The Missing Entrepreneurs 2021 Policies for Inclusive Entrepreneurship and Self-Employment 2013-08-20 the problem of speaking about god arises from the presumed notion that god is utterly transcendent and is wholly other from human existence moreover a profound sense of mystery is held to surround god's being even so not beyond language maintains that it is still possible for human beings to express and describe god in words that language can bring genuine disclosure and understanding of the divine however given that religious language is problematic because inadequate those who engage in speaking about god must accept that the words they use cannot be pressed to yield precise definitions or complete explanations of the divine the author proposes a nuanced approach to the use of religious language which revolves more around meaning and relevance of the discourse about divine reality than objective claims about who or what god is
