Mingling with the Enemy 2020-12-01

from the bestselling author of the art of mingling an essential how to for navigating today's conversational minefields we are living in a new social era the powder keg era these days almost every subject leads straight to politics and the conversation goes straight to hell in a nation that is completely polarized with most of us continually pummeled by social media and the 24/7 news cycle our social lives are taking a hit it can happen anywhere at a friend's birthday bash a wedding reception the gym your local cafe or your family thanksgiving dinner even a group zoom with colleagues or office mates can be dangerous suddenly what began as a perfectly innocent chat about chocolate cake or seasonal allergies takes a bad turn and you find yourself in an ugly argument about genetically altered foods or the healthcare system every day the tensions among us seem to be rising the ever widening ideological chasm is hurting our ability to communicate so how can we learn how to converse with people who are on the other side without anyone getting hurt with an insightful and down to earth sensibility bestselling author Jeanne Martinet offers a practical and encouraging guide to navigating conversations in our current social climate she illustrates easy to learn techniques and strategies to help you keep your mind open know your own triggers pick the best topics change course to avoid disaster be an active listener master the ability to yield without losing employ humor and storytelling to ease tension go undercover when necessary be a brilliant subject changer and find common ground she also provides important tips on knowing when it's time to take up the gauntlet and when it's better to make a graceful escape we have to keep talking to each other at all costs social interaction is a positive force that we need in order to thrive individually and as a society especially in today's fractured world learning to mingle with the enemy is about figuring out how to have conversations with people that may make us afraid or angry it's about recognizing the presumptions even prejudices we all have when coming into contact with certain people with the ultimate goal of teaching us how to

connect with each other more fully mingling with the enemy furnishes a road map for successfully traversing any and all hostile territories without anyone getting blown up

Education for Extinction 1995

the last indian war was fought against native american children in the dormitories and classrooms of government boarding schools only by removing indian children from their homes for extended periods of time policymakers reasoned could white civilization take root while childhood memories of savagism gradually faded to the point of extinction in the words of one official kill the indian and save the man education for extinction offers the first comprehensive account of this dispiriting effort much more than a study of federal indian policy this book vividly details the day to day experiences of indian youth living in a total institution designed to reconstruct them both psychologically and culturally the assault on identity came in many forms the shearing off of braids the assignment of new names uniformed drill routines humiliating punishments relentless attacks on native religious beliefs patriotic indoctrinations suppression of tribal languages victorian gender rituals football contests and industrial training especially poignant is adams s description of the ways in which students resisted or accommodated themselves to forced assimilation many converted to varying degrees but others plotted escapes committed arson and devised ingenious strategies of passive resistance adams also argues that many of those who seemingly cooperated with the system were more than passive players in this drama that the response of accommodation was not synonymous with cultural surrender this is especially apparent in his analysis of students who returned to the reservation he reveals the various ways in which graduates struggled to make sense of their lives and selectively drew upon their school experience in negotiating personal and tribal survival in a world increasingly dominated by white men the discussion comes full circle when adams reviews the government s gradual retreat from the assimilationist vision partly because of persistent student resistance but also partly because of a complex and sometimes contradictory set of progressive humanitarian and racist motivations policymakers did eventually come to view boarding schools less

enthusiastically based upon extensive use of government archives indian and teacher autobiographies and school newspapers adams s moving account is essential reading for scholars and general readers alike interested in western history native american studies american race relations education history and multiculturalism
