the key to a bold and original approach to the mission arrest trial and death of jesus is the title son of man he is portrayed as a man agonized by the feeling of divinity within him and with all a man s capacity for suffering and pain father let me be just a man he cries and to his disciples he son of man cannot be other than a man or else god has cheated and so my father in heaven will abandon me to myself the play also strongly reflects the historical and political situation in which the events occur and examines in a new light the character and motives of judas iscariot 3 women 27 men

the expression son of man used in the gospels almost exclusively by jesus has been the object of intensive study since the protestant reformation yet scholars have come to no agreement on its origin or meaning research in this area has been described as a veritable mine field and a can of worms because of the scope and complexity of the literature no comprehensive survey of the subject has been written in the twentieth century delbert burkett s book fills this need it provides a comprehensive historical overview of the debate from the patristic period to 1996 and gives an evaluation of that research and a summation of the present state of the question burkett concludes that despite nineteen centuries of son of man study there is no consensus concerning the meaning or origin of the expression the debate is therefore a prime example of the limits of new testament scholarship

son of man is practically the only self designation employed by jesus himself in the gospels but is used in such a way that no hint is left of any particular theological significance still during the first many centuries of the church the expression as it was reused was given content first literally as signifying christ s human nature later son of man was thought to be a christological title in its own right today many scholars are inclined to think that in an original aramaic of an historical jesus it was little more than a rhetorical circumlocution referring to the one speaking mogens müller s the expression son of man and the development of christology a history of interpretation is the first study of the son of man trope which traces the history of interpretation from the apostolic fathers to the present concluding that the various interpretations of this phrase reflect little more than the various doctrinal assumptions held by its interpreters over centuries

the title son of man in the gospel of john is an apocalyptic reference that highlights among a number of things that jesus is a heavenly figure benjamin e reynolds analyzes the background of son of man from the one like a son of man in daniel 7 and the interpretations of this figure in jewish apocalyptic and early christian literature although there is no established son of man concept the danielic son of man is interpreted with common characteristics that suggest there was at least some general understanding of this figure in the second temple period the author shows that these common characteristics are noticeable throughout the son of man sayings in john s gospel the context and the interpretation of these sayings point to an understanding of the johannine son of man similar to those in the interpretations of the danielic figure however even though these similarities exist the johannine figure is distinct from the previous interpretations just as they are distinct from one another one obvious difference is the present reality of the son of man's role in judgment and salvation the johannine son of man is an apocalyptic figure and thus son of man does not function to draw attention to jesus humanity in the gospel of john nor is the title synonymous with son of god son of man may overlap in meaning with other titles particularly son of god and messiah but son of man points to aspects of jesus identity that are not indicated by any other title along with the other titles it helps to present a richer christological portrait of the johannine jesus

borsch has not answered all the questions of course who can but his view of the man tradition makes more sense to me than for example perrin s rather cavalier dismissal of the evidence and it not only enlightens but also enlivens the discussion as against the extreme skeptics borsch is also convincing to me in arguing the case for a large measure of authenticity in the son of man tradition in the gospels if the proof of the pudding is in the eating the book constantly calls me back to its pages for insight regarding the problem both in its historical dimension and in its bearing upon the meaning of jesus of nazareth for faith today theology the author is well aware of the difficulties involved in entering a field wherein so much investigation has been done and of this with the positive and negative conclusions he gives an excellent survey crisp and critical the lines opened up will engage the attention of a new and more positive chapter in the form critical argument london quarterly and holborn review frederick h borsch is the retired bishop of the episcopal diocese of los angeles and professor of new testament and chair of anglican studies at the lutheran theological seminary at philadelphia he is also the former dean of the chapel at princeton university his other books include the spirit searches everything keeping life s questions the bible s authority in today s church introducing the lessons of the church year a guide for lay readers and congregartions and the christian and gnostic son of man

the problem of the term son of man is agreed to lie at the heart of gospel studies and dr todt s examination of the evidence is recognized as one of the most important although controversial books in the post bultmann phase of biblical scholarship now for the first time a detailed analysis is made of the three groups of sayings in the synoptic tradition concerning the parousia the earthly activity and the passion and resurrection

of the son of man the author shows how the dispute over the messianic self consciousness of jesus obstructed the independent problem about the meaning of the son of man sayings he endeavors to establish for each of the three groups of sayings their essential significance and their roots in the history of the tradition in order to elucidate the christological meaning of the designation son of man in the synoptic gospels here follows a detailed analysis of the son of man sayings as found in the marcan gospel in g in the matthean gospel and in the lucan gospel in each case the actual biblical references are given the author argues that the term son of man denotes the transcendent sovereignty celebrated in apocalyptic literature and was not applied by jesus to himself it was only the easter revelation that persuaded at a very early stage before the oral tradition developed into g and mark this study has led dr todt to conclude that on the one hand the passion kerygma and on the other hand the son of man and the christology of his supreme authority are together the two sources of the christological discover we have arrived at the conclusion he says that there is a christology in the synoptic tradition the basis of which is not a christological concept of jesus person this christology conceives of jesus authority on earth it does not conceive of a transcendent person the son of man as immanent in jesus another valuable contribution of the book is its many references to other scholarly literature including a new appendix covering recent british work in this field it also confronts the minister with a challenge does his preaching express the spiritual relationship to jesus authoritative word which the earliest collection of the lord s sayings demands publisher

many scholars disagree about what was meant by jesus s intriguing self designation ὁ υἱὸς τοῦ ἀνθρώπου the son of man this book attempts to find some clarity by working through every example of the phrase in the gospel of mark to determine how the phrase functions and what it means in that narrative while every use of the phrase is

self referential and describes jesus and his ministry the analysis yields three main distinctions in use of the phrase as well as three significant unifying features the book then moves to explore whether despite of the skepticism of some scholars there is some background for the phrase in the book of ezekiel s use of α and α son of man in relation to basic form and function and to thematic import

who is the son of man in pre christian jewish writings son of man was not a title and it certainly did not indicate divinity it was simply an expression for a man yet the term has held considerable interest among scholars of christology for its use in describing jesus in the gospels and among those studying messianism in second temple judaism consensus about the valences of son of man in scripture remains elusive in the first volume of this landmark study richard bauckham pushes the conversation forward explicating the phrase son of man as it appears in jewish interpretations of the book of daniel and in the apocryphal book of 1 enoch with philological precision and sensitivity to his sources bauckham attunes us to the realities of early jewish eschatology thorough and comprehensive son of man vol 1 offers scholars a solid basis for understanding the context of the messiah in the centuries leading up to jesus along with the forthcoming second volume which parses the meaning of son of man in the gospels bauckham s work is essential for understanding one of the most widely used yet misunderstood phrases in the bible

the remarkable award winning film son of man 2005 directed by the south african mark dornford may sets the jesus story in a contemporary fictional southern african judea while news broadcasts display the political struggles and troubles of this postcolonial country moments of magical realism point to supernatural battles between satan and jesus as well jesus judean struggle with satan begins with a haunting reprise of matthew s slaughter of the innocents and moves forward in a steve biko like non violent community building ministry captured in graffiti and in the video footage that judas takes to incriminate jesus satan and the powers seemingly triumph when jesus disappears but then mary creates a community that challenges such injustice by displaying her son s dead body upon a hillside cross the film ends with shots of jesus among the angels and everyday life in khayelitsha the primary shooting location auguring hope of a new humanity genesis 1 26 this book s essays situate son of man in its african context exploring the film's incorporation of local customs music rituals and events as it constructs an imperial and postcolonial world the film is to be seen as an expression of postcolonial agency as a call to constructive political action as an interpretation of the gospels and as a reconfiguration of the jesus film tradition finally the essays call attention to their interested ideological interpretations by using son of man to raise contemporary ethical hermeneutical and theological questions as the film itself concisely asks on behalf of the children featured in it and their politically active mothers whose world is this

most new testament scholars today agree that jesus used an enigmatic self designation bar nasha the son of man translated into greek as ho huios tou anthropou in the synoptic gospels in contrast paul the earliest new testament writer nowhere mentions the phrase in his letters does this indicate that the gospel writers simply misunderstood the generic sense of the aramaic idiom and used it as a christological

title in connection with daniel 7 as some scholars claim paul demonstrates explicit and sophisticated adam christology in romans 5 and 1 corinthians 15 in contrast there is no real equivalent in the synoptic gospels does this indicate that adam christology in romans 5 and 1 corinthians 15 was essentially a pauline invention to which the evangelists were oblivious in this study yongbom lee argues that in addition to the old testament contemporary jewish exegetical traditions and his damascus christophany paul uses the early church tradition in particular its implicit primitive adam jesus typology and the son of man saying traditions reflected in the synoptic gospels as a source of his adam christology

scholars and the faithful have many honest differences about the authorship and authenticity of the gospel stories were they revealed by god were they shaped edited and chosen by those who survived persecution and eventually organized the church what might have been omitted from among all the events known and unknown that swirled around jesus short life this novel reimagines key aspects of the life of jesus using sixteen tales told by minor characters mentioned or implied in the bible these witnesses tell of his birth the development of his belief system and their own roles in the miracles that later became glorified in the bible what emerges is jesus humanistic ethic compassion for the poor and marginal primacy of love over hate and power and essential worth of both sexes the novel imagines conversations jesus might have had with these witnesses with his doubts humility and faith displayed in terms we might understand today these forgotten stories help him emerge from the shadows as the true son of man

this book traces the history of the idea that the king and later the messiah is son of god from its origins in ancient near eastern royal ideology to its christian appropriation in the new testament both highly regarded scholars adela yarbro collins and john j collins argue that jesus was called the son of god precisely because he was believed to be the messianic king this belief and tradition they contend led to the identification of jesus as preexistent personified wisdom or a heavenly being in the new testament canon however the titles jesus is given are historical titles tracing back to egyptian new kingdom ideology therefore the title son of god is likely solely messianic and not literal king and messiah as son of god is distinctive in its range spanning both testaments and informed by ancient near eastern literature and jewish noncanonical literature
