words are dying not all words only a select few words that have specific bearing on our moral health as a nation and our moral past in this book a selected list of words is given these words are not dying because of misuse but because their essential meanings have been forgotten compromised or eclipsed altogether as america enters a moral vacuum it seems the opposite of what we were and what we are is now the rule what was once bad it seems is now good and vice versa the use of words and language reflects this change such obscuring of language is subtle but there nonetheless beware
