## ***The Year 2000***

1967

a fascinating collection of predictions for the end times in the year 2000 the year 2000 is at hand the end of the millennium means many things to many people but it has significance for almost everyone a thousand years ago monks stopped copying manuscripts and religious building projects came to a halt as panic swept europe today anxiety about global warming government power superviruses even recycling is on some level rooted in the fear of irreversible cataclysm in a landscape shadowed by racial conflict technological upheaval aids and nuclear weapons we reasonably fear the end of history 2000 looms large in our religious political and cultural imagination but while 2000 brings dread it also raises the prospect of transformation there is hope to be found in the apocalyptic this panoramic volume explores how the year 2000 operates in contemporary political discourse from black evangelical politics to radical right wing rhetoric one section is devoted specifically to apocalyptic violence analyzing twentieth century cults and cultural movements from david koresh who renamed his waco compound ranch apocalypse and perished in a modern day armageddon that fueled the millennialist angst of other extremist groups to environmental campaigns like earth first that also rely on the language of violence and imminent doom in their greening of the apocalypse

## ***The Year 2000 Technology Problem***

1998

at the dawn of a new millennium computer systems all

over the world will begin generating bad dates because of the way software has been written to interpret years this urgently needed handbook offers solutions to the problem this book provides a concrete plan for is developers and consultants scrambling to beat the clock before their systems collapse
