an in depth study of humanity s anunnaki origins and the anunnaki battle for an intelligent versus enslaved humanity explains the genetic engineering of humanity by an anunnaki scientist ninmah shows how the concepts of sin and the inferiority of women arose from enlil s will to keep humanity underdeveloped clashing with enki s and ninmah s plan to make us equal in intelligence reveals how humanity s long history of conflict was shaped by the battle between enki and his brother enlil further developing the revolutionary work of zecharia sitchin chris hardy shows that the gods of ancient myth

visitors from the planet nibiru created us using their own divine dna first through dna extraction from their own ribs marrow and later by direct relations with early human females drawing upon multiple sacred texts hardy details the genetic engineering of humanity by anunnaki scientist ninmah with the help of enki and hermes she reveals how ninmah s first female human creation tiamat eve contained more alien dna than the earlier male one adamu and how the biblical noah represents the perfection of her work examining the war between anunnaki brothers enki and enlil hardy reveals how the concepts of sin and the inferiority of women were born out of enlil s attempts to enslave and then wipe out humanity repeatedly thwarted by enki and ninmah the author further explains how the sacred sexuality taught to humans still seen in tantric practice became suppressed millennia later by the patriarchal concept of original sin and how innocent eve took the blame for the expulsion from eden and fall from grace showing that the god who created us was not the same god who expelled us from eden hardy explains that there will be no apocalypse because the good evil duality has never truly existed it has been only enemy gods fighting and implicating humanity in the wake of their own competition for power with a full psychological understanding of how the ancient gods have shaped humanity s ongoing history of conflict we can move beyond the framework of my good versus your evil imposed by enlil and begin to steer our own planetary destiny

the sumerian celestial object nibiru signified the
deity marduk the name is of akkadian origin and means
crossroads or transition point the vast majority of
babylonian literature relates it to jupiter in tablet 5
of the enuma elish the pole star at the time may have
been thuban or kochab ursa minor the term nibiru is
taken from 5 000 year old sumerian literature and
cuneiform tablets the sumerian civilization flourished

in the fertile regions between the euphrates and tigris rivers in the southern area of modern day iraq its cuneiform symbol was often a cross or a variety of winged discs nibiru is often referred to as the planet of the crossing in the reconstruction of tablet v of the enuma elish by landsberger and kinnier wilson the term pole star is rendered as ni bi ri it has several variations such as ni bi ru and ni bi a na landsberger and kinnier wilson think it alludes to a permanent point in the skies since it is contrasted with the term itebbiru which signifies who previously crossed tablet v s referenced translation uses the phrase polar star despite substantial evidence that neberu was a planet in the late eras either jupiter or mercury according to the authors remarks according to the discoveries of ancient astronomers nibiru is an actual planet or brown dwarf inside our solar system established scientific organizations in astronomy and archaeology consider these hypotheses pseudoscience or fringe science according to sumerian cosmology the twelfth planet in the solar system was nibiru which includes 10 planets the sun and the moon the earth the asteroid belt and the moon would have originated due to a catastrophic collision between the planet and tiamat a planet between mars and jupiter this was caused by a collision between one of nibiru s host satellites and tiamat which created significant rifts in the pacific ocean s crust and left half a planet resembling modern pangea our present notion of all continents as one land mass it was previously believed that such massive celestial bodies could not crash due to the magnetic field s strength however the discovery of the orpheus theory and the modeling of a collision between two earth sized objects have breathed fresh life into this theory

no doubt history is littered with theories and beliefs that not only proved to be wrong in the end but also costly as far as the human search for truth and development is concerned the view that the earth was the physical and the biological center of the universe was one such failed theory one that cost many famous scientists most of their lives and held back societies everywhere for decades or hundreds of years behind what is now considered a given truth in the current work under consideration religion and evolution theories come under scrutiny in light of recent scientific facts that dispute their most important claims about the origins of the species in the true story of human evolutionary genesis elvis newman presents both astounding facts and findings about the human genome as well as paradigm shifting theories emanating from zecharia sitchin s work around the sumerian clay tablets

End of Days 2014 to 2018, New World Order by 2045 2000

mankind lives in an illusion of freedom unaware of their true origins and purpose we didn t come directly from apes as darwinians claim rather mankind is the seventh version of a hybridization experiment run by extraterrestrials to create a slave warrior race that can also function as a source of genetic material to

advance our creators most of these races look humanoid and were once the gods of our civilization who descended from the skies in their fiery chariots and guided humanity's first civilizations however over time man was made to forget his origins as it was deemed that him realizing that he wasn't free would interfere with the program a few millennia pass and our cities are buzzing with technology that came out of nowhere shortly after ufo sightings began since the 1950s people have reported lights in the sky alien encounters and reports of government run secret space programs using reverse engineered extraterrestrial technology in the meantime our governments continue to lie about ufos and extraterrestrials stating that they lack any tangible evidence despite the incredible number of eyewitnesses coming forward whose testimonies are detailed and interconnecting unbeknownst to the public there is a plan in place to wipe out the majority of the world population and replace them with grey human hybrids that were created with reproductive material acquired through mass human abductions conducted by grey aliens this plan will take place after a solar flash event will raise the background frequency of our planet and induce a pole shift that will trigger floods and other catastrophes the shift in frequency will result in the failure of all the electronics we have come to depend on and it will render our race helpless in this period of great human suffering the gods will descend once again bearing gifts that will pacify our situation provided we allow them to administer us the question is will mankind wake up in time to avert their fate this book is tailored to provide the serious investigator a framework of understanding on the et and paranormal phenomenon

can darwinian evolution actually prove that we are alone in the universe this book illustrates that darwinian evolution is not an empirically predictable or testable scientific paradigm also shows that ancient artifacts on mars and the moon are evidence of game wardens in our own solar system could the earth be a controlled dna repository for the ongoing creation and dissemination of life forms including humans the author puts forth compelling evidence in this well researched work

this book develops new science of gravity and light based on the century old le sage theory of an ether that was replaced by einstein's theory of relativity after presenting astrophysical data contradicting the theory that the universe is expanding from a big bang experiments believed to prove relativity are shown to actually prove the ether theory instead freedom from

the speed limit of light enables a science of subatomic particles traveling faster than light to produce gravity electric and magnetic fields light and radio waves major technical innovations include solving the two fundamental problems with the le sage gravity theory and extending this theory to electromagnetism and consciousness this is a theory of everything that explains the heretofore unknown causes of the forces of nature this book builds on the works of zecharia sitchin and other authors to explain how life developed on earth and that evolution requires direction from intelligence that dwells in the subatomic particles on which this theory of gravity and light is based our biblical god is shown to be a composite of sitchins extraterrestrial gods who colonized earth and the intelligence that dwells alongside our own mind in the particles from which the universe is constructed and powered

next thirteen years started with the question of how the mayan calendar date of 21 december 2012 might be connected to christian apocalyptic expectations for the end of this age a certain amount of paranoia was no doubt produced by the unexpected destruction of much of my hometown christchurch through a number of earthquakes that struck throughout 2011 during the year of the super moon the 2011 japan tsunami came soon after and these disasters seemed to be leading into 2012 when nasa was also anticipating dangerous solar flares many thought the government knew something that the rest of us did not and wild speculation broke out on youtube from 2011 onwards fed by the massive underground bunker building programs and the arming of fema camps all across the united states huge stock piling of food in these bunkers throughout 2013 is not helping to calm public nerves financial prognosticators have also foreseen an imminent collapse and the picture being drawn is almost apocalyptic expressing a readiness for cosmic disaster or war on american soil my own beliefs anticipate critical events from 2026 to 2030 which is when i think the final great antichrist will be upon us who will appear with the overthrow of

jerusalem the thirteen year gap from 2013 to 2026 is of the right length to suggest the next thirteen years could be the period of apostasia rebellion that paul speaks of as preceding this great man of sin whom christ must destroy at his return what governments are doing now can easily be read as preparation for the collapse of society perhaps with the aim of building a new world order from the ashes ruling over whoever is fortunate enough to survive what is about to come plans to cull population may also be brought to fruition in this great set of events about to take place upon the earth in setting the plan of the elitists alongside what i think will transpire from 2026 onwards i lay before the reader what i think the next thirteen years may hold for us

there are undoubtedly close relations between the abrahamic religions where christianity is recognized as an extension of judaism just as islam recognized as an extension of both and that the prophet muhammad is the last of the prophets and messengers the question is what was before judaism zecharia sitchin answered this question and explained the extent of similarity between what was mentioned by judaism and what was discovered in the sumerian land starting from the landing of human like creatures on the surface of the earth called the anunnaki and their creation of the first human being on earth at that time which led to the creation of the current man however no one mentioned the extent of the relationship between the anunnaki and the last abrahamic religions which is islam the anunnaki explained how the universe originated in the scripts of mesopotamia the texts described the creation of our

solar system stage after stage then the emergence of a reckless planet from outer space called nibiru or marduk that was gradually drawn into our solar system which led to a collision between it and an ancient member of the sun family tiamat the ensuing celestial battle between the invader marduk and the ancient planet destroyed tiamat half of it was cut into pieces and became a hammered bracelet the other half turned into a new orbit and became the current planet earth with which the moon was attracted the invader took off in space despite being drawn to the center of our solar system and was slowed down by the collision and it now represents the twelfth member of our solar system it is clear how this changed our sky and gave our solar system its present form created the earth and everything on it that included the human race according to the original sumerian texts it was nibiru who came from another part of the universe who brought the seed of life and transported it to earth during the collision and life continued on earth and proceeded in a continued evolution until the anunnaki invaded the planet and they needed to accelerate the development of the beings on earth at that time which was the primary human homo erectus this led to the creation of the thinking human the present human being the events continued until the delogue occurred after that divine religions abrahamic religions appeared and the seal of these religions is islam this book discusses the extent of congruence symmetry and harmony between what islam said and what was reported by the anunnaki who came from space and their system civilization and development and how it affected the events and stories narrated by islam
