The Life of Mohammed 2017-09-18 a biography of muhammad the founder of islam

The American Muhammad 2013 as an outcome of its political and military needs mahomet created and established its unassailable belief in fatality not the fatalism of

cause and effect bearing within itself the essence of a reason too vast for humanity to comprehend but the fatalism of an omnipotent and capricious power inherent in the mahomedan conception of god with this mighty and irresponsible being nothing can prevail before every event the result of it is irrevocably decreed mankind can alter no tiniest detail of his destined lot the idea corresponds with mahomet s vision of god an awful incomprehensible deity who dwells perpetually in the terrors of earth not in its gentleness and compassion the doctrine of fatalism

Mahomet Or Founder of Islam 2008-12-01 the prophet muhammad is a hero for all mankind in his lifetime he established a new religion islam a new state the first united arabia and a new literary language the classical arabic of the qur an for the qur an is believed to be the word of god revealed to muhammad by the angel gabriel a generation after his death he would be acknowledged as the founder of a world empire and a new civilisation any one of these achievements would have been more than enough to permanently establish his genius to our early twenty first century minds what is all the more astonishing is that he also managed to stay true to himself and retained to his last days the humility courtesy and humanity that he had learned as an orphan shepherd boy in central arabia if one looks for a parallel example from christendom you would have to combine the emperor constantine with st francis and st paul an awesome prospect barnaby rogerson s elegant biography not only looks directly at the life of the prophet muhammad but beautifully evokes for western readers the arabian world into which he was born in 570 ad

Mahomet - Founder of Islam 2014-12-09 it is a known fact that every language has one or more terms that are used to refer to god and sometimes to lesser deities at the same time this is not the case with allah allah is the personal name of the one true god nothing else can be called allah the term has no plural or gender this shows its uniqueness when compared with the word god which can be made plural as in gods or made feminine as in goddess it is interesting to note that alah is the personal name

of god in aramaic the language of jesus and a sister language of arabic the one true god is a reflection of the unique concept that islam associates with allah to a muslim allah is the almighty creator and sustainer of the universe who is similar to nothing and nothing is comparable to him the prophet muhammad was asked by his contemporaries about allah the answer came directly from allah himself in the form of a short chapter of the quran which is considered to be the essence of the unity or the motto of monotheism this is chapter 112 which reads in the name of allah the merciful the compassionate say o muhammad he is allah the one god the self sufficient who has not begotten nor has been begotten and equal to him is not anyone some non muslims allege that god in islam is a stern and cruel god who demands to be obeyed fully and is consequently not loving and kind nothing could be farther from the truth than this allegation it is enough to know that with the exception of one each of the 114 chapters of the quran begins with the verse in the name of god the merciful the compassionate in one of the sayings of prophet muhammad may the mercy and blessings of god be upon him we are told that god is more loving and kind than a mother to her dear child on the other hand god is also just hence evildoers and sinners must have their share of punishment and the virtuous must have god s bounties and favors
