~~there is a longer track record of experience with unified regulators it is~~
difficult to come to firm conclusions about the restructuring process of
regulators and the optimal internal structure of such agencies in addition
the book examines the concept of an independent regulator showing how this
concept as a corollary to the concept of a unified regulator could strengthen
the regulatory and institutional framework for financial services supervision
if accountability were to be part of such a framework

Global Financial Services Regulators 2001 the book sets out the features of
economic regulation in ireland in the following sectors aviation banking
broadcasting communications including post competition and energy separate
chapters set out the legislative approach to economic regulation in each area
and discuss the role of the main regulators the commission for aviation
regulation the central bank and financial services regulatory authority the
broadcasting commission of ireland the rte authority the broadcasting
complaints commission and the new broadcasting authority of ireland the
commission for communications regulation the competition authority and the
commission for energy regulation also included is an introduction to aspects
of the economics of regulation and the legal context there is a separate
chapter on judicial review and appeal panels in addition a chapter dealing
with some procedural issues in the enforcement of regulatory frameworks is
included this book is timely due to the emergence of a system of independent
sectoral regulation in ireland in the past decade following a policy shift
towards liberalising markets this is partly due to the impact of deeper
european common market integration and partly due to the desire of central
government to promote more competition in the irish economy the regulation of
the banking sector chapter is in particular timely given the recent turmoil
in this particular sector the regulation of broadcasting is also timely given
the pending adoption of the broadcasting bill 2008 by year end which will
fundamentally change the way the broadcasting sector is regulated the
communications act and the competition act were updated in 2007 and so it is
timely to reflect on those changes and the impact they have had on the
markets involved

Code of Federal Regulations 2015-01-14 financial systems around the world are
undergoing a process of modernization due to many different forces advances
in information technology product and market innovations and recent regional
financial crises have contributed to this movement as a result evolution in
the financial sector is leading to larger more complex financial
organizations that render inadequate the supervisory and regulatory
structures currently in place while some changes in regulatory policies have
already occurred the adaptation of supervisory oversight and regulation in
the face of these new developments is expected to continue for many years to
come this book collects papers originally presented in september 1998 at the
financial modernization and regulation conference co sponsored by the federal
reserve banks of atlanta and san francisco revised before publication the
papers seek to identify the reasons for changes in the financial services
sector and the implications these changes pose for financial supervision and
regulation taken together the papers offer valuable insights on 1 the forces
behind financial modernization 2 the implications financial modernization
poses for corporate structure market discipline and financial regulation 3
how to price deposit insurance accurately to reflect banks risk taking and 4
balancing private versus public interests and managing potentially
conflicting public policy goals
