All I Want This Christmas

2015-11-17

slavoj i ek and srecko horvat combine their critical clout to emphasize the dangers of ignoring europe s growing wealth gap and the parallel rise in right wing nationalism which is directly tied to the fallout from the ongoing financial crisis and its prescription of imposed austerity to general observers the european union s economic woes appear to be its greatest problem but the real peril is an ongoing ideological political crisis that threatens an era of instability and reactionary brutality the fall of communism in 1989 seemed to end the leftist program of universal emancipation however nearly a quarter of a century later the european union has failed to produce any coherent vision that can mobilize people to action until recently the only ideology receptive to european workers has been the nationalist call to defend against immigrant integration today europe is focused on regulating the development of capitalism and promoting a reactionary conception of its cultural heritage yet staying these courses i ek and horvat show only strips europe of its power and stifles

its political ingenuity the best hope is for europe to revive and defend its legacy of universal egalitarianism which benefits all parties by preserving the promise of equal representation

Want Not

2013

the inventor of the school library writing center makes it easy for librarians and teachers of kindergarten through sixth grade learners to provide highly effective writing instruction students in the early years of their development have a tremendous capacity for learning by focusing on providing authentic writing experiences for kindergarten through sixth grade students librarians and teachers can help transform students into competent writers well before they reach middle school written by the inventor of the school library writing center this book is the only one of its kind it gives you clear and easy to read instructions on how to create and structure engaging and productive lessons in writing as well as reproducible worksheets that are ready to implement in your library or classroom each worksheet relates directly to writing lessons discussed in the book and serves to guide students and their teachers as they explore the exciting world of writing readers will learn why and how they can create and maintain a school library writing center the book moves sequentially through the grade levels starting with kindergarten and concluding at grade six with each chapter focusing on a specific grade level the author explains best practices with regards to tutoring writing in each grade discusses the developmental levels and skills expected in a particular grade with regards to writing and reading addresses grade specific common core learning standards discusses grade appropriate online resources and technology enabled activities that will help students become better writers and identifies practical tutoring methods that will help students develop as writers

What Women Want

2011-07-19

most of the times we open our mouth to communicate we talk about things this can happen because some of the linguistic expressions we use have semantic properties that connect them to extra linguistic entities thanks to these properties they may be used by us to refer to things or as we may also say they themselves refer to things though in certain cases they do so only relative to a context of use but how can we characterize the semantic properties in question what exactly is reference philosophers have been trying to answer these questions at least since plato s cratylus but not until the last century when language occupied center stage in philosophy did the problem come to be felt as really pressing in the last decade of the nineteenth century gottlob frege produced an account of reference that set the

stage for the contemporary discussion nevertheless around 1970 a number of powerful arguments against it were produced by saul kripke and others as a result many philosophers began to look at reference from a new perspective which highlighted the crucial role played by wordly historical facts that may be unknown to the speakers this semantic revolution however left us with a number of open problems the eighteen original essays collected in this volume deal with many of these problems thus contributing to our understanding of the nature of reference its role in cognition and the place it should be given in semantic theory

For Want of Wonders

2020-02-13

christopher columbus needed a sponsor for a dangerous expedition but the king of portugal wasn t interested he repackaged his proposal for the queen of spain she put columbus on retainer and the rest is history columbus may not have been the first to discover america but he had a great publicist that s where jeff blumenfeld comes in for many years using a pr specialty called adventure marketing jeff has connected explorers and their projects with corporate sponsors looking to demonstrate product performance in extreme conditions his book takes the reader from erik weihenmayer s expedition to be the first blind man to summit mt everest to the first confirmed dogsled expedition of the north pole to audrey mestre s deadly free dive expedition off bayahibe beach in the dominican republic you want to go where is the only book that not only takes you behind the scenes of some of the most dangerous adventure expeditions in recent years but shows how you can fund and arrange your own trip including details on everything from grants to sponsorships for anyone who s ever had a dream to scale the tallest mountain or cross the largest ocean you want to go where is ideal for armchair explorers and budding adventurers alike

You Wouldn't Want to Live Without Money!

2021-02-02

this book first published in 2000 offers a wide ranging and ambitious analysis of how european travellers in india developed their perceptions of ethnic political and religious diversity over three hundred years it analyses the growth of novel historical and philosophical concerns from the early and rare examples of medieval travellers such as marco polo through to the more sophisticated narratives of seventeenth century observers religious writers such as jesuit missionaries or independent antiquarians such as pieter della valle the book s approach combines the detailed contextual analysis of individual narratives with an original long term interpretation of the role of cross cultural encounters in the european renaissance an extremely wide range of european sources is discussed including the often neglected but extremely important iberian and italian sources however the book also discusses a number of non european sources muslim and hindu thereby challenging simplistic interpretations of western orientalism
