life is increasingly governed and mediated through digital and smart technologies platforms big data and algorithms however the reasons practices and impact of how the digital is used by different institutions are often deeply linked to social oppression and injustice similarly the ability to resist these digital impositions is based on inequality and privilege challenging the ways in which we are increasingly dependent on the digital this book raises a set of provocative and urgent questions in a world of compulsory digitality is there an opt out button where when

how why and to whom is it available answering these questions has become even more relevant since the covid 19 pandemic in response the book puts forward the concept of digital disengagement which is explored across six key areas of digitisation health citizenship education consumer culture labour and the environment part i examines the difficulty of opting out of compulsory digitality in a world where most things are digital by default from health apps algorithmic decision making to learning analytics opting out comes with a set of troubling consequences part ii turns to several examples of disconnection and disengagement the chapters reveal how phenomena like digital detoxes time management apps and online green spaces are co opted by the very digital systems one is trying to resist the book critiques issues relating to digital surveillance algorithmic discrimination and biased tech corporatisation and monetisation of data exploitative digital labour digitalised self discipline and destruction of the environment as an interdisciplinary piece of work the book will be useful to any scholar and activist in digital internet and social media studies digital sociology and social policy digital health media popular and communication studies consumer culture and environment studies
