A History of the English Language 2006-08-15

born as a germanic tongue with the arrival in britain of the anglo saxons in the early medieval period heavily influenced by norman french from the 11th century and finally emerging as modern english from the late middle ages the english language has grown to become the linguistic equivalent of a superpower and is now sometimes described as the world's lingua franca worldwide some 380 million people speak english as a first language and some 600 million as a second language a staggering one billion people are believed to be learning it english is the premier international language in communications science business aviation entertainment and diplomacy and also on the internet it has been one of the official languages of the united nations since its founding in 1945 it is considered by many good judges to be well on the way to becoming the world's first universal language author philip gooden tells the story of the english language in all its richness and variety from the intriguing origins and changing definitions of common words such as ok beserk curfew cabal and pow wow to the massive transformations wrought in the vocabulary and structure of the language by anglo saxon and norman conquest through to the literary triumphs of beowulf the canterbury tales and the works of shakespeare the story of english is a fascinating tale of linguistic social and cultural transformation and one that is accessibly and authoritatively told by an author in perfect command of his material

The Story of English 2009

the english language is now accepted as the global lingua franca of the modern age spoken or written in by over a quarter of the human race but how did it evolve how did a language spoken originally by a few thousand anglo saxons become one used by more than 1 500 million what developments can be seen as we move from beowulf to chaucer to shakespeare to dickens and the present day groundbreaking history of the language by david crystal the world renowned writer and commentator on english many books have been written about english but they have all focused on a single variety the educated printed language called standard english david crystal turns the history of english on its head and instead provides a startlingly original view of where the richness creativity and diversity of the language truly lies in the accents and dialects of nonstandard english users all over the world whatever their regional social or ethnic background each group has a story worth telling whether it is in scotland or somerset south africa or singapore dialect around the world as well as in literary classics from the canterbury tales to the lord of the rings for the first time regional speech and writing is placed centre stage giving a sense of the social realities behind the development of english this significant shift in perspective enables the reader to understand for the first time the importance of everyday previously marginalized voices in our language and provides an argument too for the way english should be taught in the future

An Outline History of the English Language 1961

David Crystal, world authority on the English language, presents a lively and factual account of the rise of English as a global language and explores the whys and wherefores of the history, current status, and future potential of English as the international language of communication. English has been lauded as the most successful language ever with 1.5 billion speakers worldwide, but Crystal avoids taking sides and tells the story in a measured but engaging way, backed by facts and figures. This new edition of his classic book includes new material on the vocabulary, grammar, and pronunciation of new Englishes, footnotes, new tables, and a full bibliography. There are updates throughout. This is a book for anyone of any nationality concerned with English: teachers, students, language professionals, politicians, general readers, and anyone with a love of the language.

The Stories of English 2004

This new edition of David Crystal's classic book is the definitive survey of English in all its global variations. Despite the astonishingly widespread use of English, each speaker makes it their own. Whenever we write or speak, we give away a great deal about ourselves by our choices in pronunciation, dialect, vocabulary, and grammar. This fascinating book explores the way the language has developed and examines the factors that unify it and the variations that divide it, both nationwide and worldwide. Now completely revised, the English Language takes into account the phenomenal influence of the Internet, as well as social and political changes, recent neologisms, developments in the media, and shifting preferences in accent and dialect. There is also a new chapter on the effect of technology on English and a final discussion of the future of the language. Book jacket.

English as a Global Language 2003-07-28

From the time when we started collaborating as a team in the 1960s, we envisaged not a grammar but a series of grammars. In 1972, there appeared the first volume in this series, a Grammar of Contemporary English (GCE). This was followed soon afterwards by two shorter works, a Communicative Grammar of English (CGE) and a University Grammar of English (UGE). Published in the United States with the title *A Concise Grammar of Contemporary English*, with a comprehensive Grammar of the English Language, we attempt something much more ambitious, a culmination of our joint work which results in a grammar that is considerably larger and richer than GCE and hence superordinate to it. Yet, as with our other volumes, since GCE, it is also a grammar that incorporates our own further research on grammatical structure, as well as the research of scholars worldwide who have contributed to the description of English and to developments in linguistic theory. Preface.

A Brief History of the English Language. - 1922

reprint of the original first published in 1875

A History of the English Language 1978

this is the fully revised and expanded second edition of english one tongue many voices a book by three internationally distinguished english language scholars who tell the fascinating improbable saga of english in time and space chapters trace the history of the language from its obscure beginnings over 1500 years ago as a collection of dialects spoken by marauding illiterate tribes they show how the geographical spread of the language in its increasing diversity has made english into an international language of unprecedented range and variety the authors examine the present state of english as a global language and the problems pressures and uncertainties of its future online and offline they argue that in spite of the amazing variety and plurality of english it remains a single language

Handbook of the English Language 2023-11-19

despite a history of hundreds of years of research analysing aspects of english grammar there are still open problems which continue to baffle language researchers today such grammar mysteries arise for a number of reasons because the language is changing because different speakers of the language adhere to distinct norms and thus introduce and maintain variation in the system because there are differences between the grammar of spoken and written english this book illuminates some of the complexities of the subject the areas where new discoveries await and why it matters through a series of accessible and engaging case studies on various aspects of grammar from multiple negation to possession the authors present grammar as an intellectual challenge this book brings out into the open questions about language usage to which we still do not have good answers in a bid to make variation overt and to revel in the mystery of the english language both aimed at the interested general reader and the beginning student of english language and linguistics this is a fresh take on grammar

English - One Tongue, Many Voices 2016-01-19

reprint of the original first published in 1876

The Heart of the English Language - Grammar 2005

unlike other histories of the english language this introduction cuts away traditional divisions into old middle and modern english to chart the rise of and changes in standard english it covers the english and historical background changes in phonology vocabulary and syntax and offers close analyses of individual texts of english from a wide range of periods the final chapter focuses on the place of english as a world language and the growing array of the varieties of english spoken today a useful appendix gives definitions of technical terms and phonetic symbols

☐☐ 2012-03-30

the study of the history of the english language hel encompasses a broad sweep of time and space reaching back to the fifth century and around the globe further the language has always varied from place to place and continues to evolve today instructors face the challenges of teaching this vast subject in one semester and of engaging students with unfamiliar material and techniques this volume guides instructors in designing an hel course suited to their own interests and institutions the essays consider what subjects of hel to include how to organize the course and what textbook to assign they offer historical approaches and those that are not structured by chronology sample assignments provide opportunities for students to conduct original research work with archives and digital resources and investigate language in their communities the essays also help students question notions of linguistic correctness

The History of the English Language 1910

summary english is spoken or written today by a third of the world s population an unprecedented achievement for a language how has this situation come about and what happens to a language when it is used by so many in this illustrated history david crystal charts the development of the language from the earliest runic inscriptions in old english through the emergence of a standard variety of english between 1400 and 1800 to the most modern forms of the language in concrete and text poetry in telling the story he draws on examples from english in its various guises and uses from our everyday english to english in the workplace and english used as a medium of playful and literary expression the regional and international varieties of english are also considered this book shows us where language is now where it has been and perhaps most important of all where it is heading for the new varieties of the language appearing in world literature and on the internet show that this is a story which is by no means over
