lack the necessary documentation such informal border crossings have come to define one of the important economic regions in southern africa the post 1994 limpopo valley this thesis approaches routine acts of facilitating undocumented border crossings as an everyday social politics with deep historical roots by use of archival and ethnographic methods the thesis examines the social history and embodied practices of a variety of actors who engage in undocumented border crossings a particular focus is placed on the role of private transporters omalayitsha who represent an important link between an exclusionary and yet fragmentary migration regime and undocumented travellers in three theoretical and four empirical chapters and inspired by border studies as well as the critical realist approach in migration studies the thesis connects border practice to irregular movement and cheap labour within a regional context defined in part by dispossession through thick interpretations of the lived experience of border practice the study also connects such political economic processes e g migrant irregularity labour precarity and economic informality to questions of social identity and migrant subjectivities by situating the figure of the hyena at the centre of southern african border struggles the thesis invents an analytical concept that serves both an empirical and a theoretical task empirically it enables a synthetic understanding of how everyday contestations around the possibility to work across the border for low skill migrants have been interacting through time with broader processes of capital accumulation to partly shape the region s migrant labour system theoretically it shows how facilitation of undocumented border crossings calls for new sociological models that can account for processes that escape binary classification as formal or informal inclusive or exclusive legal or illegal ordered or disordered thus contributing to a better understanding of the role of migration in the contemporary world allt fler människor korsar idag gränsen vid beitbridge mellan sydafrika och zimbabwe samtidigt sker en motsvarande ökning av kreativa strategier som gör att även personer och varor som saknar rätt handlingar kan ta sig över gränsen dessa informella gränsövergångar har kommit att definiera vad som efter 1994 blivit en av de viktigaste ekonomiska regionerna i södra afrika limpopodalen i denna avhandling betraktas rutinerna vid sådana oregistrerade gränsövergångar som en vardagens politik med djupa historiska rötter genom arkivstudier och etnografiska observationer undersöker avhandlingen en samhällshistoria och en mänsklig aktivitet där en rad aktörer är inblandade i en pågående papperslös migration en viktig roll i sammanhanget har omalayitsha dvs privata transportörer som ofta är en viktig länk mellan de papperslösa resenärerna och den migrationsregim som å ena sidan stänger dem ute och å andra sidan är så fragmenterad att de tillåts passera igenom i tre teoretiska och fyra empiriska kapitel samt med ett angreppssätt hämtat från gränsstudier border studies och den kritiskt realistiska skolan inom migrationsstudier syftar avhandlingen till att förstå gränsövergångens praktik i förhållande till den irreguljära mobilitet och det överskott på billig arbetskraft som sätter sin prägel på en region där många är fattiga och fördrivna i avhandlingens djuptolkningar av migranternas levda erfarenhet vid gränsen förbinds i sin tur de politiskt ekonomiska processerna irreguljär migration prekära arbetsvillkor och ekonomisk informalitet med frågor om samhällelig identitet och migrantens subjektivitet avhandlingen ser hyenafiguren som central för förståelsen av de gränskamper border struggles som utkämpas i södra afrika med hyenan introduceras också ett analytiskt begrepp empiriskt sett möjliggör begreppet en syntetisk förståelse av hur vardagliga tvister och problem som präglar arbetsmigrantens försök att jobba på andra sidan gränsen över tid samverkar med större processer av kapitalackumulation som delvis formar regionens migrantarbetarsystem i teoretiskt avseende visar begreppet hur förhandlingarna som sker vid gränskontrollen klargör behovet av nya sociologiska modeller som kan redogöra för samhällsprocesser som undflyr varje binär klassificering som formell eller informell inkluderande eller exkluderande legal eller illegal ordnad eller oordnad och på så vis bidrar det till en bättre förståelse av migrationens betydelse i dagens värld the no 1 ladies detective agency book 13 fans around the world adore the best selling no 1 ladies detective agency series and its proprietor precious ramotswe botswana s premier lady detective in this charming series mma ramotswe with help from her loyal

Handbook of Research on Geospatial Science and Technologies 2017-08-10 an increasing number of people today cross the Beitbridge border of south africa and zimbabwe this comes with a corresponding growth of creative strategies that seek to aid the crossing of those people and goods that may lack the necessary documentation such informal border crossings have come to define one of the important economic regions in southern africa the post 1994 Limpopo valley this thesis approaches routine acts of facilitating undocumented border crossings as an everyday social politics with deep historical roots by use of archival and ethnographic methods the thesis examines the social history and embodied practices of a variety of actors who engage in undocumented border crossings a particular focus is placed on the role of private transporters omalayitsha who represent an important link between an exclusionary and yet fragmentary migration regime and undocumented travellers in three theoretical and four empirical chapters and inspired by border studies as well as the critical realist approach in migration studies the thesis connects border practice to irregular movement and cheap labour within a regional context defined in part by dispossession through thick interpretations of the lived experience of border practice the study also connects such political economic processes e.g. migrant irregularity labour precarity and economic informality to questions of social identity and migrant subjectivities by situating the figure of the hyena at the centre of southern african border struggles the thesis invents an analytical concept that serves both an empirical and a theoretical task empirically it enables a synthetic understanding of how everyday contestations around the possibility to work across the border for low skill migrants have been interacting through time with broader processes of capital accumulation to partly shape the region's migrant labour system theoretically it shows how facilitation of undocumented border crossings calls for new sociological models that can account for processes that escape binary classification as formal or informal inclusive or exclusive legal or illegal ordered or disordered thus contributing to a better understanding of the role of migration in the contemporary world allt fler människor korsar idag gränsen vid Beitbridge mellan Sydafrika och Zimbabwe samtidigt sker en motsvarande ökning av kreativa strategier som gör att även personer och varor som saknar rätt handlingar kan ta sig över gränsen dessa informella gränsövergångar har kommit att definiera vad som efter 1994 blivit en av de viktigaste ekonomiska regionerna i södra Afrika Limpopodalen i denna avhandling betraktas rutinerna vid sådana oregistrerade gränsövergångar som en vardagens politik med djupa historiska rötter genom arkivstudier och etnografiska observationer undersöker avhandlingen en samhällshistoria och en mänsklig aktivitet där en rad aktörer är inblandade i en pågående papperslös migration en viktig roll i sammanhanget har omalayitsha dvs privata transportörer som ofta är en viktig länk mellan de papperslösa resenärerna och den migrationsregim som å ena sidan stänger dem ute och å andra sidan är så fragmenterad att de tillåts passera igenom i tre teoretiska och fyra empiriska kapitel samt med ett angreppssätt hämtat från gränsstudier border studies och den kritiskt realistiska skolan inom migrationsstudier syftar avhandlingen till att förstå gränsövergångens praktik i förhållande till den irreguljära mobilitet och det överskott på billig arbetskraft som sätter sin prägel på en region där många är fattiga och fördrivna i avhandlingens djuptolkningar av migranternas levda erfarenhet vid gränsen förbinds i sin tur de politiskt ekonomiska processerna irreguljär migration prekära arbetsvillkor och ekonomisk informellitet med frågor om samhällelig identitet och migrantens subjektivitet avhandlingen ser hyenfiguren som central för förståelsen av de gränsskamper border struggles som utkämpas i södra Afrika med hyenan introduceras också ett analytiskt begrepp empiriskt sett möjliggör begreppet en syntetisk förståelse av hur vardagliga tvister och problem som präglar arbetsmigrantens försök att jobba på andra sidan gränsen över tid samverkar med större processer av kapitalackumulation som delvis formar

regionens migrantarbetarsystem i teoretiskt avseende visar begreppet hur förhandlingarna som sker vid gränskontrollen klargör behovet av nya sociologiska modeller som kan redogöra för samhällsprocesser som undflyr varje binär klassificering som formell eller informell inkluderande eller exkluderande legal eller illegal ordnad eller oordnad och på så vis bidrar det till en bättre förståelse av migrationens betydelse i dagens värld
