the return to business as usual after the economic earthquake that rocked financial markets wrecked banks and brought to light the grotesque distortions of casino capitalism on people and planet must be resisted a new form of capitalism is both necessary and possible as some forward thinking political business and civil society leaders have now recognised this book is about the myriad problems that we face and the systemic changes that are necessary for all enterprises in whatever sector and however constituted to operate within sustainable limits to lower their ecological footprint to enhance social equity and to develop a sense of futurity waddock and mcintosh argue that enterprise innovation and creativity like conversation caring and sharing are part of what it means to be human they argue that we need to redefine our relationship with commerce to reconcile our relationship with the earth the authors see the seeds of economic change in new and fundamentally different forms in entrepreneurship networks governance transparency and accountability already being planted and beginning to grow to nurture these developments they believe that we need to learn to see in new ways to begin to recognise their worth and to create a sufficiently broad coherent and integrated social movement for change that can overcome the momentum of the current system incremental change csr for example will not be enough deep change is needed in the purposing goals and practice of business enterprise deep change is needed in the ways that we as humans relate to nature and natural systems under severe stress from resource overuse and depletion a quadrupled population during the 20th century and human impact on climate and deep change is needed in the ways in which we relate to each other use our time and build our communities this book documents some of the changes that are already in progress and provides optimism that a sustainable enterprise economy geared to innovation creativity problem solving entrepreneurialism and enthusiasm for life can produce wealth preserve the natural environment and nurture social capital

Asia-Pacific Security Dynamics in the Obama Era 2012

this book examines the critical changes to the asia pacific security architecture emerging in the context of shifts in the global order as the obama administration s major strategic innovation and likely legacy unfold the author reviews the state of the international security system during the obama presidency recording the administration s asia pacific inheritance and tracing its efforts to chart a collaborative course aimed at retaining us primacy amidst strategic turbulence while security discourses are coloured by relative us decline and china s rise the book points out the competitive cooperative complexity of interactions with symbiotic economic ties moderating rivalry focusing on the military security cutting edge of sino us dynamics the narrative outlines the dangers posed by extreme nationalist dialectics in an interdependent milieu it examines the policies of japan australia india and russia towards the evolving sino us diarchy while recording washington s and beijing s contrasting approaches to these allies and possible adversaries the book concludes with observations on the loss of definition and clarity as the system evolves with multiple actors bidding for influence and the need for statesmanship as the systemic fulcrum moves from the atlantic to the pacific see this book will be of interest to students and

Militias and the Challenges of Post-Conflict Peace 2011-03-10

militias have proven to be a consistent and enduring challenge to achieving peace in war zones around the world whether armed by embattled governments in defence of their territory or fostered by external actors in the interests of greed or grievance these groups occupy an uncertain and deeply controversial position in the changing landscape of conflict linked variously to atrocities against civilians or international criminal elements part of what distinguishes them from more traditional combatants is their willingness to engage in violent tactics that defy international norms as well as a proclivity to embrace expediency in alliance making as such their diversity of form unorthodox nature and sheer numbers make achieving short term stability and an enduring peace a consistently difficult proposition bringing together the lessons learned from four intensively researched case studies the democratic republic of congo timor leste afghanistan and sudan the book argues that the overly rigid cookie cutter approach to demilitarisation developed and commonly implemented presently by the international community is ineffective at meeting the myriad of challenges involving militias in doing so the authors propose a radical new framework for demilitarization that questions conventional models and takes into account on the ground realities

unlike other books on civil society in russia which argue that russia s civil society is relatively weak and that democratisation in russia went into reverse following vladimir putin s coming to power this book contends that civil society in russia is developing in a distinctive way it shows that government and elite led drives to encourage civil society have indeed been limited and that the impact of external promotion of civil society has also not been very

successful it demonstrates however that independent domestic grassroots movements are beginning to flourish despite difficulties and adverse circumstances and that this development fits well into the changing nature of contemporary russian society
