

## ***reconnect with nature ted talks***

Oct 05 2023

🔊 the voice of the natural world bernie krause has been recording wild soundscapes the wind in the trees the chirping of birds the subtle sounds of insect larvae for 45 years in that time he has seen many environments radically altered by humans sometimes even by practices thought to be environmentally safe

## ***understanding the natural world and our place in it***

Sep 04 2023

🔊 biologists study and compare specimens to understand how species are related and how they evolved anthropologists examine human artifacts to document cultural continuity and change geologists

## ***making sense of the natural world bbc earth***

Aug 03 2023

🔊 all is right with the world but how can you apply that to the maddening chaos of the natural world a world that consists of around two million named species and incredibly anything from 10 to 100 million undiscovered and undocumented ones
