tremper s authoritative treatise on the role of the blonde in modern fiction and early film is as fascinating as it is dense the author of the virginia woolf biography who lived at alfoxton shows how the blonde evolved radically over two centuries in fairy tale lore she was the angelic and passive rapunzel who could be saved from imprisonment only by an all powerful prince but by the mid 1800s romance got ahold of her thackeray s becky sharp is an example and the blonde became a bombshell in the truest sense a pre raphaelite siren

rocketing through the patriarchy when the blondes of the silver screen harlow dietrich monroe hit big the blonde had become iconic and transgressive she was a catalyst of sexual and social disorder particularly when she left comedy and went to film noir as her hair dyed an impossible shade lit up screens and pages the blonde ignited social mores with her brassy independence tremper s thesis wanders in places as she equates the blonde with other transgressive characters people of color jews and at times the sheer volume of her scholarship overwhelms nevertheless the work explores a complex character with thoroughness and verve photos mar copyright 2006 reed business information

efforts to fight back against silencing are central to social justice movements and scholarly fields such as feminist and postcolonial studies but claiming to give voice to people who have been silenced always risks appropriating those people s stories lisa propst argues that the british novelist and public intellectual marina warner offers some of the most provocative contemporary interventions into this dilemma tracing her writing from her early journalism to her novels short stories and studies of myths and fairy tales propst shows that in warner s work features such as stylized voices and narrative silences tales that warner s books hint at but never tell question the authority of the writer to tell other people s stories at the same time they demonstrate the power of literature to make new ethical connections between people inviting readers to reflect on whom they are responsible to and how they are implicated in social systems that perpetuate silencing by exploring how to combat silencing through narrative without reproducing it marina warner and the ethics of telling silenced stories takes up an issue crucial not just to literature and art but to journalists policy makers human rights activists and all people striving to formulate their own responses to injustice

humor in recent american poetry has been largely dismissed or ignored by scholars due in part to a staid reverence for the lyric laugh lines humor genre and political critique in late twentieth century american poetry argues that humor is not a superficial feature of a small subset but instead an integral feature in a great deal of american poetry written since the 1950s rather than

viewing poetry as a lofty serious genre Carrie Conners asks readers to consider poetry alongside another art form that has burgeoned in America since the 1950s stand up comedy both art forms use wit and laughter to rethink the world and the words used to describe it humor's disruptive nature makes it especially whetted for critique many comedians and humorous poets prove to be astute cultural critics to that end Laugh Lines focuses on poetry that wields humor to espouse sociopolitical critique to show the range of recent American poetry that uses humor to articulate sociopolitical critique Conners highlights the work of poets working in four distinct poetic genres traditional received forms such as the sonnet the epic procedural poetry and prose poetry Marilyn Hacker Harryette Mullen Ed Dorn and Russell Edson provide the main focus of the chapters but each chapter compares those poets to others writing humorous political verse in the same genre including Terrance Hayes and Anne Carson this comparison highlights the pervasiveness of this trend in recent American poetry and reveals the particular ways the poets use conventions of genre to generate and even amplify their humor Conners argues that the interplay between humor and genre creates special opportunities for political critique as poetic forms and styles can invoke the very social constructs that the poets deride
