signaled an intellectual and religious crisis raised influential issues of free speech and questioned the authority and control of the anglican church in victorian society the collection became a best seller and led to three sensational heresy trials although many historians and literary critics have identified essays and reviews as a pivotal text of high victorianism until now it has been almost inaccessible to modern readers this first critical edition edited by victor shea and william whitla provides extensive annotation to map the various positions on the controversies that the book provoked the editors place the volume in its complex social context and supply commentary background materials composition and publishing history textual notes and a broad range of new supporting documents including material from the trials manifestos satires and contemporary illustrations not only does such an annotated critical edition of essays and reviews indicate the impact that the volume had on victorian society it also sheds light on our own contemporary cultural institutions and controversies

Essays and Reviews

2000

this classic book serves as a starting point for any serious discussion of welfare reform losing ground argues that the ambitious social programs of the 1960s and 1970s actually made matters worse for its supposed beneficiaries the poor and minorities charles murray startled readers by recommending that we abolish welfare reform but his position launched a debate culminating in president clinton s proposal to end welfare as we know it

with animals that may host human pathogens and with a changing agricultural and industrial environment increasing resistance to antimicrobials the ubiquity of global travel and international commerce features the latest discoveries related to influenza with a newly published article by davidson hamer and jean van seventer provides a listing of rare diseases that have become resurgent or spread their geographic distribution and are re emergent highlights dengue and malaria as well as agents such as west nile and other arboviruses that have spread to new continents causing widespread concerns includes discussions of climate influencing the spread of infectious disease and political and societal aspects

The Bibliothek

2012

the studies reprinted here deal with the byzantine empire between the 9th and 11th centuries with a focus on the period of the macedonian dynasty and include four translated into english for this volume they reflect both historical and prosopographical concerns but professor markopoulos s principle interest is in the analysis of literary works and texts this he combines with the examination of the ideological context of the period as shaped in the reigns of basil i and constantine vii porphyrogenetos and the investigation of gender issues and other approaches the close analysis of the texts shows how after the close of iconoclasm new styles of writing and new attitudes towards the writing of history emerged for instance in the use of mythological themes which exemplify the changing intellectual concerns of the time
