don t drink and drive it s a deceptively simple rule but one that is all too often ignored and while efforts to eliminate drunk driving have been around as long as automobiles every movement to keep drunks from driving has hit some alarming bumps in the road barron h lerner narrates the two strong and vocal sides to this debate in the united states those who argue vehemently against drunk driving and those who believe the problem is exaggerated and overregulated a public health professor and historian of medicine lerner asks why these opposing views exist examining drunk driving in the context of american beliefs about alcoholism driving individualism and civil liberties angry and bereaved activist leaders and advocacy groups like mothers against drunk driving campaign passionately for education and legislation but even as people continue to be killed many americans remain unwilling to take stronger steps to address the problem lerner attributes this attitude to americans love of drinking and love of driving an inadequate public transportation system the strength of the alcohol lobby and the enduring backlash against prohibition the stories of people killed and maimed by drunk drivers are heartrending and the country s routine rejection of reasonable strategies for ending drunk driving is frustratingly inexplicable this book is a fascinating study of the culture of drunk driving grassroots and professional efforts to stop it and a public that has consistently challenged and tested the limits of individual freedom why despite decades and decades of warnings do people still choose to drive while intoxicated one for the road provides crucial historical lessons for understanding the old epidemic of drunk driving and the new epidemic of distracted driving

this book focuses on analysing how legal systems set the terms for interactions between human beings and plants the story that the book recounts is one of experimental lawmaking in ecuador a country where over the past decade governmental officials and civil society advocates have attempted to reconfigure how human individuals and institutions relate to nature by following an eco centric approach to lawmaking in doing so ecuadorian legislators administrators and judges have taken seriously the ontologies of non human entities including plants through a process that has required the continuous navigation of tensions with certain logics that pervade conventional legal regimes the book endeavours to disrupt these conventional assumptions and approaches to lawmaking by taking seriously alternative strategies to reconstitute interactions between people and plants in doing so the book argues in favour of an ecological turn in laws that govern vegetal life the analysis is based on a close examination of the experiences that lawmakers in ecuador have had when experimenting with innovative approaches to re form relationships between human and non human beings concretely these experiments have yielded constitutional legislative and regulatory changes that inform the inquiry of how intellectual property and plant genetic resources laws both in ecuador and worldwide could become more ecological in nature the argument that the book develops is based on extensive ethnographic fieldwork and empirical research in ecuador complemented by archival and doctrinal legal analysis the contents of the book will be of interest to an academic audience of legal scholars and postgraduate students in law in addition to scholars and students in the fields of anthropology sociology socio legal studies and science and technology studies
