Introduction to Sociology 2005-01 **Sociology Seventh Edition / Essential Concepts in Sociology Bundle** 2015-06-23

anthony giddens is widely recognized as one of the most important sociologists of the post war period this is the first full length work to examine giddens social theory it guides the reader through giddens early attempt to overcome the duality of structure and agency he saw this duality as a major failing of social theories of modernity his attempt to resolve the problem can be regarded as the key to the development of his landmark structuration theory the book is the most complete and thorough assessment of giddens work currently available it incorporates insights from many different perspectives into his theory of structuration his work on the formation of cultural identities and the fate of the nation state this fa

Conversations with Anthony Giddens 2013-06-06 regarded as the most authoritative introduction to contemporary sociology essentials of sociology adds a new author to its team with the second edition

Sociology, 7e and Sociology: Introductory Readings, 3e Set 2013-03 it is likely that this book will be regarded as the most important piece of grand sociological theory in english of the past decade mark poster university of california this book will take its place alongside such major statements of sociological theory as those of parsons and habermas anyone interested in the state of the social sciences today the character of social theory or the relevance of philosophy to social theory will now find it essential to grapple with giddens s bold and incisive book richard bernstein haverford college usa anthony giddens s new book is the fullest presentation yet of his theoretical views it has the lean sparse utterly serious craftsmanlike qualities we have learned to expect from its author and which make it a real pleasure to read dennis wrong times higher education supplement

2017-06 anthony giddens has made original contributions to the fields of social theory political sociology the sociology of stratifications suicide this set includes carefully selected secondary articles which bring out the scope of his work

Anthony Giddens and Modern Social Theory 1998-09-28 social life is in a constant process of change and sociology cannot afford to stand still sociology today is theoretically diverse covers a huge range of subjects and draws on a broad array of research methods central to this endeavour is the use of core concepts and ideas which allow sociologists to make sense of societies though our understanding of these concepts is constantly evolving and changing this clear and jargon free book introduces a careful selection of essential concepts that have helped to shape sociology and others that continue to do so going beyond brief dictionary style definitions anthony giddens and philip w sutton provide an extended discussion of each concept which sets it into historical and theoretical context explores its main meanings in use introduces some relevant criticisms and points readers to its ongoing development in contemporary research and theorizing organized in ten thematic sections the book offers a portrait of sociology through its essential concepts ranging from capitalism identity and deviance to citizenship the environment and intersectionality it will be essential reading for all those new to sociology as well as those seeking a reliable route map for a rapidly changing world

Essentials of Sociology 2008

The Constitution of Society 1986-03-25 in this book anthony giddens addresses a range of issues concerning current developments in social theory relating them to the prospects for sociology in the closing decades of the twentieth century

Anthony Giddens 1997 the third way enjoyed a dramatic success when it first appeared in the late 1990s the book helped to provide inspiration for left of centre parties in a variety of different countries around the world and many incorporated elements from it into their political programmes its influence in britain was particularly strong and the author worked closely with successive blair governments in the formulation of social and economic policy but all governments have their own agendas and they interpreted and adapted the ideas of the third way for their own purposes in some circles the third way came to be seen as an endorsement of a market driven approach to politics the new edition of this classic text includes an extended preface in which

arguments and original concepts to provide a comprehensive analysis of structuration theory s new approach to the subject matter in the social sciences

Sociology 2001-11 this collection of essays contains a selection of readings from the works of the pre eminent social theorist anthony giddens a wide range of theoretical issues are covered including the author s encounter with the writings of marx durkheim weber parsons and foucault

Sociology 1982 a landmark study in the struggle to contain climate change the greatest challenge of our era i urge everyone to read it bill clinton 42nd president of the united states of america since it first appeared this book has achieved a classic status reprinted many times since its publication it remains the only work that looks in detail at the political issues posed by global warming this new edition has been thoroughly updated and provides a state of the art discussion of the most formidable challenge humanity faces this century if climate change goes unchecked the consequences are likely to be catastrophic for human life on earth yet for most people and for many policy makers too it tends to be a back of the mind issue we recognize its importance and even its urgency but for the most part it is swamped by more immediate concerns political action and intervention on local national and international levels are going to have a decisive effect on whether or not we can limit global warming as well as how we adapt to that already occurring however at the moment argues giddens we do not have a systematic politics of climate change politics as usual won t allow us to deal with the problems we face while the recipes of the main challenger to orthodox politics the green movement are flawed at source giddens introduces a range of new concepts and proposals to fill in the gap and examines in depth the connections between climate change and energy security

The Third Way 2000 a rigorous but accessible introduction to giddens work including a critical assessment of his writings on the third way

Anthony Giddens 1998

Structuration Theory 1989 climate change differs from any other problem that as collective humanity we face today if it goes unchecked the consequences are likely to be catastrophic for human life on earth yet for most people and for many policy makers too it tends to be a back of the mind issue this book argues controversially we do not have a systematic politics of climate change politics as usual won t allow us to deal with the problems we face while the recipes of the main challenger to orthodox politics the green movement are flawed at source cover

The Giddens Reader 1993

The Politics of Climate Change 2013-04-23

The Sociology of Anthony Giddens 2003-05-20 the social sciences have long been based upon contrasts drawn between the militaristic societies of the past and the capitalist or industrial societies of the present but how valid are such contrasts given that the current era is one stamped by the impact of war and by the intensive development of sophisticated weaponry in setting out to address this and similar questions this book investigates issues that have been substantially neglected by those working in sociology and social theory anthony giddens offers a sociological analysis of the nature of the modern nation state and its association with the means of waging war his analysis is connected in a detailed way to problems that have traditionally preoccupied sociologists the impact of capitalism and industrialism upon social development in the modern period the result is a theory both of the institutional parameters of modernity and of the nature of international relations provided by publisher
