there is no consensus among legal scholars on the meaning of judicial integrity nor has legal scholarship yet seen a well articulated discussion about the normative concept of judicial integrity this book makes an analysis of the discourses on judicial integrity in judiciaries in both established and developing democracies in the former the rule of law is well developed and trust in the judges is high yet new demands for accountability emerge in the latter traditional integrity problems such as fraud and corruption take centre stage the author argues that integrity must be understood both as professional virtue discussed here through the lens of virtue ethical theory and as the safeguarding of public trust as understood through institutional theory the integrity of the judge is a significant new work for legal theorists and philosophers as well as scholars of legal and judicial ethics

biases and superficial experiences we stifle dialog before the conversation even begins if all we know is our own faith and we never put it side by side with what others believe our spiritual growth and commitments can be easily stunted by truly listening and learning from those with different beliefs we can broaden and deepen our kingdom commitments it is possible to stand up for jesus to articulate our faith clearly as witnesses and to defend our faith effectively while at the same time not being perceived as judgmental christians need to be faithful witnesses to god who are willing to listen to people with drastically different stories in those exchanges when we suspend judgment and truly listen we will find truth and beauty and goodness in some of the most unexpected places we will also find that if we truly listen we may be given a chance to speak features include help for interfaith and intercultural dialog thought provoking questions for spiritual conversation or reflection

international arbitration has developed into a global system of adjudication dealing with disputes arising from a variety of legal relationships between states between private commercial actors and between private and public entities it operates to a large extent according to its own rules and dynamics a transnational justice system rather independent of domestic and international law in response to its growing importance and use by disputing parties international arbitration has become increasingly institutionalized professionalized and judicialized at the same time it has gained significance beyond specific disputes and indeed contributes to the shaping of law arbitrators have therefore become not only adjudicators but transnational lawmakers this has raised concerns over the legitimacy of international arbitration practising virtue looks at international arbitration from the inside with an emphasis on its transnational character instead of concentrating on the national and international law governing international arbitration it focuses on those who practice international arbitration in order to understand how it actually works what its sources of authority are and what demands of legitimacy it must meet putting those who practice arbitration into the centre of the system of international arbitration allows us to appreciate the way in

which they contribute to the development of the law they apply this book invites eminent arbitrators to reflect on the actual practice of international arbitration and its contribution to the transnational justice system

the forbidden rumi and i rumi is a great muslim mystic and poet his faith in god does not deter him from riding the winds of dangerous thinking and free expression his most audacious poems were published in a collection called the forbidden rumi i have chosen one of them and interspersed its verses between the chapters of my book i wanted to let some fresh air in my dry discussion of the quranic text you see the fifth chapter of the quran was the last one to have been composed it discusses theological questions and lacks the poetic rhythm of the much

shorter chapters of the early days i am neither a poet nor a mystic i am not even a muslim and yet i feel i have something in common with a rumi i do not let the requirements of islamic tradition the strict rules of modern scholarship and the taboos of our time constrict my freedom to say what i think and to explain my forbidden views i do so however in a friendly manner and without any animosity my study of the quran is based on knowledge not on faith my purpose is not to provide spiritual ammunition to the faith it is much more prosaic i propose a new way of reading the quranic text instead of seeing in it a divine revelation i see in it the work of a man called muhammad i do what is forbidden for a believer but i recognize the believer s right to see in the book the very words of god
