History of the Ottoman Empire and Modern Turkey

1976

empire of the gazis the rise and decline of the ottoman empire 1280 1808 is the first book of the two volume history of the ottoman empire and modern turkey it describes how the ottoman turks a small band of nomadic soldiers managed to expand their dominions from a small principality in northwestern anatolia on the borders of the byzantine empire into one of the great empires of fifteenth and sixteenth century europe and asia extending from northern hungary to southern arabia and from the crimea across north africa almost to the atlantic ocean the volume sweeps away the accumulated prejudices of centuries and describes the empire of the sultans as a living changing society dominated by the small multinational ottoman ruling class led by the sultan but with a scope of government so narrow that the subjects muslim and non muslim alike were left to carry on their own lives religions and traditions with little outside interference

History of the Ottoman Empire

2018-02-20

in islamic law the world was made up of the house of islam and the house of war with the ottoman sultan successor to the early caliphs as supreme ruler of the islamic world however in this ground breaking study of the ottoman empire in the early modern period suraiya faroqhi demonstrates that there was no iron curtain between the ottoman and other worlds but rather a long established network of connections diplomatic trading and financial cultural and religious these extended beyond regional contacts to the empires of asia and the burgeoning modern states of europe england france the netherlands and venice of course military conflict was a constant factor in these relationships but the

overriding reality was one world and contact between cultured and pragmatic elites even gentlemen travelling for pleasure as well as pilgrimage and close artistic contact with the european renaissance faroqi s book is based on a huge study of original and early modern sources including diplomatic records travel and geographical writing as well as personal accounts its breadth and originality will make it essential reading for historians of europe and the middle east

The Origins of the Ottoman Empire

1992-01-01

this two volume reference provides university and high school students and the general public with a wealth of information on one of the most important empires the world has ever known arranged in topical sections this two volume encyclopedia will help students and general readers alike delve into the fascinating story of an empire that continues to influence the world despite having been dissolved almost 100 years ago detailed entries describe the people careers and major events that played a central role in the history of the ottoman empire covering both internal developments in ottoman

society and the empire's relationship with the powerful forces that surrounded it. Readers and researchers will find information pertaining to archaeology, geography, art, history, ethnology, sociology, economics, religion, philosophy, mysticism, science, and medicine, international relations, and numerous other areas of study. Many of the entries are enriched with material from Turkish and Persian primary sources written by courtiers, authors, and historians who were present at the time of major military campaigns or other important events in Ottoman history. These and other annotated primary documents will give students the opportunity to analyze events and will promote critical thinking skills. The language used throughout is accessible and based on the assumption that the reader is not familiar with the long, rich, and complex history of the Ottoman state.

The Ottoman Empire in the Reign of Süleyman the Magnificent

1988

ruling from 1299 until 1922, the Ottoman Empire was one of the biggest and longest-lasting empires in history. Although weak leadership, a failing economy, and wars with neighboring Russia and other countries led to its decline, the empire left a lasting legacy for its arts, trade, government, and multiculturalism. This appealing volume chronicles the rise and decline of the Ottoman Empire, including its beginnings in nomadic cultures, its toppling of the Byzantine Empire, and its peak under Süleyman the Magnificent, as well as the various conflicts in which it was often embroiled.

A Short History of the Ottoman Empire

2021

A monumental work of history that reveals the Ottoman dynasty's important role in the emergence of early modern Europe, the Ottomans have long been viewed as despots who conquered through sheer military might and whose dynasty was peripheral to those of Europe. *The Last Muslim Conquest* transforms our understanding of the Ottoman Empire, showing how Ottoman statecraft was far more pragmatic and sophisticated than previously acknowledged and how the Ottoman dynasty was a crucial player in the power struggles of early modern Europe. In this panoramic and multifaceted book, Gábor Ágoston captures the grand sweep of Ottoman history from the dynasty's stunning rise to power at the turn of the fourteenth century to the siege of Vienna in 1683, which ended Ottoman incursions into central Europe. He discusses how the Ottoman wars of conquest gave rise to the imperial rivalry with the Habsburgs and brings vividly to life the intrigues of sultans, kings, popes, and spies. Ágoston examines the subtler methods of Ottoman conquest, such as dynastic marriages and the incorporation of conquered peoples into the Ottoman administration, and argues that while the Ottoman Empire was shaped by Turkish, Iranian, and Islamic influences, it was also an integral part of Europe and was in many ways a European empire. Rich in narrative detail, *The Last Muslim Conquest* looks at Ottoman military capabilities, frontier management, law, diplomacy, and intelligence, offering new perspectives on the gradual shift in power between the Ottomans and their European rivals and reframing the old story of Ottoman decline.
