Marx Through Post-Structuralism 2010-06-17 marx through post structuralism presents a thorough critical examination of the readings of marx given by four post structuralist thinkers all key figures in continental philosophy jean françois lyotard jacques derrida michel foucault and gilles deleuze arguing that both marx and the post structuralists seek to produce a genuinely materialist philosophy the author aims to develop a better understanding of both marx and post structuralism and in so doing to reflect on the possibilities and problems for materialist philosophy more broadly against the common assumption that post structuralism begins with a rejection of marx choat argues that marx has been a key influence on post structuralist thought and that each of the four thinkers examined affirms marx s contemporary significance by looking at how these thinkers have read marx analysing their direct comments unspoken uses and implicit criticisms the book demonstrates that there is a distinct and original post structuralist approach to marx that allows us to read him in a new light

with french algeria has often been noted but it has never been

the european colonial enterprise the wide ranging discussion
ranging across authors as different as foucault derrida fanon

Crossing Borders 1992 robert c holub critically investigates the
histories of reception theory poststructuralism and
deconstruction in postwar germany and the united states he looks
at how imported theories assume a place in the political discourse
of a country and how indigenous intellectual traditions and
prejudices affect modify or even distort foreign theories holub
addresses many timely questions why did reception theory so
prominent in germany in the 1960s and 1970s fail to have an
impact on american academics until the 1980s why did
poststructuralism and specifically the writings of michel foucault
fail to find a home in german academia while becoming an
important theoretical voice in the united states how did
deconstruction originally considered by american scholars as
merely a sophisticated tool for analysis get taken up by leftists
who argued for an affinity between the critique of language and
the critique of capitalism and finally how have american
intellectuals responded to revelations of fascism in the pasts of

Historical Traces and Future Pathways of Poststructuralism

2020-11-11 this volume brings together an international array of
scholars to reconsider the meaning and place of poststructuralism
historically and demonstrate some of the ways in which it
continues to be relevant especially for debates in aesthetics ethics

deleuze derrida foucault irigaray kristeva lacan and lyotard in
combination with those of agamben luhman nancy and nietzsche
and examine issues including biopolitics culture embodiment
epistemology history music temporality political resistance
psychoanalysis revolt and the visual arts the contributors use
poststructuralism as a hermeneutical strategy that rejects the
traditional affirmation of unity totality transparency and
representation to instead focus on the foundational importance of

Bridging Complexity and Post-Structuralism 2016-09-27 this

work addresses the topic of philosophical complexity which
shares certain assumptions with scientific complexity cybernetics
and general systems theory but which is also developing as a
subject field in its own right specifically the post structural
reading of philosophical complexity that was pioneered by paul
cilliers is further developed in this study to this end the ideas of a
number of contemporary french post structural theorists and
their predecessors including derrida nancy bataille levinas
foucault saussure nietzsche heidegger and hegel are introduced
the implications that their various insights hold for our
understanding of complex human systems are teased out at the
hand of the themes of economy social ontology subjectivity
epistemology and ethics the analyses are also illuminated at the
hand of the problematic of the foreigner and the related
challenges of showing hospitality to foreigners the study presents
a sophisticated account of both philosophical complexity and
philosophies of difference by relating these subject fields the
study also extends our understanding of philosophical complexity
and offers an original characterisation of the aforementioned
philosophers as complex thinkers

Post-structuralist Geography 2005-11-22 this book fundamentally
challenges the radical credentials of post structuralism though
derrida foucault and deleuze claim to have deconstructed
metaphysics their work has much in common with previous
attempts to end the metaphysical tradition from kant to nietzsche
and heidegger and by sociology in general gillian rose shows that
this anti metaphysical writing always appears in historically
specific jurisprudential terms which themselves found and
recapitulate metaphysical categories she reconsiders post
structuralism in this light and assesses the relationship between
deconstruction and the earlier structuralism of saussure and levi
strauss she argues in conclusion that the choice between post
structuralist nihilism and hegelian and marxist dialectic is
spurious

Dialectic of Nihilism 1991-01-08 since the advent of post
structuralism various authors have problematized the modern
conception of autobiography by questioning the status of
authorship and interrogating the relation between language and
reality yet even after making autobiography into a theoretical
problem many of these authors ended up writing about
themselves this paradox stands at the center of this wide ranging
study of the form and function of autobiography in the work of
authors who have distanced themselves from its modern
instantiation discussing roland barthes jacques derrida hélène
