Proposed Relocation of the Government Printing Office in Washington, D.C. 1977 the literature on rural america to the extent that it exists has largely been written by urban based scholars perpetuating out of date notions and stereotypes or by those who see little difference between rural and agricultural concerns as a result the real rural america remains much misunderstood neglected or ignored by scholars and policymakers alike in response emery castle offers the changing american countryside a volume that will forever change how we look at this important subject castle brings together the writings of eminent scholars from several disciplines and varying backgrounds to take a fresh and comprehensive look at the forgotten hinterlands these authors examine the role of non metropolitan people and places in the economic life of our nation and cover such diverse issues as poverty industry the environment education family

social problems ethnicity race religion gender government public policy and regional diversity the authors are especially effective in demonstrating why rural america is so much more than just agriculture it is in fact highly diverse complex and interdependent with urban america and the international market place most major rural problems they contend simply cannot be effectively addressed in isolation from their urban and international connections to do so is misguided and even hazardous when one fourth of our population and ninety seven per cent of our land area is rural together these writings not only provide a new and more realistic view of rural life and public policy but also suggest how the field of rural studies can greatly enrich our understanding of national life

How Washington Works 1987 the washington information directory is the essential one stop source for information on u s governmental and nongovernmental agencies and organizations this thoroughly researched guide provides capsule descriptions that help users quickly and easily find the right person at the right organization the washington information directory offers three easy ways to find information by name by organization and through detailed subject indexes although it is a directory the volume is topically organized and within the taxonomic structure the relevant organizations are listed not only with contact information but with a brief paragraph describing what the organization whether government or nongovernmental does related to that topic it is focused on washington in order to be listed an organization must have an office in the washington metropolitan area these descriptions are not boilerplate advertising material from the organizations rather they are hand crafted by a talented freelance research team in addition the washington information directory pulls together 55 organization charts for federal agencies congressional resources related to each chapter topic hotline and contact information for various specific areas of interest from food safety resources to internships in washington and an extensive list of active congressional caucuses and contact details it has two appendices one with thorough information on congresspersons and committees and the second with governors and embassies with more than 10 000 listing and coverage of the new presidential administration the 2019 2020 edition features contact information for the following 116th congress and federal agencies nongovernmental organizations policy groups foundations and institutions governors and other state officials u s ambassadors and foreign diplomats congressional caucuses

Washington, City and Capital 1937 this guide to the study and use of military history is designed to foster an appreciation of the value of military history and explain its uses and the resources available for its study it is not a work to be read and lightly tossed aside but one the career soldier should read again or use as a reference at those times during his career when necessity or leisure turns him to the contemplation of the military past

Washington State Government 1946 washington d c president john f kennedy once remarked is a city of southern efficiency and northern charm kennedy s quip was close to the mark since its creation two centuries ago washington has been a community with multiple personalities located on the regional divide between north and south it has been a tidewater town a southern city a coveted prize in fighting between the states a symbol of a reunited nation a hub for central government an extension of the boston new york megalopolis and an international metropolis in an exploration of the many identities washington has taken on over time carl abbott examines the ways in which the city s regional orientation and national symbolism have been interpreted by novelists and business boosters architects and blues artists map makers and politicians each generation of residents and visitors has redefined washington he says but in ways that have utilized or preserved its past the nation s capital is a city whose history lives in its neighborhoods people and planning as well as in its monuments and museums
