the challenges to better health services in africa are well known africa lags behind all regions of the world including other developing regions on all indicators of better health a recent report from the world health organisation for instance shows that while africa has 20 of the world s sick people it has only 4 of its healthcare workers many of them vulnerable to the high mortality rate associated with malaria and notably the aids epidemic the state of investment in healthcare infrastructure is also grossly inadequate as is the efficiency of healthcare delivery but does this need to be so what factors are responsible for this unacceptable state of affairs contributors to the volume examine the evolution of healthcare services in africa the ongoing national regional and continental efforts to improve the delivery of healthcare in the continent and the direct and indirect obstacles militating against the maturation of the services and their efficient delivery the contributors all distinguished experts in the field so provide powerful personal insights and lessons learned in their current or previous work in the health sector in africa some of the themes covered include clinical care and centers of excellence healthcare finance and resource mobilization primary health care systems and community health and preventive care and risk reduction in health from their analyses and experience the authors articulate strategies and solutions on how to improve the quality of health services and health outcomes in the continent dr chinua akukwe is the chairman of the technical advisory board of the africa center for health and human security george washington university medical center washington dc usa he is an adjunct professor of global health and also an adjunct professor of preventive and community health at the school of public health george washington university he is also a member of the board of directors of the constituency for africa washington dc he previously served as the vice chairman of the national council for international health now known as the global health council washington dc the largest voluntary international health organization in the world dr akukwe who is also the chairman of the board of directors of the newly established africa center for epidemiology and diseases economics research abuja nigeria has written extensively on hiv aids health and development issues in africa he is the author of two recent books on africa don t let them die hiv aids tb malaria and the healthcare crisis in africa and beyond the rhetoric essays on africa s development challenges he is also a co author of a recent book on aids orphans in africa and their grandparents dr akukwe developed the communicable diseases guidelines for the african development bank he also developed the strategic framework and plan of action for achieving universal access to treatments for hiv aids tb and malaria for the africa union s au commission of african heads of state during the abuja 2006 special summit on hiv aids tb and malaria the strategic framework for action document was approved by the african council of health ministers at its april 2007 continental summit in johannesburg south africa dr akukwe is a fellow of the royal society of medicine london and a fellow of the american college of epidemiology he is also a senior fellow on global health at the national medical association washington dc

Africa Health Strategy, 2007-2015 2007

this volume addresses the ideational and policy oriented challenges of africa s health governance due to voluntary and involuntary cross border migration of people and diseases in a growing mobile africa the collected set of specialized contributions in this volume examines how national and regional policy innovation can address the competing conception of sovereignty in dealing with africa s emerging healthcare problems in a fast paced interconnect world

Africa's Health Challenges 2016-04-01

the first principle of public health practice is defined as the identification of the root cause or causes of all health problems from the diseased individual to the effects on that individual of family social community national global environment and other factors the second principle is defined as the utilisation of the resources of the community the nation and the world to effect a lasting and often a cheaper solution to health problems this comprehensively revised and updated edition of the first volume provides a ready source for principles and practice and more practical advice than the first edition which did not fully cover all the aspects of a comprehensive public health practice the contributors are all practitioners and the emphasis throughout is to bring out the principles involved in identifying the root causes of all types of health problems and discovering practical and innovatory solutions for them in ways best suited to african countries

Principles and Practice of Public Health in Africa 1996

the challenges to better health services in africa are well known africa lags behind all regions of the world including other developing regions on all indicators of better health a recent report from the world health organisation for instance shows that while africa has 20 of the world s sick people it has only 4 of its healthcare workers many of them vulnerable to the high mortality rate associated with malaria and notably the aids epidemic the state of investment in healthcare infrastructure is also grossly inadequate as is the efficiency of healthcare delivery but does this need to be so what factors are responsible for this unacceptable state of affairs contributors to the volume examine the evolution of healthcare services in africa the ongoing national regional and continental efforts to improve the delivery of healthcare in the continent and the direct and indirect obstacles militating against the maturation of the services and their efficient delivery the contributors all distinguished experts in the field who hold either challenging responsibilities in health in africa or have worked in multiple components of the healthcare delivery system in the continent also provide powerful personal insights and lessons learned in their current or previous work in the health sector in africa some of the themes covered include clinical care and centers of excellence healthcare finance and resource mobilization primary health care systems and community health preventive care and risk reduction in health the role of reference laboratories clinical research and partnerships the role of epidemiology statistics monitoring and evaluation in health services the role of the african diaspora and the role of politics in the organization of healthcare and the training of medical and other health professionals from their analyses and experience the authors articulate proven strategies and solutions based on consensus expert opinions on how to improve the quality of health services and health outcomes in the continent

HEALTH SERVICES IN AFRICA 2008-04-25

military psychology for africa is the first textbook of its kind from africa selected authors with competent military psychology knowledge skills expertise and experience each contributed a chapter to this unique book the book empowers academics students and military fellows to apply this knowledge at academic institutions and military units during operations and in presenting short courses the book will also equip soldiers with new knowledge for advancing peace on the continent and abroad

Military Psychology for Africa 2016-03-17

today's era of intense globalization has unleashed dynamic movements of people pathogens and pests that overwhelm the static territorial jurisdictions on which the governance provided by sovereign states and their formal intergovernmental institutions is based this world of movement calls for new ideas and institutions to govern people's health above all in africa where the movements and health challenges are the most acute this book insightfully explores these challenges in ways that put the perspectives of africans themselves at centre stage it begins with the long central and still compelling african health challenge of combating the pandemic of hiv aids it then examines the global governance responses by the major multilateral organizations of the world bank and the world trade organization and the newer informal flexible democratically oriented ones of the group of eight it also addresses the compounding health challenge created by climate change to assess both its intensifying impact on africa and how all international institutions have largely failed to link climate and health in their governance response it concludes with several recommendations about the innovative ideas and institutions that offer a way to closing the great global governance gaps and thus improving africans health and that of citizens beyond

Moving Health Sovereignty in Africa 2016-04-15

this is the first book to focus on the scope of social work practice within military settings from an international perspective and therefore addresses what has been a significant gap in the literature given the critical support needs of military personnel and their families worldwide and the expanding role of social work in responding to these needs this book offers a comprehensive global understanding of the common military social work milsw practices with active duty military service members and their families as well as the forms of practice and approaches that are unique or potentially transferable across nations based on a systematic inquiry conducted by the editors there are at least 25 countries that have social workers working directly within their country's military in either a civilian or uniformed capacity or both this book includes contributions from experts in australia canada denmark finland ireland israel the netherlands new zealand south africa the uk and the usa who describe various aspects of the milsw role within their country and the research that informs what military social workers do the milsw similarities and differences among these countries are highlighted including developmental milestones practice settings practice orientation and approach ethical dilemmas military to veteran transition support and past and current challenges experts from countries that do not yet have milsw but are interested in developing it japan ukraine or are in the process of establishing this area of practice slovakia also contribute chapters about these developments and the evidence base that supports this direction military social work around the globe is a valuable resource for social work programs and essential reading for instructors and students in milsw electives and specializations it is also pertinent reading for occupational social work and international social work courses in addition this book is an important source of information for military social workers who would like to gain insights into existing programs and the possibilities for international collaboration and for countries interested in developing milsw

Military Social Work Around the Globe 2022-11-14

military psychology has become one of the world's fastest growing disciplines with ever emerging new applications of research and development the routledge international handbook of military psychology and mental health is a compendium of chapters by internationally renowned scholars in the field bringing forth the state of the art in the theory practice and future prospects of military psychology this uniquely interdisciplinary volume deliberates upon the current issues and applications of military psychology not only within the military organization and the discipline of psychology but also in the larger context of its role of building a better world split into three parts dedicated to

specific themes the first part of the book military psychology the roots and the journey provides an overview of the evolution of the discipline over the years delving into concepts as varied as culture and cognition in the military a perspective on the role of military psychology in future warfare and ethical issues the second part soldiering deployment and beyond considers the complexities involved in soldiering in view of the changing nature of warfare generating a focal discourse on various aspects of military leadership soldier resilience and post traumatic growth in the face of extreme situations bravery and character strengths and transitioning to civilian life in the final section making a choice mental health issues and prospects in the military the contributors focus on the challenges and practices involved in maintaining the mental health of the soldier covering issues ranging from stress mental health and well being through to suicide risk and its prevention intervention and management strategies moral injury and post traumatic stress disorder incorporating enlightening contributions of eminent scholars from around the world the volume is a comprehensive repository of current perspectives and future directions in the domain of military psychology it will prove a valuable resource for mental health practitioners military leaders policy makers and academics and students across a range of disciplines

The Routledge International Handbook of Military Psychology and Mental Health *2019-12-11*

this book examines the impact of epidemics in africa exploring some of the adaptation and crisis management strategies adopted to tackle covid 19 ebola and hiv aids the authors reflect on lessons learned from solving complex problems and difficult decisions made by leaders on pandemic management to shape the security environment and thus the well being of people living in africa for years to come drawing on cases from across the continent the book demonstrates that significantly during the covid 19 pandemic african countries and communities frequently displayed regional solidarity creativity in decision making decisiveness in dealing with corruption and opportunism and resilience and discipline in implementation adopting a human security framework the authors share their lived experiences and explore the impact of epidemics on public policy decision making foreign policy implementation global relations collaboration in the community dimension and ultimately the future of socio economic development in africa this book will be a welcome addition for practitioners and researchers across the fields of security studies health management and african studies making an essential contribution to the security discourse in a post covid world

Human Security and Epidemics in Africa *2024-04-15*

the aim of this book is to better understand the phenomenon of hiv in a country that has faced the fullest might of the disease and yet after first faltering has made more progress than any other country in the world in its response to hiv it aims to reflect the complexity of this narrative and the range of widely differing insights by featuring what is likely the largest number of contributors in a single publication on the subject in south africa as well as a full spectrum of specialised areas ranging from high end science to personal reflections

Sizonqoba! Outliving AIDS in Southern Africa 2017-04-11

during the apartheid era thousands of south african political activists militants and refugees fled arrest by crossing into neighbouring southern african countries although they had escaped political oppression many required medical attention during their period of exile an ambulance on safari describes the efforts of the african national congress anc to deliver emergency healthcare to south african exiles and in the same stroke to establish political legitimacy and foster anti apartheid sentiment on an international stage banned in south africa from 1960 to 1990 the anc continued its operations underground in anticipation of eventual political victory styling itself as a

government in waiting in 1977 it created its own health department which it presented as an alternative medical service and the nucleus of a post apartheid healthcare system by publicizing its own democratic policies as well as the racist practices of healthcare delivery in south africa the health department won international attention for its cause and provoked widespread condemnation of the apartheid state while the global campaign was unfolding successfully the department s provision of healthcare on the ground was intermittent as patients confronted a fledgling medical system experiencing various growing pains still the legacy of the department would be long as many medical professionals who joined the post apartheid department of health in south africa had been trained in exile during the liberation struggle with careful attention to both the international publicity campaign and on the ground medical efforts an ambulance on safari reveals the intricate and significant political role of the anc s health department and its influence on the anti apartheid movement

An Ambulance on Safari 2020-10-22

this timely book examines how the south african national defence force has adapted to the country s new security political and social environment since 1994 in south africa s changed political state how has civilian control of the military been implemented and what does this mean for defence in a democracy this book presents an overview of the security environment how the mission focus of the military has changed and the implications for force procurement force preparation force employment and force sustainability the author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force the effect of affirmative action on meritocracy recruitment and retention military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment gender equality and mainstreaming the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged hiv aids and the consequences this holds for the military in terms of its operational effectiveness in closing the author highlights key events that have caused the sandf to become lost in transition and transformation spelling out some lessons learned the conclusions she draws are pertinent for the future of defence security and civil military relations of countries around the world

South Africa's Post-Apartheid Military 2020-01-01

the history of the anc which is the oldest liberation movement on the african continent is one that has generated a great deal of interest amongst historians in recent years gone are the days when the history of african nationalism could be relegated to the margins of the study of the south african past instead with the anc having ascended to the helm of political power a position it has maintained for over twenty years there can be no question that its history occupies an important and permanent place in the history of the nation this volume gathers together some of the most important contributions to the literature on the anc s role in south africa s struggle for liberation besides important themes such as gender ethnicity and healthcare contributions from leading historians also address why the anc decided to engage in armed struggle what role the south african communist party played in making this decision how the anc external mission contributed to the upsurge of mass protest in south africa in the 1970s and 1980s and the anc s contribution relative to the other components of the liberation struggle in ensuring the eventual demise of the old racial order the chapters in this book were originally published in the south african historical journal the journal of southern african studies and african studies

The ANC and the Liberation Struggle in South Africa 2018-10-03

written amidst the ongoing covid 19 pandemic this edited volume draws on the expertise of social scientists and humanities scholars to understand the several ramifications of covid 19 in societies politics and the economies of africa the contributors examine measures communicative practices and experiences that have guided the inter action of governments societies and citizens in this unpredictable moment covid 19 tested governments disaster preparedness as well as exposed governments attitudes towards the poor and vulnerable in the same vein it also tested the agency of the generality of the african populace in the face of containment measures and how these impacted on everyday social cultural and economic practices of the ordinary peoples in this vein our concern is to understand the relationship between growing vulnerability on the one hand and ingenuity of agency on the other and how both were embodied narrated and discoursed by the african poor university students religious entities and middle classes and those that bore the major brunt of the lockdowns lastly the covid 19 pandemic impacted regional trade and other bilateral relations in africa creating possibilities for regional entities such as ecowas and eac to demonstrate their creativity or a lack of it in dealing with the pandemic the contributors thus examine the regional dimension of the crisis and particularly evaluate how covid 19 tested the resilience of multilateralism regional trade networks cross border informal economies and human movements the volume is thus a useful resource for scholars of africa policy makers and those who want to understand covid 19 in africa it provides a multiplicity of perspectives of the pandemic and african responses at different levels of society economy and the political spectrum the continental focus of this volume gives room for broader comparative analyses lastly this interdisciplinary work benefits from the input of medical historians anthropologists sociologists linguists political scientists literature scholars urban planners geographers and others

The Military Balance 2009 2012-02-01

multilingualism and the public sector in south africa contributes to the discourse on language in south africa with a specific focus on multilingualism and the public sector the book argues for and demonstrates the relevance of putting into place appropriate language policies to help the majority of the people of south africa take an active part in nation building endeavours processes in which the public sector is key the discussion tackles the intricacies of the public sector from a constitutional legislative and policy human resource and organisational culture capital and infrastructure point of view and builds a case for the provision of multilingual services in the public sector as the benchmark of public sector service provision this is a very useful piece of work in terms of its contribution to the general field of language and development the author is arguing for and demonstrating the relevance of putting into place appropriate language policies to help a majority of the people of south africa take an active part in nation building this can be done through many channels and the public sector is one of the key areas that need to take up this challenge many people linguists included speak of the relevance of language and multilingualism but very few are able to illustrate it in an area of relevance such as the public sector this is research that will be of interest to specialists for sure but also to the layman simply interested in finding out more about the relevance of multilingualism to society not just in terms of social and cultural heritage but also in terms of its contribution to an improved economic output paulin djit school of humanities and languages university of western sydney australia

Multilingualism and the Public Sector in South Africa 1992

from 2013 to 2015 over 11 000 people across west africa lost their lives to the deadliest outbreak of the ebola virus in history crucially this epidemic marked the first time the virus was able to spread beyond rural areas to major cities overturning conventional assumptions about its epidemiology with backgrounds ranging from development to disease control the contributors to this volume some of them based in countries affected by the ebola epidemic consider the underlying factors that shaped this unprecedented outbreak while championing the heroic efforts of local communities and aid workers in halting the spread of the disease the contributors also reveal deep structural problems in both the countries and humanitarian agencies involved which hampered the efforts to contain the epidemic alarmingly they show that little has been learned from these events with health provision remaining underfunded and poorly equipped to deal with future outbreaks such issues they argue reflect the wider challenges we face in tackling epidemic disease in an increasingly interconnected world
