philosophers have long theorized about what makes people s lives go well and why and the extent to which morality and self interest can be reconciled however we have spent little time on meta prudential questions questions about prudential discourse thought and talk about what is good and bad for us what contributes to well being and what we have prudential reason or prudentially ought to do this situation is surprising given that prudence is prima facie a normative form of discourse and cries out for further investigation of what it is like and whether it has problematic commitments it also marks a stark contrast from moral discourse about which there has been extensive theorizing in meta ethics dear prudence the nature and normativity of prudential discourse has three broad aims firstly guy fletcher explores the nature of prudential discourse secondly he argues that prudential discourse is normative and authoritative like moral discourse thirdly fletcher aims to show that prudential discourse is worthy of further explicit attention both due to its intrinsic interest but also for the light it sheds on the meta normative more broadly

rural america is progressing through a dramatic and sustained post industrial economic transition for many traditional means of household sustenance gained through agriculture mining and rustic tourism are giving way to large scale corporate agriculture footloose and globally competitive manufacturing firms and mass tourism on an unprecedented scale these changes have brought about an increased presence of affluent amenity migrants and returnees as well as growing reliance on low wage seasonal jobs to sustain rural household incomes this book argues that the character of rural housing reflects this transition and examines this using contemporary concepts of exurbanization rural amenity based development and comparative distributional descriptions of the haves and the have nots despite rapid in migration and dramatic changes in land use there remains a strong tendency for communities in rural america to maintain the idyllic small town myth of large lot single family home ownership this neglects to take into account the growing need for affordable housing both owner occupied and rental properties for local residents and seasonal workers this book suggests that greater emphasis be placed in rural housing policies that account for this rapid social and economic change and the need for affordable rural housing alternatives

this book is a comparative law study exploring the piercing of the corporate veil in latin america within the context of the anglo american method the piercing of the corporate veil is a remedy applied in exceptional circumstances to prevent and punish an inappropriate use of the corporate personality the application of this remedy and the issues it involves has been widely researched in anglo american jurisdictions and until recently little attention has been given to this subject in latin america this region has been through internal political conflicts that undermined economic development however rise of democratic governments has created the political stability necessary for investment and economic development meaning that the corporate personality is now more commonly used in latin america consequently corporate personality issues have become a subject of study in this region drawing on case studies from mexico colombia brazil and argentina piercing the corporate veil in latin american jurisprudence examines the ingenuity of latin american jurisdictions to deal with corporate personality issues and compares this method with the anglo american framework focusing in particular on the influence of two key factors legal tradition and the uniqueness of each legal system the author highlights both similarities and differences in the way in which the piercing of the corporate veil is applied in latin american and anglo american jurisdictions this book will be of great interest to scholars of company and comparative law and business studies in general
