this manual contains fully worked solutions to the odd numbered section exercises

歸計與一九九 *1997*

originally published in 1986 this book consists of 100 problems in probability and statistics together with solutions and most importantly extensive notes on the solutions the level of sophistication of the problems is similar to that encountered in many introductory courses in probability and statistics at this level straightforward solutions to the problems are of limited value unless they contain informed discussion of the choice of technique used and possible alternatives the solutions in the book are therefore elaborated with extensive notes which add value to the solutions themselves the notes enable the reader to discover relationships between various statistical techniques and provide the confidence needed to tackle new problems

until now the only way to capture store and effectively retain constantly growing amounts of
enterprise data was to add more disk space to the storage infrastructure an approach that can
quickly become cost prohibitive as information volumes continue to grow and capital budgets
for infrastructure do not in this ibm redbooks publication we introduce data deduplication
which has emerged as a key technology in dramatically reducing the amount of and therefore the
cost associated with storing large amounts of data deduplication is the art of intelligently
reducing storage needs through the elimination of redundant data so that only one instance of
a data set is actually stored deduplication reduces data an order of magnitude better than
common data compression techniques ibm has the broadest portfolio of deduplication solutions
in the industry giving us the freedom to solve customer issues with the most effective
technology whether it is source or target inline or post hardware or software disk or tape ibm
has a solution with the technology that best solves the problem this ibm redbooks publication
covers the current deduplication solutions that ibm has to offer ibm protectier gateway and
appliance ibm tivoli storage manager ibm system storage n series deduplication
