and ecological devastation savransky draws on the pragmatic pluralism of william james to develop what savransky calls a pluralistic realism an understanding of the world as simultaneously one and many ongoing and unfinished underway and yet to be made savransky explores the radical multifariousness of reality by weaving key aspects of james s thought together with divergent worlds and stories of magellan s circumnavigation sorcery in mozambique god s felt presence among a group of evangelicals in california visible spirits in zambia and ghosts in the wake of the 2011 tsunami in japan throughout he experiments with these storied worlds to dramatize new ways of approaching the politics of radical difference and the possibility of transforming reality by exploring and constructing relations between james s pluralism and the ontological turn in anthropology savransky offers a new conceptualization of the pluriverse that fosters modes of thinking and living otherwise
