Campbell-Walsh Urology 10th Edition Review E-Book 2011-07-27 this book is a collection of thirty five texts from the first series of guest writers essays written specifically for the funambulist weblog from june 2011 to november 2012 the idea of complementing lambert s own texts on his blog with those written by others originated from the idea that having friends communicate with each other about their work could help develop mutual interests and provide a platform to address an audience thirty nine authors of twenty three nationalities were given the opportunity to write essays about a part of their work that might fit with the blog s editorial line overall two families of texts emerged collected in two distinct parts in this volume the first part the power of the line explores the legal geographical and historical politics of various places of the world the second part architectural narratives approaches architecture in a mix of things that were once called philosophy literature and art this dichotomy represents the blog s editorial line and can be reconciled by the obsession of approaching architecture without care for the limits of a given discipline this method rather than adopting the contemporary architect s syndrome that consists in talking about everything but being an expert in nothing attempts to consider architecture as something embedded within geo political cultural social historical biological and dromological mechanisms that widely exceed what is traditionally understood as the limits of its expertise

The Funambulist Papers 2013-10-23 during the third year of his famous seminar jacques lacan gives a concise definition of psychoanalysis psychoanalysis should be the science of language inhabited by the subject from the freudian point of view man is the subject captured and tortured by language since psychosis is a special but emblematic case of language entrapment lacan devotes much of this year to grappling with distinctions between the neuroses and the psychoses as he compared the two relationships symmetries and contrasts emerge that enable him to erect a structure for psychosis freud s famous case of daniel paul schreber is central to lacan s analysis in demonstrating the many ways that the psychotic is inhabited possessed by language lacan draws upon schreber s own account of his psychosis and upon freud s notes on this case of paranoia the analysis of language is both fascinating and enlightening
