the mathematical works of lars ahlfors and lipman bers are fundamental and lasting they have influenced and altered the development of twentieth century mathematics the personalities of these two scientists helped create a mathematical family and have had a permanent positive effect on a whole generation of mathematicians their mathematical heritage continues to lead succeeding generations in the fall of 1994 one year after bers death some members of this family decided to inaugurate a series of conferences the bers colloquium to be held every three years the theme was to be a topic in the ahlfors bers mathematical tradition broadly interpreted ahlfors died a year after the first colloquium future colloquia in this series will be called the ahlfors bers colloquium the first colloquium was held in october 1995 at the graduate center cuny in new york it coincided roughly with the second anniversary of bers death there were six lectures and much informal mathematical discussion this volume contains papers by the speakers and many of the participants the broad range of papers indicates how strong and far reaching bers influence has been the topics represented in the book include teichmuller theory kleinian groups higher dimensional hyperbolic geometry geometry of numbers circle packings theory of discrete groups classical complex function theory one dimensional dynamics fluid dynamics quasiconformal mappings in higher dimensions partial differential equations and classical algebraic geometry features twenty seven very high level papers on related topics open problems expository articles

## **Weekly Notes of Cases Argued and Determined in the Supreme Court of Pennsylvania, the County Courts of Philadelphia, and the United States District and Circuit Courts for the Eastern District of Pennsylvania 1872**

universal design design for all and inclusive design are all aimed at dismantling physical and social barriers to inclusion in all areas of life engagement in universal design is on the increase worldwide as practitioners and researchers explore creative and desirable solutions to shape the future of universal design products and practices this book is a collection of the

papers presented at ud2014 the international conference on universal design held in lund sweden in june 2014 the conference offered a creative and diverse meeting place for all participants to exchange knowledge experiences and ideas and to build global connections and creative networks for future work on universal design the themes of ud2014 span many aspects of societal life and the papers included here cover areas as diverse as architecture public transport educational and play environments housing universal workspaces and the internet of things as well as designs and adaptations for assistive technology the book clearly demonstrates the breadth of universal design and its ongoing adoption in societies all over the world and will be of interest to anyone whose work involves building a more inclusive environment for all
