews of the latest products and services our expert industry analysis and practical solutions help you make better buying decisions and get more from technology many problems encountered by engineers developing code for specialized symbian subsystems boil down to a lack of understanding of the core symbian programming concepts developing software for symbian os remedies this problem as it provides a comprehensive coverage of all the key concepts numerous examples and descriptions are also included which focus on the concepts the author has seen developers struggle with the most the book covers development ranging from low level system programming to end user gui applications it also covers the development and packaging tools as well as providing some detailed reference and examples for key apis the new edition includes a completely new chapter on platform security the overall goal of the book is to provide introductory coverage of symbian os v9 and help developers with little or no knowledge of symbian os to develop as quickly as possible there are few people with long symbian development experience compared to demand due to the rapid growth of symbian in recent years and developing software for new generation wireless devices requires knowledge and experience of os concepts this book will use many comparisons between symbian os and other oses to help in that transition get yourself ahead with the perfect introduction to developing software for symbian os make twitter work for you right now twitter everyone s
