being it is an essential resource for anyone seeking to enhance their emotional intelligence and navigate life's challenges with resilience and grace management of adults with traumatic brain injury is an up-to-the-minute comprehensive and useful text designed to support busy physicians, nurses, and mental health professionals working with persons with traumatic brain injury (TBI) and their families. Understanding and improving outcomes after TBI requires consideration of the effects of biomechanical forces on the brain and the interactions between the injury, the person experiencing it, and the psychosocial context in which TBI and its consequences occur. A multidisciplinary approach to the management of persons with TBI therefore is essential. Accordingly, this book presents and synthesizes the work of internationally recognized brain injury clinicians, scientists, and educators who were selected by a team of editors with backgrounds in psychiatry, neurology, psychology, and physiatry. This broad range of perspectives enhances understanding and provides nuanced yet practical information on the neuropsychiatric management of persons with TBI. Evidence-informed, concise, and clinically rich management of adults with traumatic brain injury will be of enormous value to health care providers grappling with the neurological and mental health consequences of this widespread public health problem.

Printbegrænsninger der kan printes kapitlen. Adult education is now considered a mainstream academic discipline in several African countries, and its importance in today's knowledge and ideas economies is growing steadily. It is provided by organisations such as public universities, training colleges, corporate universities, and employers. The successful operation of educational organisations requires sound leadership and management. Management of adult education organisations in Africa examines African perspectives of managerial leadership, highlighting the importance of management in the design and effective delivery of adult education programmes. The ten chapters in this book focus on the following: management and diversity leadership in adult education organisations; management approaches in Africa; human resources development; organisational development and change; Ubuntu embedded leadership and organisational learning; planning, implementation, and evaluation; time management in an organisation; financial management and the challenges and opportunities of managing adult education organisations; making explicit reference to African models and understandings of management. Chapters in management of adult education organisations in Africa include a set of learning objectives, definitions of key terms, and clearly written summaries of the essential information and discussion points, additional activities, case studies, and suggested reading material. ~~policy makers and citizens understand the health system how it shapes the health care they receive and can provide and how to improve it it also introduces clinicians and non clinicians to one another s responsibilities and functions so that they can develop a more synergistic and harmonious health system~~

The Management of Risk and Meeting of Need. Adults with Mental Disorder in Scotland 2009

the ministry of justice are transforming how they manage offenders so that they are both punished when they break the law and are also more supported to get their chaotic lives back on track they now want to make sure that these same principles are applied to the way young adults in custody are managed young adults 18 20 year olds who are held in custody are usually accommodated in young offender institutions yois rather than adult prisons the context in which this was an effective means of managing this group has changed and the current approach is no longer appropriate or effective they are proposing a new approach to managing young adults that takes into account the challenges of this age group as well as ensuring they benefit from wider reforms many young adults are still maturing and sometimes lack the skills to negotiate complex social situations when large numbers of people in this age group are held together they can become so volatile it becomes difficult for staff to manage them if this continues there is a danger that the experience of young adults in custody will become more about containment and less about rehabilitation and supporting them to desist from offending in the new framework it is proposed that all young adults will be accommodated in mixed institutions where resources are targeted on their risks and rehabilitation and resettlement needs the aim is to ensure that their time in custody is both safe and effective

Programme Development and Programme Management in Adult
