theory through an applied examination of the ways in which people create meaning for texts spivey first delineates major constructivist positions from the early 20th century including frederic bartlett s description of the discourse processes of individuals small groups and large communities then she concentrates on reading and writing processes as they were variously perceived throughout the 1970s and 1980s these cultural and cognitive avenues of investigation provide an essential starting point for her presentation of the late 20th century approaches to the generative organizational and selective nature of human communication the work illustrates an integrative conception of discourse placing cognitive activity in relation to the text while assuming a social orientation encompassing both composition and comprehension it describes constructivist concepts in terms of their similarities and differences it applies theoretical positions to case studies in reading and writing and presents conclusions useful to scholars working on issues of comprehension and communication in east salem the elite st adrian s academy is at the nexus of a satanic apocalypse and the prominent wealthy chicago family so it was a shock to everyone when he and his lover richard loeb confessed to killing their 14 year old neighbor bobby franks for a thrill during the summer of 1924 the world watched in fascinated horror as the pair were defended by the famous clarence darrow in what many labeled the trial of the century there was a massive public outcry when the murderers were spared the death penalty and once they were behind bars most hoped they would never be heard from again 33 years after the murder it seemed that nathan leopold was a changed man in prison he ran a high school and library worked as a nurse and helped find a cure for malaria he was deemed rehabilitated and paroled to a tiny town in the mountains of puerto rico there he got a degree in social work raised funds to build a hospital and advocated for the abolishment of prisons and capital punishment when he died in 1971 there was an outpouring of support for the gentle reformed killer yet his life was not what it seemed 100 years after the murder this groundbreaking new biography uses previously unseen archival collections to look at the full life of nathan leopold and reveal the motivations
