in the beginning of this short memoir mention is made of certain publications and the broadcast media interpretation of events in wwii refugee camps in egypt these are so replete with propaganda from uncle joe period that it is impossible to overlook them that is why this little book started now there is additional indication that very little has changed through past decades in podgara on the dalmatian coast in croatia on 12 april 2014 there was a celebration for the 70th anniversary of the refugee community in egypt the president of croatia delivered an appropriate address noting that his father was an escort for the refugees in one of press reports of these festivities it is noted that this refugee camp was closed in march 1946 but in truth the refugees outside of communist party reach were there till november 1948 when the camp closed and all the remaining inmates were moved to italy

murdertown bombtown crimetown through decades the city of youngstown ohio has been branded with such painful nicknames due in large part to the rackets violence and corruption of organized crime in the region the streets of youngstown and other communities in the mahoning and shenango valleys of northeastern ohio and western pennsylvania have been bloodied through numerous shootings and stabbings and during an especially disturbing period a series of gruesome car bombings in too many cases public officials and officers of the law were complicit in the criminal activity profiting through bribery and graft some authorities who resisted corruption and attempted to perform their public duties found themselves the targets of underworld violence in this november 2022 issue of informer the history of american crime and law enforcement we tackle the history of organized crime in youngstown region from the earliest reports of the 1890s through the apparent dissolution of the mob presence more than a century later it is a complex subject as elements of at least four regional mafia organizations and a persistent non mafia calabrian organization in addition to other criminal elements all collided cooperated combined and clashed with each other at different times this resulted in a wealth of interesting but often uncoordinated stories and personalities our strategy for dealing with the subject is to present a number of individual standalone articles on the more interesting of these stories bringing to light the significant personalities groups areas and eras the effort might be compared to the photographic stitching of a collection of images into a panorama readers will discover the secret criminal organizations behind names like society of honor sacred circle and society of the banana and will

encounter such characters as fats aiello ernie biondillo frank cammarata cadillac charlie cavallaro joe cutrone tony dope delsanter vince deniro wolf dicarlo big jim falcone mike farah red giordano big dom mallamo dominick moio two gun jimmy prato rocco racco rocco strange lenny strollo zebo zottola along with the barber brothers the carabbia brothers the naples brothers the romeo brothers and many more while it is our hope that a coherent image of the history of youngstown area organized crime and its connections to criminal entities outside the region will emerge we are concerned by the fact that some of our individual historical snapshots do not overlap with or even touch each other while others may overlap quite a bit we hope that the obvious voids and repetitions will not be a great distraction and that with some patience our readers will be able to get the picture contributors to this informer issue james barber justin cascio margaret janco thom l jones michael a tona edmond valin and thomas hunt

in this decisive analysis of the jfk assassination medical  
expert dr david w mantik and new york times bestselling  
author jerome r corsi definitively validate the observations  
of the physicians at parkland hospital who recognized  
immediately that the wound in jfk s throat and the massive  
avulsed blow out in the back of his head both involved  
frontal shots what distinguishes this book from the myriad of  
books written on the jfk assassination is that dr mantik s  
optical density measurements of the jfk skull x rays in the  
national archives leave no doubt the x rays were altered to  
disguise evidence of the two frontal shots with over four  
decades of experience reading x rays dr mantik has examined  
the jfk assassination materials more than anyone else mantik  
and corsi present overwhelming testimonial and documentary  
evidence that proves the bethesda surgeons performed pre  
autopsy surgery on jfk s head to remove evidence of the  
forehead bullet as well as to gain access to his brain and  
thus sanitize the crime scene by removing bullet fragments

and bullet tracks in the brain tissue the world is starving for objective science this book contains objective forensic science for which the world will never be ready if the x rays were doctored the cia the fbi and the us secret service have some questions to answer the public deserves the final analysis of these issues james lyons weiler phd the institute for pure and applied knowledge
